#### STATE DEMOCRATIC CONVENTION. HEADQUARTERS DEMOCRATIC CENTRAL

For Jury Commissioner,

E. J. BLOUGH, of Johnstown.

COMMITTEE, 1416 SOUTH PENN SQUARE, PHILADELPHIA, August 1, 1891. To the Democratic Electors of Pennsylvania:

In accordance with the resolution passed at a meeting of the Democratic State Executive Committee at its conference or July 9th, 1891. I hereby give notice that the Democrats by their duly chosen representatives will meet in State Convention in Harrisburg, on THURSDAY, SEP-TEMBER 3, 1801, at 10 A. M., for the purpose of placing in nomination candidates for the offices of State Treasurer, Auditor General, Delegates-at-Large for the Constitutional Convention, and for the transaction of such other business as may be

In accordance with the rule sixteen unauimously approved by the State Convention September 4, 1889, the representation shall consist of representative delegates, one for each one thousand votes cast at the last preceding gubernatorial election, or for a fraction of such vote amounting to five hundred or more in the respective representative district, provided that each representive district shall have at least one delegate.

[We omit in the call the Democratic vote of the state and legislative districts and the number of delegates allotted to each.] Special notice is directed to rule twelve concerning the election of delegates: "All worse. notices of contest shall be sent to the Chairman of the state central committee, in writing, within ten days of the date upon which the election was held," etc. JAMES KERR,

THE Boston Herald says: If our high tariff friends continue in this state of enthusiasm over the fall in the price of sugar from the removal of the duties upon that article, isn't there danger that they will implant a desire in the minds of the public to try this experiment of reduction upon some other articles? From the mass of figures which has been collected to show the huge deficit n the grain crop of Europe, says the N. Y. World, one fact stands out in appalling prominence—the existence of a

state of famine in Russia. Already there are reports of peasnt eking out existence on grass boiled in water, of people dying of hunger in the parents trying to sell their children to save them from starvation. The reserves of grain in the country have been used up and the harvest which is being gathered is less than half a crop. Wheat is 100,000,000 of bushels short, and rye, the staple food of the peasantry, is short, at least 300,000,000 bushels. Instead, therefore, of being able to export 90,000-000 bushels of wheat and 60,000,000 bushels of rye, as is the case in ordinary years, Russia must import 250,000,-000 bushels of grain to feed her own

But there is no evidence that Russia can do anything of the kind. Accordng to Stepniak, a letter from whom is published in Free Russia, the relief fund of the Empire, held against such emergencies, has been reduced to 11,000,000 roubles, not a twentieth of the sum needed to cope with the present dis-

The credit of the Russian Government has never been so poor as it is to day, and the destitution of the peasants, who pay 85 per cent. of all the taxes, means a loss to the National Treasury of probably half its ordinary income. There have been five partial famines in Russia in the last eight years, but for a parallel to the one now threatened it is necessary

A disaster of such magnitude is calculated to command the sympathy and aid of the civilized world, whatever may be administration which tend to make it

EVERY day makes it more apparent says the Philadeldhia Herald that Democratic chances in Ohio are going to be largely increased by Republican dissensions. But should McKinley be defeated and Foraker's plans upset, it will be to Sherman that the Ohio Republicans will have to turn if they expect to engage in a successful battle in the future.

According to statements derived from Evening Post there are two companies which practically monopolize the making of granite ironware in this country. One of these is the St Louis Stamping Company—otherwise Mr. Niedringhaus. Under the old tariff the duty on such ware was 45 per cent. Mr McKinley, to oblige Mr. Niedringhaus, raised it to 50 per cent.; and now, having had this 50 per cent. clapped on the home market, Mr. Niedringhaus is doing so nicely that ne is enabled to sell his wares to the Canadian consumer at prices 35 and 40 per cent, lower than they can be bought

So every household in the land must pay its Neidringhaus tribute in one shape or another. If its cookery be done in tin utensils, Neidringhaus gets his share of the broth, so to speak. If the family meals be cooked in agate ware, the Neidringhaus' ladle gets the first help, without a word of grace or so much as "by

It is not a new scheme of the tariff barons to have two scales of prices, one for the markets of the world, where they of business, and another for the helpless home market, which is utterly at their mercy. But it will be news to many a consumer, nevertheless, that Niedringhaus sits beside him at every meal, and that there is no pot, however watched, that Niedringhaus is not "in it."

The meet- cents. was a secret one and of course the memstreets of the overcrowded towns and of bers of the committee will not talk for publication other than in a general way of what was done, but it can be stated without any violation of confidence that the meeting was in every sense of the word a successful one and that the reports received were of the most encouraging nature, showing the rapid growth of Democratic clubs to be without precedent in the annals of political organ zations, and adding to the confidence which each member felt before the meeting that the man nominated by the next Democratic national convention would be stop until the market is broken.

the next President of the United States. In the absence of anything more important the resignation of the negro demagouge, Frederick Douglass, as minister to Hayti, was much discussed here this week. When Douglass was first informed by a newspaper man that his resignation had been accepted, he was disposed to blackguard the administration and the State department particularly for having forced him out of the diplomatic service, but later, probably on a promise of some other office, he changed around completely and insisted that he had been misunderstood by the first newspaper man, and that his resignation had been entirely voluntary. This is simply not correct as it has been an open secret here for many months that the State department wanted to get rid of Douglass, but that Mr. Harrison hesitated to dismiss him for fear of the effect next year. According to his own statepertion of his time in Hayti in pushing through private claims against the Haytian government. Notwithstanding the general belief that Mr. Blaine wishes to send a whiteman of ability to Hayti, in the verdict on the errors of policy and order to secure the Mole St. Nicholas for a coaling station, half a dozen negroes have already filed application for the place, and some are reported to have made threats that Harrison dare not appoint a white man to a position that Cleveland filled with a negro.
