GENERAL HOVEY, the Republican Governor of Indiana, in his inaugural address on Monday last, declared that there is reason to believe that the bal lot has been poluted, not only in this State but in many of the other States of the Union, and in both political parties, until in the eyes of many respectable men it seems to be no longer regarded as a crime.

If this is continued, the Governor said, a moneyed aristocracy will soon control the destinies of our Nation. The demagogue who would buy the vote of his poor and needy neighbor is far more corrupt and vile than his victim, and will only wait his chance to sell the liberties of his country for a higher price.
