Last Friday, while Dr. and Mrs. Buck were absent from the city on a trip into Cambria county, Miss Mills made ready some small number of pickles, and placing them in a brass kettle stood on the stove. The common method is to prepare first in a tin vessel. After allowing them to soak about six hours she took one of them out and ate it with her dinner. It was a fatal thing to do, as the vegetables poison soon seized upon her system, and with no one to give her the necessary attention, the unfortunate girl grew weak rapidly and was soon beyond medical help. Dr. Buck returned Saturday noon, and discovered her condition to be highly serious. Every known device was employed to bring her recovery. At one time yesterday, before passing into unconsciousness and in her agony, she said: "How much better that I should be the sufferer rather than you should all die from my mistake." Her end came peacefully, and death coming as a welcome release shortly before 1 o'clock this morning.
