Tetrible Gas Explosion.

NANTICOKE, Pa., Nov. 8 .- A terrible explosion of gas occurred this afternoon in No. 1 shaft of the Susquehanna Coal death of six men and so badly burning ship with another mechanic, began cona wife and four children; Henry R. Jones, town clerk at Nanticoke, fire boss, 40 years old, wife and two children; The critically injured are: D. W. Evans, David Powell, 32 years old;

Thomas Thomas, 19 years old; two Polanders, names unknown. When the news of the disaster reached it was learned many had been killed, and the relatives and friends of those known to be employed in the mine flocked to the scene. While they waited for news from the shaft the scene was herrowing in the extreme. Women and children ran hither and thither, wringing their hands, wailing, weeping and seeking news and sympathy from relatives and acquaintances in the crowd. It was soon learned that, owing to the fact that this was Sunday, there were but 14 men at work in the mine at the time of the explosion. These were all either killed or badly hurt. The injured were in such condition that they could not be removed from the mine, and it is feared all will die.
