Surprise parties are all the rage in this locality. Scarcely a week passes without one or more. Johnstown Press on Fire: An Associated Press dispatch elsewhere in this paper refers to the burning of the sleeper "Aragon" on the Pennsylvania railroad this morning. The dispatch is not altogether correct. The car was attached to the second section of Western Express. The flames caught from the stove and were first discovered between Wilmore and South Fork. The flames were in their incipient stage, and the porter, who discovered them, was able to extinguish them. The car was then taken to the depot, and the passengers, who made their way, half clad, into the other cars, only one or two of the main passengers remaining to help the porter fight the fire. This proved a herculean task, but was finally accomplished after the interior decorations and the contents of the car had been almost entirely destroyed. When the express arrived at East Cosewagh, which was at 6:40, the car was cut from the train and run on a siding. Later it was attached to the second section of Pacific Express and taken to Pittsburgh for repairs. The exterior of the car showed no signs of the fire that razed within.
