MEETING OF THE DEMOCRATIC COUNTY COMMITTEE,

To the members of the Democratic County Commit-GENTLEMEN:-There seems to be a prevailing opinion among Democrats, that - change should be made in our system of nominating candidates for office. It is urwed that the present system has damaged the party in the county and that a like result has followed its adoption in all the other counties where it prevails. I have been repeatedly urged by prominent Democrats throughout the county, who have no other interest in the matter than the good of the party, to call | the County Committee together, for the purpose or considering the propriety of retaining the present, or adopting the old delegate system. Therefore, I will ask what seems to be a popular demand, that the members of the Democratic County Conmittee, meet at the Armery Hall, in Ebensburg, on Monday the 21th day of ; February 1890, at 1 o'clock r. M. fer the purpose of de-Uperating on this and other matters of interest to the party. I would further suggest that each member of the County Committee, consults his constituents on the subject, so that any action taken by the Committee would be endorsed by JOSEPH A. GRAY. Chairman of the Democratic Committee

While considering this fact, our guests could scarcely be so impressionable as to be deceived by fine phrases Carlisle, Mr. Crisp and his associates and glittering generalities about drawing more closely the bonds of commercial intercourse among the nations of the Western Hemisphere. They recoglong lane from one Congressional elec- nize that under the existing tariff policy of this country there could be no serious question of establishing with Central and South America more intimate relations of trade.

In the entertainments, public and election of members of Congress, and have teen invited they have heard glowit was referred to the committee on ing accounts of the magic influence of subsidity as a means of cultivating intimate relations with their countries. But the subsidy jobbery, out of which a few steamship owners and a hungry Washington lobby may draw enormous plunder, has no attractions for them. They could not, of course, object to any expenditure this Government might choose to make in steamship bounties, but they would scarcely recommend such a profligate scheme to the people whom they represent.

It is not the Pan-American Congress, but the Congress of the United States, upon whom should devolve the task of promoting mutually advantageous commercial intercourse with our Southern neighbors. The first step to this end would be to admit free of duty the prostantinople has been revived, and if car- need. The bill will be passed with the ducts which Central and South America have in such abundance, and which are so necessary to the people of this country.
