SENATOR GALLINGER, of New Hampshire, has introduced a bill in the United States Senate providing that every person in the employ of the United States Government who is not a native born or completely naturalized citizen of this country shall be at once dismissed There has already been great complaint over the employ of aliens in Incrative Federal positions, notably in the Census Bureau and other departments in Washington.

THE symptoms of the new grip which is now prevalent are somewhat different from the two former periodical attacks of the disease. There is little or no sneezing: the victim is first attacked with shooting pains through the limbs and as these increase in severity they settle in the muscles, producing soreness to the touch. The pain is not confined to any one section, but jumps about, preferring the thigh. There is very little influenza, nor are any other features of the old grip noticeable to any extent.

We would say that, as announced some time ago, we have decided to do a STRICTLY CASH BUSINESS after January Ist. Dict.

After having done a credit business for over nineteen years we have concluded that for many reasons it is to the interest we have concluded that for many reasons it is to the interest of our customers as well as ourselves to make a change. During the time we have been in business we have endeav-ored to deal with our customers in a straightforward man-ner and to give them full value for their momey, and we think that our efforts have been appreciated from the fact that we have always enjoyed a fair share of their patronage and have increased our business. But, although we feel we have been successful in many respects, yet by trusting we have lost some money, as all credit stores are bound to do. While this is the case, yet our reason for changing to do. While this is the case, yet our reason for changing to a CASH SYSTEM is not so much the amount of money we have lost, as the time and trouble required to keep an ac-count in good shape and the length of time we have been compelled to allow them to stand

Under the new order of things we will have time to keep our stock in order, and is wait on our customers more promptly, and by getting the SPOT CASH for our goods we will lose nothing, and will be able to sell even closer than we have heretofore. Thanking you kindly for your trade in the past and assur-

ing you that we shall make it to your interest to deal with us in the future! I am Yours truly,

re-election to the Senate, nor do I expect to be when my term expires, but if the position is tendered me by the legislature of Pennsylvania I will accept it." Mr. Quay appears to have taken a lesson

UNITED STATES SENATOR PRESTON B. PLUME, of Kansas, died suddenly at his boarding house in Washington city, on Sunday last, of appoplexy. Senator Plumb was born in Ohio in 1837 and when young learned the printing trade which he worked at until he went to Kansas in 1856 where he studied law and afterward went into the banking business. He had served 14 years in the Senate and two-years ago was re-elected for a third term which would have expired in 1895. His successor will be appointed by the Governor of Kansas.

COLONEL ÉLLIOTT F. SHEPARD, matrimonially connected with the house of Vanderbilt, says the Pittsburg Post, is on top of the Grant monument association, New York, after the success of certain devious methods of organization. It is understood the association, under command of the colonel, will refuse all subscriptions from Democrats or Catholics, and any Southern man offering money to buy granite for the monument will be shot on the spot. The monument is to be Republican in the first place and evangelically orthodox in the second. Sinners and publicans and Democrats will be allowed to view it at a distance.

THE department of agriculture at Washington says the inspectors of the bureau of animal industry on Long Is land have unearthed an abbatoir at New, town creed which they found to be de-«voted entirely to the slaughter of broken down crippled horses. Many of these horses were diseased and some of them affected with glanders. The inspectors thoroughly investigated the destination of the carcasses and it was found that most of the meat was corned and put up for export as family beef. The secretary of agriculture was at once communicated with and he wired the inspectors at point of shipment to stop such exports and to immediately notify local boards of health.

SPEAKING of Mr. Homan's 'selection as Chairman of the Committee on Appropriation, the New York World says: "The selection is excellent. The reckless squandering of the Billion Dollar Congress has imposed enormous expenditures upon the country which the present Congress cannot in any wise escape, and the most rigid economy will be necessary at every point where economy is possible. Mr. Holman has always been notably jealous of unnecessary expenditure," And it might be added that the Democratic party could go before the people with better hope of success on no other platform than that of economy in the expenditures as one of the main planks.

A BILL was introduced in the United States Senate one day last week by Senator Quay, of this state providing for a survey of a route for a canal connecting

officials either actively with him or neutralized so that they dare not take up the cudgels for Quay. Honors are

out endangering the party crockery in

about even, as far as can be seen now. between the two leading aspirants, and both are in the field early enough to make a complete and vigorous canvass.

Due credit should not be withheld from President Harrison for the excelence of most of the appointments he made in filling the newly-created United States Circuit Judgeships, says the n making William S. Woods, of Indiina, one of the new Judges.

Woods may have sufficient judicial
