Table with 2 columns: Name and District. Lists names like David W. Sellers, Michael Macos, etc.

DEMOCRATIC COUNTY TICKET.

FOR CONGRESS, THOMAS H. GREEVY, of Blair Co. FOR STATE SENATOR, A. V. DIVELY, of Blair county. FOR ASSEMBLY, DANIEL McLAUGHLIN, of Johnstown...

If you have not paid a State or county tax within two years you cannot vote without paying one on or before October 6th.

The Boston Herald has discovered that of the candidates for President this year Cleveland is the biggest, Harrison the shortest, Fisk the handsomest, Streeter the wealthiest and Balva Lockwood the sweetest.

A Tariff Reform club has been organized in Chicago composed exclusively of prominent Republicans, all of whom will support Cleveland, Charles W. Deering, of the Deering harvesters works, is president.

WHEAT was higher the other day in Chicago than it was in the eastern cities. It is now quoted in Philadelphia at \$1.02 for No. 1 Pennsylvania and in Chicago at 99 c, notwithstanding it costs 11 cents freight to get it to the seaboard.

The Cleveland Plaindealer says The Democratic soldiers of Indiana outnumber the Republican soldiers and Macon is sure of an election. Harrison will be beaten for President in Indiana as easily in 1888 as he was beaten for Governor by old "Blue Jeans" Williams in 1876.

The prohibitionists of the Twentieth Congressional district and the Thirtieth Senatorial district have placed candidates in nomination for the respective offices. For Congress Dr. Elias M. Beachly, of Somerset, has been nominated, and for Senator John Clark, of Williamsburg, Blair county.

THOMAS LEE, of the firm of Thomas Lee & Co., of Philadelphia, wool merchants was detected in the act of smuggling blankets into this country on Tuesday at Philadelphia. It is not an uncommon thing for parties to be caught in the act of smuggling, but in view of the fact that Thomas Lee is a shining light in the G. O. P. and one of the signers of the call for a meeting of Republican business men "to speak out in unmistakable tones in favor of the American system of protection," it has some significance. It shows that while Mr. Lee was in favor of a protective tariff to keep out other people's goods he was perfectly willing that his should be smuggled in free of duty and although a Republican and a beneficiary of high protection his pretended care for the interests of the wage workers is a sham of the fullest kind.

The noted French General Bazaine died at Madrid, Spain, on the 23d inst., aged 77 years. He entered the French army in 1831, and served with distinction in Algeria, in Spain, in the Crimea, and in the Italian campaign of 1859. He took part in the French expedition in 1862, and from 1862 till the end of the war he held supreme command of the French forces. When in Africa, in 1856, he had gained the Cross of the Legion of Honor, in 1856 he had been promoted to be commander of the legion; in 1863 he received the Grand Cross; and in 1869 he was made commander in chief of the imperial guard.

At the outbreak of the war with Germany Bazaine was at the head of the third army corps near Metz. After the battles of Worth and Fatack he took command of the Main French armies, and on August 14, 1870, he began a retreat from Metz. Defeated at Mars la tour and Gravelotte, he retired within the fortifications of Metz, which was immediately invested by Prince Frederick Charles. Attempts to escape failing, Bazaine capitulated October 27, when three marshals, over 6,000 officers, and 175,000 men laid down their arms and became prisoners of war. In 1874 Bazaine was tried by court martial, and sentenced to degradation and death for failing to do his duty. The sentence was commuted to twenty years' imprisonment. But in 1874, Bazaine contrived to escape from the fortress on the Ile Ste. Marguerite, on the south coast, where he was then confined, and ultimately made his way to Spain.

Cheering News.

"I have just returned from a trip through New York, Ohio, Michigan, Wisconsin, Illinois, Indiana and Pennsylvania, and in all these States I found the people agitated over the issues of the present campaign," said Mr. G. Duff Nichols to a reporter in New York on Monday. He is one of the General Committee of the National Association of Democratic Clubs in Connecticut. Mr. Nichols brings home the most flattering and encouraging reports from the farmers and mechanics about the heavy and successful Democratic vote will be polled there. Concerning the nomination of Governor David B. Hill for President in this State's Presidential campaign in reference to his charges against Harrison for having slandered the Irish people, Mr. Condon has talked the matter over with gentlemen who have heard Harrison's speech here in Dudley Hall, and has come to the conclusion that it was in the campaign of 1876, and not in this one.

"The unanimous nomination of Mr. Hill has solidified the party and the Democracy of New York State will certainly give him a safe majority. No matter what I have heard in this State I have found that every prominent hotelkeeper will cast his vote for Hill. The general feeling in the State is that he is a wise and safe man. While Hill's majority may be greater than Cleveland's in this State, yet he will not count on 20,000 majority for the national ticket.

"In Ohio everything is very quiet, and there is no talk of politics. The Democrats of that State, however, very busy sending out campaign literature to every town and corner of the State. They do not expect to carry the State, yet they have a reason for belief that they will greatly reduce the Republican majority. Many of the Ohio farmers who are Republicans are in favor of the old tariff and will undoubtedly cast their votes for Cleveland.

"The people of Wisconsin are also alive on the tariff question, and from every corner of that State reports are coming that the Democratic vote will be greater than that of the Republicans. Michigan is good fighting ground, and every Democrat in that State would give Cleveland 10,000 majority.

"The nomination of Governor Palmer for re-election to gubernatorial honors in Indiana was favorably received here. I believe that, while the national ticket may not meet with success, Governor Palmer will receive a large Democratic majority.

"Indiana is a fighting State, and there the battles rage furiously. Political meetings are being held all hours of the day by both parties, and the Democrats make as many as three addresses in one day in different parts of the State. The manufacturers along the natural gas belt, coming from Indiana and Ohio, are endeavoring to intimidate their employees by threatening a reduction of wages if Cleveland is elected. Whether this will succeed or not remains to be seen. The Democrats are fully informed on the subject, and are using every fair means to counteract it. The fight there is very close, with the chances in favor of Cleveland.

"Pennsylvania Democrats are fighting as fiercely for the election of Cleveland as in any other State. It depended on them, and while they, of course, cannot expect to carry the State, I believe that in 1882 Pennsylvania will be a Democratic State. I have seen a number of Republicans in Pittsburgh and they all admit that the tariff needs revision, their only objection to the Mills bill being that it emasculates from a Southern source.

"They have not forgotten that the war is over and that the issues of that conflict ought not to be forgotten. A visit to the city of Pittsburg will satisfy any unprejudiced man of the result of Republican rule. The streets, which are only forty feet wide, are almost entirely covered with cable roads, much to the disgust of draymen, as well as persons who drive in carriages. They find it impossible to traverse streets which are covered with these rails. Fifth avenue, the most prominent street in the city, is entirely blocked up with these cable cars. The campaign in the Hoosier State is approaching the red-hot stage, with six weeks more for work. Indiana casts a little in excess of half a million votes, and of late years has been casting a Cleveland vote of 6,000, and 1884, Cleveland had 6,000 more than Harrison. In 1888, on local issues, the Republicans carried the State by 3,324. In 1880, on local issues, there has been a high ratio of 12,000 votes and a Prohibition vote that has reached 9,000. The latter is an increasing force in the State and the Democrats are anxious to win the field of the labor vote. The Democratic national ticket, which is so strong in the West, will prosper the labor vote will go largely to the Democratic ticket this year, because of General Harrison's radical course during the war. The interests of the workmen and laboring sides with corporation employers, who favored him with big retainers. He turned them against him, and he used politics to enforce their rights." All this is telling against the Republican candidate, and it is especially in connection with his pro-Chinese revenue which will not out. The Republicans, like Lady Macbeth, have come to consider "that which they cannot see."

Harrison and the Irish.

BLOOMINGTON, Ill., Sept. 18.—When the Republican papers and politicians attempt to face Mr. William Condon in his statement of Harrison's fatal abuse of the Irish, they will find they are not brushing aside a lying allegation by some irresponsible idle campaign preparator, but are facing the solemn Committee of the National Association of Democratic Clubs in Connecticut. Mr. Nichols brings home the most flattering and encouraging reports from the farmers and mechanics about the heavy and successful Democratic vote will be polled there. Concerning the nomination of Governor David B. Hill for President in this State's Presidential campaign in reference to his charges against Harrison for having slandered the Irish people, Mr. Condon has talked the matter over with gentlemen who have heard Harrison's speech here in Dudley Hall, and has come to the conclusion that it was in the campaign of 1876, and not in this one.

"Harrison had praised all the nationalities, except the Irish, and was just quiting the features of his address, when he turned to the Irish people. He said about the Irish, and where they were Meagher, Sheridan, Shields, Mulligan and the others? The crowd hissed the speaker and shouted 'put him out.' While they were making the old general from the building Harrison said exactly these words:

"I want to know that man's race; you all know what they are; if it were not for them we would not need half of our penitentiaries, which are almost full of them; they have no intelligence; they are only good to show good and grade railroads, for they receive more than their worth, as they are worth no acquisition to the American people. I want to know that man's race; you all know what they are; if it were not for them we would not need half of our penitentiaries, which are almost full of them; they have no intelligence; they are only good to show good and grade railroads, for they receive more than their worth, as they are worth no acquisition to the American people. "The Irish American to the Democratic party favors a tariff system favorable to England and detrimental to America. The Irish are blind no matter from anyone. I dislike to bring any foreign nationality into our American politics, in a free country where we all have an equal right to be heard. American interests only; but Harrison has provoked this matter by his own false and bitter words on the stump. I have no prejudice against the Irish people; on the contrary, it is a pleasure to remember that all races have contributed to the growth and splendor of our country, and that the terrible conflict for the maintenance of the Union the Civil War and the brave heroes from the German fatherland fought side by side with the American people.
