SAPOLIO is one of the best known city luxuries and each time a cake is used an hour is saved. On floors, tables and painted work it acts like a charm. For scouring pots, pans and metals it has no equal. If your store-keeper does not keep it you should insist upon his doing so, as it always gives satisfaction and its immense sale all over the United States makes it an almost necessary article to any well supplied store. Everything shines after its use, and even the children delight in using it in their attempts to help around the house.
