Ebensburg, April 12, 1889. Whiskey Kills.

How often are we yet to be fold that whiskey kills? Arsenic kill; opium kills, and so do hundreds of other good remedies kill if abased instead of used. But ask the question, "Will whiskey cure?" "Yes!" is the positive reply of the most eminent physicians of all the land. Disease steals into your system like a sneak thief into your house, and often by neglecting a bad cold, we end our days in lingering, and wishing for health—when, indeed, one bottle of Pure Whiskey or Brandy would have cured the cold.
