The Iron Trade.

In spite of tariff outery the fron trade in Pennsylvania shows an improved tone. The shadow on the future is not the probable outcome of revenue legislation, but the lowering rates for South- a previous dispute. ern iron. The capacity for cheap proaggressively manifesting itself, and it is certain, in the long run, that Pennsylvania iron mills will have to regulate their business to meet Southern prices. The mills that cannot make cheap iron will have to stop.

The hardship of a situation which destroys the value of investments made under the encouragement of tariff bounties cannot be denied. But the Federal Government will be powerless to protect iron-masters against each other as long as there shall be free trade between the States. The loss of individuals by the reduction in the price of iron is, reoreover, an undoubted blessing to the people at large. Iron enters so largely into all the uses of civilzed life that its cheapness gives a spur to nearly every form of useful enterprise. If Pennsylvanta should be driven out of her place as the chief producer of iron in its crude forms she could apply herself to the more profitable task of turning the crude material into the thousand shapes and uses which lie between the making of a country from Maine to California, have fly beel and a needle, or of a steel rail succeeded in mustering a list of a little and a watch spring. There is no reason more than one hundred alleged Demo- for discouragement in the cheapening

The Colored Men in Line.

-On last Friday afternoon thirteen persons were burned to death in a six-story tenement in New York; and a number of others were badly burned, several of them, it is thought fatally. Some of the details of the catastrophe are sickening. An effort GEO. M. READE, was made to saye a woman, but as she could not save her two children, she preferred to remain in the building and die. Her bones, with those of her children clasped in her skeleton arms, were afterwards found in the building.

-A four-year old daughter of John Mc-Guigan, of McDonald Station, on the Panhandle Railroad, was struck by a train on Wednesday night of last week and instantly killed. She was playing on the track unmindful of danger. An express train running at the rate of forty miles an hour rounded the curve. The engineer saw the DR. OLDSHOE, little girl sitting upon the track looking at the approaching train. It was useless to attempt to stop. He simply turned his head while the little innocent one met her death.

-For some time Mrs. Harry Clark, of Uhrichsville, Ohio, bad been troubled with what she supposed was rheumatism. At times she experienced a sharp pain in her leg, and finally a good-sized lump appeared below the knee, which was very sensitive to the touch. Upon examination by a physiclan, he, with the aid of a pair of tweezers, removed a needle, bent at one end and turned black. Mrs. Clark says she has no recollection of ever swallowing a needle, but the physician says this may have occurred when she was a child. -Mrs. William Milligan, of Monticello

Fia., put some pillows out to sun and a Kan., on Tuesday, whole fields of corn were large buil snake four feet long crawled into torn up by the roots and the stalks stripped one of them. The pillow was placed on the and ears husked. Many chickens were bed and the woman slept all night with this even in Pennsylvania the feeling of inde- found entirely devoid of feathers, miles horrid monster under her head. At times from their homes, and other strauge freaks during the night she felt the body of the of our citizens. Over in Cumberland are reported. One girl was burt, but no snake touch her shoulders and arms, but one was killed. Half the tombstones in a supposed it to be the arm of the child that cemetery were blown away and cannot be was sleeping with her. When she went to the bed to make it up she raised the pillow and saw the large snake carled up under it.
