A short time after he had gone a tramp came along and inquired for Mr. Dodd, and upon being informed that he was not at home, dropped his bundle and took a chair upon the porch. After waiting awhile for him to leave and seeing that he did not intend to go, one of the young ladies, remarking that she wanted to have a chicken for dinner, brought out and taking aim at a chieken knocked its head off at the first shot. Then turning to the tramp she informed him that his presence was not desired any longer, and without waiting to argue the question he immediately took his departure.

-The ordinary consumer of bread and butter almost invariably in eating places it in his mouth with the buttered side uppermost. Scientifically considered, this is wrong, for the principal seat of taste lies in the mucous membrane of the tongue; hence, in order to derive the full benefits from this homely morsel, it is proper to reverse the position of the butter when eating and place it against the tongue, thereby deriving the full benefits of the butter. A single trial, as suggested, will demonstrate the truth of this proposition. The epicure who makes a study of the science of eating will acknowledge this pertinent fact. The man with a mustache, who finds no inconsiderable amount of his food in that appendage at the close of his meal, will also hall this idea with delight. The unfortunate to whom the following verse seems significant will be overjoyed:

I never had a piece of bread, particularly large and wide,

the buttered side.

What Became of Napoleon's Fortune? One of the most remarkable historical incidents of this century was the disappearance of the First Napoleon's enermous fortune. In 1810 he was far and away the richest individual in the world. He came out of the Italian campaign ending in 1800 with \$4,000,000, according to his own account. This be maintained with his private property. Thking the statements he made to his friends and others at St. Helena, he must have hidden away when he left \$4,000,000, or 200,000,000 francs! This would make him very much the wealthiest man in the world, for that sum then was equal in influence to \$200,000,000 now. No proach him in personal fortune. Murshal Soult, the last of the Imperial Marshals (who died in November, 1851, just about a -Wm. Walker, of Wakulia county, Fig., | year before his great antagonist, the Duke
