Dressing in Good Taste. American ladies, especially in the larger ndy of them they get correct ideas upon the all-important subject of dress. Any lady can cultivate her taste in this direction if she will only go to the trouble of comparing the styles found in the reliable fashion journals publised by A. McDowell & Co., 4 West 14th street, New York, with those appearing in other fashion magazines. Those issued by A. McDowell & Co. are produced only by the best artists, and are for the most part plain, and in every respect practical; the others are generally very lond or dowdy, and thoroughly unsuitable for the requirements of American women. The firm of A. McDowell & Co. seeks to lurnish ladies with genuine French styles, such as can be used without any danger of appearing ridiculous. Hence their fashion journals are now the favorites with all ladies of good taste throughout the country. "La Mode de Paris" gives the latest French styles. "Album des Modes" furnishes styles which are popu-lar in Paris. "La Mode" gives a selection of styles which are serviceable to the family. place on Thursday December 31st, aged blane if the horrid grip secures a feathold the Sixteenth district composed of Bedford The Sixteenth district compos
