

FRIDAY, JANUARY 30, 1892.

By appointing a January free the Michigan Legislature hopes to prevent any State official accepting a railroad pass.

By appointment of Chairman Kerr, Mr. Fish Conrad, of Tyrone, will have charge of the Democratic affairs of this Congressional district.

The Spring election opens on Tuesday, February 17th. In view of its close proximity, it is about time for the patriots to be looking up their chances.

Ballot for a United States Senator continues in the Illinois Legislature. The twenty-third ballot was the same as all the previous ones: Palmer, Dem., 101; Oglesby, Rep., 100; Streator, Alliance, 3.

A bill has been introduced into the Legislature of Indiana providing that any man that shall be proven guilty of whipping his wife shall himself receive 60 lashes, and that he shall be admitted to the jail-yard to see him whipped.

Attorney General Kirkpatrick, of Easton, realized \$44,000 in his four years' service under Gov. Weaver's administration—\$16,000 in salary and \$28,000 in commissions. The position was worth more in a monetary sense than that of the Governor.

Prince Rodolphe, heir to the throne of Belgium, died suddenly at Brussels, Friday, aged 32. There are conflicting reports as to the cause of his death. Official reports state that it was produced by influenza. Other reports state that there is a scandal in the case, and that the tragedy is a repetition of Archduke Rudolph of Austria.

George G. F. Kibling, of Norwich, Vt., was fined \$8,000 for selling 715 drinks in violation of the Vermont prohibition law. Not being able to pay the fine, he received the alternative sentence of six months in prison.

The Republican members of the Legislature at Harrisburg, are talking of reading Don Cameron out of the G. O. p. since he voted with the Democrats in helping to defeat the Force bill. As Cameron has six years to serve as next United States Senator after the 4th of next March, it is not at all likely that he will free himself over any action the aforesaid members may take.

The successor of Senator Ingalls was balloted for in both Houses of the Legislature at Topeka, Kansas on Tuesday, Monday night, the House of Representatives in the name of the Alliance caucus. In the Senate the ballot resulted: Ingalls, 35; Pfeiffer, 21. In the House the result was: Pfeiffer, 95; Ingalls, 3; C. W. Blair, 5. The joint ballot was taken on Wednesday and resulted in Pfeiffer's election.

After 24 days of a double-headed Legislature at Helena, Montana, the Democrats and Republicans have agreed on a plan of compromise. The rival houses are to meet as one body, the Republicans getting 28 members and the Democrats 27. The Democrats are also to have the Speaker, the subordinate officers and the control of the committee. The compromise was drawn up by the Senators of both parties, and will be signed to-day (Thursday).

In the case of Senator Hearst there is a grim race between politics and death. The Senator's disease would be followed by the appointment to the Senate of a Republican chosen by the Governor of California, and the transfer of a vote from the Democratic to the Republican side might undo the work of this week. A day or two ago Mr. Hearst's case seemed hopeless; but he has since rallied a little, and the news of his respite is welcome to a circle vastly wider than that of politicians.

The Democrats in the Senate on Monday again succeeded in slowing the Force bill. The cloture bill, which is intended to aid Republicans in their attempt to pass the Force bill without consideration when Senator Wolcott moved to lay its consideration aside and take up the Apportionment bill. A vote was taken and the motion carried by a vote of 35 for to 34 against. The Democrats were assisted by the votes of Cameron, of this State, Jones of Nevada, Stewart, Teller, Washburn and Walcott.

A Washington dispatch says: From a programme agreed upon by the "steering committee," of the Senate it would seem that the elections bill has been placed in its grave. The "steering committee" consists of four Republican Senators—Messrs. Plumb, Frazier, Hoar, and Sherman—and they are charged by the Republican caucus with arranging an order of business for the Senate.

At the meeting on Tuesday it was decided to call up the bill for the adjudication of claims of laborers and mechanics arising under the eight hour law immediately after the apportionment bill is disposed of. This will be followed in turn by the copyright bill, the Indian depletion claims bill, the pure food bill and the Nicaragua canal bill. This programme is however, subject to disarrangement by the consideration of appropriation bills, which are privileged matters and have the right of way over all other business. It is probable that several appropriation bills will be called up before the programme arranged for is carried out.

The Mammoth Coal Mines situated in Westmoreland county, on the Seewick branch of the Southwest Pennsylvania railroad on Tuesday was the scene of the worst mining disaster that ever occurred in the United States.

About nine o'clock in the morning those outside were startled by the sound of the explosion coming from the mine. It is supposed to have been caused by the igniting of a miners oil lamp, and worked in that part of the mine there are probably some left alive to tell the tale of the explosion.

The terrified and more than half-suffocated miners who were not killed are nearly all in such a condition that they may die at any moment; while the eighteen bodies of the dead already recovered present a ghastly suggestion of what is yet to be brought out of the mine of death into the light.

The fire which broke out after the explosion was soon extinguished by the immense fans which were put in operation. The gas has, therefore, about all been driven from the pit, and the work of rescuing the entombed miners has begun. General Manager Lynch, of the Frick Company, is on the scene devising means to rescue the victims.

The affair has cast a gloom over the entire coal region. Hundreds of miners are flocking to the scene of the disaster and offering assistance. Horror is piled over horror. Coffins have been ordered from Pittsburg and Mount Pleasant for eighty persons. The only man who escaped uninjured from the fatal mine was Boss Eaton.

It has been estimated that there are sixty widows and families that are left wholly dependent on charity. They are almost penniless, as the plant has not been running full for some time, and work has been exceedingly scarce since the dullness set in.

A dispatch from the scene of the explosion dated Wednesday evening says that all the bodies have been found and taken out and that the total number of dead is 106. Of these 71 have been identified. The balance 35 have so badly mutilated that identification was impossible. On Wednesday afternoon a train left Mammoth for Scottdale bearing sixty-three of the dead miners in coffins, and about three thousand people. Two long trenches had been prepared and on reaching the cemetery the sixty-three bodies were buried side by side. At the head of almost every coffin a mother, wife or sweetheart stood mourning for her loved one and the sight was one that those who witnessed it can never forget.

CONGRESSMAN JAMES KEES, Chairman of the Democratic State Central Committee of Pennsylvania, yielding to the solicitations of his many Democratic friends in the present and next House, has consented to be a candidate for clerk of the next House of Representatives.

Mr. Kerr has many claims upon the Democratic party, which should not be overlooked. It was due to his efforts, more than any other Democrat in the Fifty-first Congress, that the State of Pennsylvania elected a Democratic Governor and gained several members in the next Congress. It will be remembered, also, that while Mr. Kerr was securing these results he sacrificed his own return to Congress.

Another particularly strong argument in his favor is that he comes from a section of country which has no candidate for Speaker, and his candidacy can, therefore, not interfere with the election of that officer. Then the office of clerk of the House of Representatives has been held by Pennsylvanians almost since the founding of the Government, and there is no reason for departing from the time-honored custom.

In the great money centres of this country there are millions of dollars hunting for safe investments at three and four per cent. annum. Yet there is not a country town in the State that has not got an agent for the Swampland Building and Loan Association of New York, or the Mutual Investment Company of Holyoke, Massachusetts, promising fifteen or twenty per cent. dividends every year and fair prospects for doubling the principal at maturity. Are the capitalists in the cities blind to these chances for investment or are these companies that stray away so far from home to distribute their favors, looking for suckers? These are questions that every man ought to ask himself when he finds an investment hook dangling in front of him baited with an unusually long worm.

—A will, to be valid in law, must be signed by the testator at the end thereof. Such, in brief, is the law of this State as clearly expounded by Judge Hanna, of Philadelphia, the other day, in a case in which a testator, after having signed his will in the presence of witnesses, tacked on a codicil which he appended neither date nor signature. It was held by the court that the will itself was valid, but that the codicil was not. This, of course, is not new law, but it may be to many persons; and the judge's decision, which covers the ground thoroughly should be a caution to testators against the addition of postscripts or explanatory clauses of any sort to instruments already completed in a legal sense.

SENATOR FAULKNER, of West Virginia, talked for seven hours and fasted for fourteen hours in the late trial of endurance by which the advocates of the Force bill hoped to break down opposition to that infamous measure. He deserves a statue in front the Capitol for this great service.

WILLIAM F. VILAS, was elected United States Senator at Madison, Wisconsin, on Wednesday, to succeed Senator Spooner. Senator Vilas was Postmaster General and Secretary of the Interior under President Cleveland.

Washington Letter.

Senator Gorman is proving himself more than a match for the Republican Senators and he is still confident that with the active and determined support of Democratic Senators and the moral support of the conservative masses of the country, the Force bill and its revolutionary forerunner, the gag-rule, can be defeated. He fairly and squarely outgeneraled the Republicans when they attempted to wear out the Democrats by a continuous night and day session of the Senate, and now he is winning new parliamentary laurels by the manner in which he is blocking the Republican attempt to force a vote upon Senator Aldrich's gag-rule resolution. He compelled Mr. Morton to acknowledge the necessity for an erroneous ruling. The Republicans have but one hope of succeeding and that lies in Vice President Morton making an arbitrary decision in their favor, and the probability is in favor of his doing so, although it will be because of the great pressure brought to bear upon him and not because he wants to do it.

When the Senate adopted the gag-rule resolution and passes the Force bill, there will still be ground upon which to base hope for its defeat. The amendment before the Senate will make its return to the House necessary, and there the Democrats can renew the fight, which the narrowness of the margin in the Senate makes most probable. The amendment may make successful. At any rate the Republicans in the House must have a quorum of their own members in order to pass it, and that is more than they have had for three successive days during the session.

Car Reed as he nears the end of his power shows a disposition to resume some of his tricks of the last session. By the denial of a request that he be removed from the Senate, he has shown that he is as determined as ever that he should stay. Mr. Reed's attitude is a provocation to all those who are in sympathy with the reformers. It is a provocation to all those who are in sympathy with the reformers. It is a provocation to all those who are in sympathy with the reformers. It is a provocation to all those who are in sympathy with the reformers. It is a provocation to all those who are in sympathy with the reformers.

The Force Bill's Backset. The elections bill was laid on the shelf, by the Senate yesterday (Monday) to take up the apportionment bill. If it comes to the front again after being laid on the shelf, it is a backset. The bill has been laid on the shelf, by the Senate yesterday (Monday) to take up the apportionment bill. The Docks resolution providing for an investigation of the Congressional Silver pools in bearing fruit. Senator Vest has testified that Senator Cameron has acknowledged it, claiming that he had made money speculating in silver bullion, and Senator Cameron has acknowledged it, claiming that he had made money speculating in silver in corn, wheat or any other product. How is that for cool audacity? The chairman of the committee, Representative Dingley, of Maine, is accused of having adjourned the committee from last week until Wednesday of this week in order to prevent the presence of Representative Perkins of Kansas said "put the dirty lawyer (Mills) out," and in a moment he found the big fist of Representative Martin of Indiana in close proximity to his nose and was informed that if there was to be any "putting out" he (Martin) proposed taking a hand in it. That was the last heard of Perkins in the matter. The sergeant-at-arms trotted out with the gold head mace, the emblem of authority in the House and quiet was restored.

Another particularly strong argument in his favor is that he comes from a section of country which has no candidate for Speaker, and his candidacy can, therefore, not interfere with the election of that officer. During the past six years Minnesota has paid \$78,341 for wolf bounties. During certain months of the year the bounty is only 75 cents a head. During other months it is \$1. It is alleged that certain persons have been in the habit of farming wolves, and also of keeping wolf skins open during the months when their scalps were worth only \$3 until the 15th of the month, when they were generally speaking, the bounty system has been grossly abused.

Monday night two young men, named Charles Grant and Charles Meyer, of Lebanon, Pa., met with a thrilling experience while crossing the Pennsylvania railroad bridge at Bolyvar. They were tramping the way west, and had reached the end of the bridge when a freight train came along going west. They attempted to step out of its way when by some mischance they were swept over the side and fell to the bottom of the river, forty-three feet below. His companion hastened to his assistance, supposing he was killed, but sprang to his feet, and escaped with a few cuts and bruises upon his face and body.

A well-dressed young man registered at the Spencer House, Niagara Falls, on Saturday, at "C. Stanley Cleveland, O." He drank heavily, and Reservation Park policeman Highland had just locked the gate of the bridge leading to the foot of Goat Island when he saw Stanley climbing over the gate. He ran after him and took him by the arm to lead back to the mainland, Stanley struggling to get away. They were in the middle of the bridge when Stanley jerked away from the officer and jumped over the railing, falling on the ice, where he lay stunned. Help was called, but when it had almost reached him, Stanley worked his way to the edge of the ice and was carried over the American Falls.

One of the most important real estate transfers ever made in the Lehigh valley was consummated at Allentown on Tuesday when the Crane firm works at Catasauqua, next to the largest pig iron producing establishment in Eastern Pennsylvania, was sold to the Crane firm for \$1,000,000. Besides the five furnaces of the company at Catasauqua, the purchase includes the Warwick iron works at Pottsville, Pa., the valuable mines of the company at Selahville, Pa., and leases on furnaces at Edgemoth and Manuels, together with all the raw material, rolling stock, and all the Lehigh valley works, which are owned by the company. The negotiations have been pending for a year. No immediate changes in the management will be made.
