The Unappini Story as to the Origin of Louis Philippe.

Serious Doubts Entertained by the Royalists of France Regarding the Origin of the Count of Paris.

"Not a Bourbon, but a mere Chiappini, with the blood of a base-born Italian jailer," were the words used by Count Maurice d'Antigne, the favorite and confidential secretary of the late compt de Chambord, to stigmatize the compt de Paris at the banquet held the other day in the French capital by that section of the royalist party which denies the pretensions of the compt de Paris, and which regards Don Carlos as the rightful heir to the claims of the compt de Chambord.

Inasmuch as but few people outside of France are aware of the very serious doubts which exist as to the royal charneter of the comte de Paris' descent, it may be of interest, says the marquis de Fontenoy in the New York Recorder, to give a brief outline of the so-called

I will begin by stating that the latter is strongly indorsed by Sir Bernard Burke. Ulster king-at-arms, and the greatest of genealogists, who, after careful researches extending over a number of years, publicly proclaims that neither the comte de Paris nor any of his children and uncles have a drop of Orleans or Bourbon blood in their

According to documentary evidence of the most complete nature King Louis Philippe, who taught a school in this country at the beginning of the present century, and who subsequently reigned from 1840 to 1848 as sovereign of France, was a changeling. He was not the son of the regicide Duke Philippe d'Orleans, surnamed "Egalite," but was the offspring of the Florentine jailer, Chiap-

The documentary evidence which I have referred to above, and of which go to show that in 1783 the duke and duchess of Orleans, traveling under the very transparent incognito of Comte and Comtesse de Joinville, arrived at a small town-I forget at this momen the name thereof, but it is somewhere near Florence-and took up their residence at the leading inn of the place. Twenty-four hours later the duches gave birth to a daughter, who was entered upon the local parish register as the female child of the "Comte and Comtesse de Joinville."

Both the duke and the duchess displayed signs of disappointment at the sex of the child, and learning that the wife of the local jailer, Chiappini by name, had a fine healthy boy, they induced the parents of the latter by means of a large bribe to consent to an exchange of children.

The failer's son, Chiappini, therefore grew up to consider the duke and duchess of Orleans as his parents, and | 5 | Mail*... 4 eventually ascended the throne of Z Church France as King Louis Philippe, while the authentic child of the duke and duchess was taught to believe that she was the daughter of the Chiappinis.

She grew up to be a beautiful girl, figured for a time under the name of Maria Stella Chiappini as leading dans euse of the opera of Florence, and finalis became the wife of an Irish peer, the first Lord Newborough, to whom she bore two sons, the younger of whom, born in 1803, is the present bearer of

On Jailer Chiappini's deathbed he made a last confession in writing, duly attested by witnesses, of the change of children that had taken place at the time of Lady Newborough's birth, and other evidences in support of the state ments contained in this dving confes sion were duly legalized copies of the entries in the (since mutilated) parish register of the town where she was born, and a sworn statement of the old chief steward of the duke and duchess F. J. BURGOON. Train Master. of Orleans, who had accompanied them during their momentous journey to

Lady Newborough sacrificed both her peace of mind and the major part of the immense fortune bequeathed to her by her husband in her vain efforts to get the French courts to recognize her claims to royal rank, an obviously hopeless task, since Chiappini's son, Louis Philippe, was on the throne of France

When she died her son, the present Lord Newberough, determined to waste no further trouble or money in prosecuting claims that could lead to bur barren honors, and made up his mine that the position of an English peer and landowner was after all superior to tha of a French pretender,

It is a fact that Czar Nicholas was so firmly convinced of the truth of Lad Newborough's claims and of the falsit of Louis Philippe's pretensions to royal parentage that in order to publicly manlest his sentiments on the subject he declined during the entire eight years of Louis Philippe's reign to accredit a Russian ambassador to the French court.

QUEER THINGS IN CHINA.

Ir is the custom in many parts of China to tie a white cock to a coffin and then sacrifice it on the grave. Reggans are an organized guild in China. They abound everywhere, and in the north their only garment, if any, is a tattered sheepskin.

In Shanghai and in many other places in China the crows build and raise their broods in the trees of the city. On account of the Buddhist reverence for all life, no one harms them. THE junks, whether at sea or on the

river, are a perpetual terror to the steamer captains. The masters of the junks believe that if they can cross a moving steamer's bows close at hand it will bring them good luck for the year. It is a custom very ancient and very common in China for anyone who has a grievance against anyone to get upon

ALEXANDER DUMAS is said to have worked in some gambling scenes in his new comedy, as he spent several weeks (but not a sou) at Monte Carlo last winter observing the play.

ELLA WHEELER WILCOX began her poetical career at the age of eight years, and at sixteen she had a local fame before she had ever been ten miles away from her country home.

Plain enough - the way to a clear complexion, free from blotches, pimples, eruptions, yellow spots, and roughness. Purify your blood, and you have it. With pure, rich blood, an active liver, good appetite and digestion, the hue of health follows. Doctor Pierce's Golden Medical Discovery gives you all of them. It is the blood-purifier. There's no lack of them, but there's none like this. It's guaranteed to accomplish all that's claimed for it. In all diseases arising from torpid liver and impure blood, it benefits or cures. or the money is refunded. With an ordinary medicine, it couldn't be done. But this isn't an ordi-

nary medicine. It is the cheapest blood-purifier sold, through druggists, because you only pay for the good you get.

Can you ask more? The "Discovery" acts equally well all the year round.
