EDMUND A. BIGLER.

Edmund A. Bigler, the Democratic candidate for State Treasurer, was born in Clearfield, in August, 1843. He is the son of Hon. William Bigler, Governor of the State from 1852 to 1855, and United States Senator from 1856 to 1861. Mr. Bigler has always been engaged in busi-ness pursuits and never held political office until appointed Collector of Twenty-third Internal Revenue District by President Cleveland, July 1st, 1885. Acter the passage of the Act of June 6, 1883, Governor Pattison was obliged to resort to the courts by mandamus to compel the commissioners of the sinking fund to obey the law. The law was treated as a nullity till 1884. But let us hold Governor Pattison responsible for its execution for three years and five months, and compare that term with the one year and eleven months of Governor Beaver's administration as appears by the State Treasurer's sworn

From the passage of the law of June 6, 1883, to December 31, 1886, Governor Pattison compelled the investment of \$4,300,000 U. S. bonds costing \$5,305,-837. These bonds would have earned by February 1, 1892, when the first State bonds fall due, \$1,238,745 interest. He also compelled the purchase of \$1,-901,500 State bonds costing \$2,236,642, saving in interest by February 1, 1892, \$609,117, or a total saving of \$1,847,-862 by February 1, 1892, when the first State bonds fall due. TREASURY BEFORM.

Why Reform in the State Treasury Is Needed, and why the Election of Edmund A. Bigler will promote It.

1. Because under Republican rule taxation has largely exceeded the needs of the State, and vast sums of money have improvidently gathered into the Treasury vaults.

2. Because Republicans officials have failed to use or invest these moneys as the law directs, and the State has lost a large sum, amounting to nearly one quarter of a million dollars in two

3. Because, at the command of a po litical boss, these surplus funds of the State are deposited with favorite banks, corporations and firms, in sums ranging from ten thousand to six hundred thousand dollars, to be used for his private political advantage, and their

rivate gain.
4. Because, in these transactions, the State has only one-half million dollars security for more than two and one-half million dollars thus deposited.

5. Because, with more than one milreimbursable, the Republican Stoking a mistake of the engineer. Fund Commissioners (of whom a Republican State Treasurer was one) sold a million of United States bonds that the already swollen Treasury. 6. Because, not counting the pro-ceeds of these Government bonds, which were sold at less than market

rate, and after these Republican offitwo thousand dollars worth (par) of undue State loans at a price above the then market rate, there remained in the Creasury over a million dollars to cash. 7. Because the Republican majority in the Legislature refused to stop this flow into the Sinking Fund when it was

shown to be enormously greater than the requirements of said fund. 8. Because the Sinking Fund Com-missioners, to-wit: C. W. Stone, Secretary of State; Thomas McCanent, Auditor General, and W. B Hart, State Treasurer, are all Republi-cans; and it would be for the best interests of all the people that the tax-payers, half a million at least in number who have named Edmund A. Bigler for State Treasurer, should be repre-sented, (in obedience to the well estabished principle of minority Represents

tation,) in the management of the mon-eys belonging to all the people.

9. Because the safe keeping of the public moneys raised by general taxa-tion upon the property of the citizens of all political beliefs, is a matter not of private but of public concern, and should not be connected with partisan politics, and much less be made the personal and private affair of a faction al Boss; and the election of Mr. Bigles . 2,211,303 a much needed reform, to-wit: non-partisan management of the State

The Buffaloes.

Twenty years ago there roamed over the plains and mountains of the far West nearly 8,000,000 buffaloes. Today there are less than 500 head of the animals in existence. There are but eighty-five head of wild buffaloes, 304 alive in capitivity, and about two 200 under the protection of the Government in Yellowstone Park. There is also said to be about 550 head in the British possessions, north of Montana, but this is rumor. Of the eighty-five head of wild buffaloes which are known to ex-Colorado, twenty-six in Wyoming, ten in Montana, and four in Dakota. The statistics have been carefully gathered by the officials of the Smithsonian institution, and it is absolutely known that the number stated comprise all the wild buffaloes of the world. The skeletons of the numerous berds of a score of years ago are bleaching on the Western plains, a tribute to the prowess of the American Nimrod.

A Bad Outlook for Foraker.

The perils of a political campaign conducted on the mud-throwing plan are illustrated by the demoralization of the Ohio Republicans consequent upon the collapse of the charge against Congressman Campbell, the Democratic candidate for Governor. The entire Republican campaign has been based pon the accusation that Mr. Campbell had a money interest in a ballot box for a bill in Congress. Mr. Campbell said nothing in denial, but allowed the cloud to gather and overshadow all other issues in the campaign, and then produced proof that the documents were forgeries. It is to the credit of Mr. Murat Haistead that be "owns up" and makes his retraction as embatic as he made his original accusation. But the effect upon the canvass of his party is most deplorable.—Boston

We advise our readers to take advantage of the cheap transportation, and see the great exposition, and while visting the sister cities do not fail to look for number 82 Federal street, Allegheny, where one of the finest and most complete liquor stores can be seen in this country. You will convince yourself at a glance, that house you are sure to be well treated and get value for your money. The proprietor of said house cannot afford to hypothecate his reputation and do otherwise. He continues to sell six year old pure rye whisky -At Dumfries, England, on Monday the at \$1.00 per quart, or six quarts for \$5.00 tors. Am now in best of health." Try it. ing a young girl, the verdict being rendered at \$1.50 per full quart.
