and wools are imported from England EBENSBURG, - - · PENN'A. and fine thread silks from France. Germany produces a line of hosiery goods from the cheap to the medium. More of the articles of German manufacture are Carrolltown Bank. used in this country than any other kind. In the United States lisle threads, cottons, wools, a fair grade of cashmeres and some very good silks are produced for home consumption. In the suburbs of Philadelphia, and in that city, also, the making of domestic hosiery always general basing business; has been and is to-day a very important industry. New Hampshire is another stocking-producing State, and the knit cotton goods of Massachusetts are known in every section of this country for their excellence. In Indiana a fine grade of men's woolen socks is made. The manufacture of the silk goods is confined to the East, and as a matter of fact the domestic mills are scattered all over the country. Two years ago a hosiery plant was established in Rhode Island by a number of Englishmen who of Europe. brought the machinery and the skilled workmen to this country. There is conticle. But the sale of silk goods is limit-

FACTS ABOUT HOSIERY.

our stocking industry; our cotton and woolen goods are improving in quality every year and it will not be long before they are fully equal in every respect to the foreign hosiery. Cottons are largely worn now. There seems to be a decreasing demand for woolen goods. This trade is one of the most important branches of the dry-goods traffic, because everybody must cover his or her feet. even if unable to buy Alexander kids or sealskin sacques. A cotton stocking cuts a very unimportant figure in a financial sense, albeit it is decidedly comfortable when the air is chilly. It may be an interesting item to know, says the Chicago Post, that one of the largest importers of German hosiery in the world is the leading dry-goods establishment of Chicago.

VERY DISHEARTENING.

What Your Sweetheart Will Eat in the Course of Her Existence. A cynical doctor, withal a man o wonderful resources and a quick mind. lives on one of the avenues on the South side, says the Chicago Tribune. He was in his study a few nights ago when a young man came in and began questioning him about his (the young man's) propriety of marrying. The young man foolishly raved over his sweetheart and called her angelic and so on. He was afraid that she was too fragile for this world. The old doctor grunted. "Fragile, ch?" he asked. "How fragile? Ever test her fragility? Let me give you some figures about her and womankind in general, showing how fragile they are. Let us suppose that this piece of perfection is in moderately good health. She will live to be, say, sixty years old. Women don't like t

two quarts of coffee, tea or water. And by the time she is ready to have a monument she will have consumed 175 hogsheads of liquids. Fragile? Now, young man, these figures do not include the forty or fifty lambs she will worry down with mint sauce. It does not take into consideration the 2,000 spring chickens, the 500 pounds of butter, the 50,000 eggs and the four hogsheads of sugar she will consume in sixty years. It doesn't take into consideration her ice-cream, her oysters, her clams and such. All this leans about 45 tons, or as much as you could stack in half of Sibley's warehouse. Fragile? Think of your affinity in connection with these figures and then rave over her being fragile Young man, you are a foel. Boof!" LAZINESS DOESN'T PAY. The One Great Secret of Success Is to Be Found in Activity. The sun never stops in his course Light is constantly streaming over the earth. In the great workshop of the universe, Nature is very busy with those processes which are to robe the earth with her carpet of green and fill the air with the odor of flowers. Inactivity there would soon bring trouble and death. In life, too, one secret of success is found in activity, says the Somerville Journal. "Not a day without a line," was the motto of a great reformer-one of the grandest men our civilization has known. Eight times did the greatest of Grecian orators copy the history of

die any more than men do-not as much -for women never grow old, you know Listen to me: She will cat one pound of beef, mutton, or some other flesh every day. That's 365 pounds of meat in a year. In sixty years it's 21,900 pounds. How's that for fragile? "She will eat as much bread and as much vegetables per diem, and there
