MEETING OF THE DEMOCRATIC COUNTY COMMITTEE. To the members of the Democratic County Commit

Chargen ant-There seems to be a prevailing opinion among Democrats, that a change should be made in our system of nominating candidates for office. It is ursed that the present system has damaged the party in the county and that a like result has followed its adoption in all the other counties where it provails. I have been repeatedly urged by prominent Democrats throughout the county, who have no other interest in the matter than the good of the party, to call, the County Committee together, for the purpose at considering the propriety of retaining the present or adopting the old delegate system. Therefore, I will ask what seems to be a popular demand, that the 'members of the Democratic County Conmittee, meet at the Armory Hall, in Ebensburg, on Monday the 24th day of February 1890, at 1 o'clock P. M. for the purpose of deliberating on this and other matters of interest to the party. I would further suggest that each constituents on the subject, so that any action taken by the Committee would be endorsed by JOSEPH A. GRAY, the party. Joseph A. Chav., Chairman of the Democratic Committee

Extertionate Profits.

According to that excellent authority. The Iron Age, the profits of the Lake Superior iron ore mining companies are enormous. As an ins ance of what it considers enormous profits mention is made of the dividend of \$6 50 per share lately paid by the Metrepointsn Iron and Land Company, The capital stock of this concern is \$2 -600,000, divided into 80,000 shares of parvalue of \$25. The dividend, it will be perceived, as 25 per cent, of the capital -tock. The shares are quoted at benefit Ohio or any other western farm- \$75 and the dividend for the coming year will probably be larger than the eggs for more money than the present dividend lately paid. There are other owners, according to the statement of The Iron Age, "almost if not quite as can do that without a tariff by simple heavy proportionate profits on the business of 1889." The demand for the Superior ores is so keen that it is a question whe'her the output for the coming year has not been already overhave as good a right to be protected by sold at prices which will certainly make next year's profits excessive.

This showing is gratifying as a proof lumber tairff. Very true; but he of the health and strength of the iron where the girl was playing with the baby, forgets that what he terms a "right" is trade; but it is also a demonstration and if the people were stupid enough to iron business by cheapening the raw accept the situation the farmer could material of Eastern mills dependent not be indicted for selling by false upon a foreign ore supply. The tax of quorum and with its aid unseat such weights and measures. After all the 75 cents per ton is a discrimination Democrats as they may see fit and adopt tariff is simply a roundabout way of against all iron making east of the tent it helps the Lake Superior monopolists to swell their bank accounts by extortionate prices it is an injustice to iron makers and iron consumers in every part of the Union .- Phila.

SAPOLIO is one of the best known city luxuries and each time a cake is used an hour is saved. On floors, tables and painted work it acts like a charm. For scouring pots, pans and metals it has no equal. If your store-keeper does not keep it you should insist upon his doing so, as it always gives satisfaction and its immense sale all over the United States makes it an almost necessary article to any well supplied store. Everything shines after its use, and even the children delight in using it in their attempts to help around the house.
