MEETING OF THE DEMOCRATIC COUNTY COMMITTEE.

To the members of the Democratic County Commit-GENTLEMEN -- There seems to be a prevailing opinion among Democrats, that a change should be made in our system of nominating candidates or office. It is ursed that the present system has damaged the party in the county and that a like result has tollowed its adoption in all the trict. The President wanted to appoint other counties where it prevails. I have been re peatedly urged by prominent Democrats throughout the county, who have no other interest in the matter than the good of the party, to call | the County Committee together, for the purpose of considering the propriety of retaining the present, or adopting the old delegate system. Therefore, I will ask what seems to be a popular demand, that the members of the Democratic County Conmittee, meet at the Armory Hall, in Ebensburg, on Monday the 24th day of ; February 1800, at 1 o'clock r. M. for the purpose of dethis and other matters of interest to the party. I would further suggest that each member of the County Committee, consults his constituents on the subject, so that any action taken by the Committee would be endorsed by JOSEPH A. GRAY, Chairman of the Domocratic Committee Carrolltown, Pa., January 21, 1890.

Senator Quay the counting of ballots was practically done openly and in the presence of numerous witnesses. The local Republican manager was not there, it is true, because he had been put to bed drunk. The Republican claim of fraud was based chiefly on the fact that there were only four votes cast in the precinct for their candidates. At the investigation, they could only produce three men who would swear that they had voted their ticket. Not one of the Republican accusations was upheld, and the facts were shown to be just as

Reformers who Ought to Reform.

In certain portions of the West there claim to be the legally elected Senators bas been a curious and dangerous de velopment of lawlessness among that portion of the community that considers itself the most respectable and votes in one precinct they were able to might reasonably be expected to be the most law-abiding. It is founded on the belief that the end justifies the means, have furnished ample proof that no no matter what they are. Like the fraud was committed there, and that ancient miriner whom Bosina Vokes any attempt to go behind the returns made famous, and who married a dozen wives in his tours around the world, "it doesn't matter what you do, if your heart is only true to Poli."

The Prohibitionists, who look upon the rest of the world as unworthy of regard, are the chief offenders in this respect. In Iowa they have destroyed property in defiance of the iaw, invaded the privacy of homes and walked roughshod over the personal rights of people, until there has been a revulsion of feeling, and their unjust and cruel liquor laws will probably be repealed. It is in Missouri now that their chief activity is displayed, and in comparison with the scenes enacted in some of the older cities of that State, the worst mining town on the frontier is peaceable and law-abiding.

In Lathrop, the women went through the lown in a band. They had pledged themselves to exterminate the liquor traffle, and they wrecked saloons and and drug stores, throwing the liquor into the streets and destroying property generally. They even talked of invading private houses, but that idea was given up. One woman told her followers that she knew a house where they kept liquor all the time, and advised that it be raided. They did not do so, because of the intimation that if they did they would be met with a double-

barreled shot gun. The result of the outbreak will be watched with interest. The prosecuting attorney has signified his intention of doing his duty an | having the women responsible for the outbreak arrested. The law-abiding Prohibitionists have threatened in return to claimants, admitted that their right to kill the first man who serves a warrant their seats depended upon the Silver on any of their wives and daughters. Another Ballot-Box Deal.

WASHINGTON, Feb. 17 .- The feather

Mr. Cate, the Democratic sitting member, has recently come into possession of some information, with the necessary proof, which may, perhaps, create some diversion in his favor. Among the many things filed with the election committee as tion. And now the facts disclosed in evidence by Mr. Featherstone, the contestants, in support of his case, is a ballot box accompanied by a statement to the effect that it was used in the election which resulted, according to the Governor of Arkansas, in the the "funny" kind. Mr. Featherstone alleges that this is the reason Mr. Cate secured on the face of the returns more votes than he did.

Now Mr. Cate comes forward with the statement that not only were such boxes not used in the election in his district, but that this particular box was, for several days preceding the election, reposing quietly on one of the shelves in the rooms of the Rej ublican national league in this city; that there are marks on the box which prove its identity, and that he can prove that it ters of the league to the room of the House Committee on elections. This statement he proposes to have made on the floor of the House, and it may prove very useful to his case.

An Expensive Entertainment.

The most notable entertainment, without exception, ever given at the executive mansion where refreshments were served, was that to the diplomatic corps in February, 1881, at the close of statesmanship and politics alone. It is the Hayes administration. There had passed before the President and Mrs. Hayes 7000 persons by actual count. Of this number 4500 partook of the lavish refreshments served. There were two large wine barrels of terrapin prepared and served. Over 1500 loaves of bread and 120 hams were made into sandwiches. There were nearly 1000 quarts of cream furnished. Nearly 400 chickens were used in salads. Over 150 gallons of coffee and great tanks of lemonade were consumed. There were cakes and confections without stint, The steward of the household, W. T. Crump, who managed this emormous gastronomic campaign, h d a small army of men and women in the kitchen. A supply of 2500 clean plates was kep: constantly on hand and required 10 dishwashers. There were seven cooks in the kitchen and 50 waiters employed in serving the guests. The actual cost of this single entertainment

that the bribe may be accepted. was \$6000-although no wines were served-which was more than has ever been expended by any President for State dinners during a whole administration. The jam was unparalleled, owing to S-nators and others abusing the executive hospitality by bringing as many as 10 ladies on the card destined only to include the ladies of their families. - Washington Star.

This is what you ought to have, in fact, you must have it, to fully enjoy life. Thousands are searching for it daily, and mourning because they find it not. Thousands upon thousands of dollars are spent annually by our neople in the hope that they may attain this boon. And yet it may be had by all. We gnarantee that Electric Hitters, if used according to directions and the use persisted in will bring you good digestion and oust the demon Dyspensia and install instead Eupepsy. We recommend Electric Bitters for Dyspensia and all diseases of the liver, stomach and kidneys. Sold at 50 cents and \$1.00 per bottle by E. James, Ebensburg, and W. W. McAteer, Loretto.
