All classes of fuel will be in demand, and heavy orders will be received both in the anthracite and bitumincus regions, while an unprecedented number of coke ovens will be erected throughout the soft coal sections. The high water mark of the iron trade will keep rolling mills in active operation and the effect of this industry will be feit in the stimulus received by every other industry. Several voluntary advances have been made by employers to their employes, and an advance of from 5 to 10 cents per gross ton has been promised the miners of the Clearfield region. the first of next month. In the Lehigh and Schuylkill valleys, which are the largest producers of iron in the eastern section of Pennsylvania, there is the greatest activity, and employer and employe are on the best terms possible. It must not be forgotten, either, that all these fair prospects are nurtured under a Democratic National Administration. This fact is the more noticeable since Republican predictions have been always to the effect that a Democratic President would be sure to involve the country in bankruptcy and irretrievable business depression.
