CHAIRMAN REEDER had 80,000 Reputhean majority entrus ed to him, and he is dreadfully afraid some one will steal it. If the reports received from different Republican counties of the state are not grossly exaggerated, the independent voter has got away with more than half of it up to date, and the chances are. he'll have it all before election day.

Tur Stamford, Conn., Record has removed the Republican ticket from the head of its editorial columns, and ansounces that hereafter it will be Independent-Democratic in politics, and will support the canditates of the Democratic party. It says it came to the conclusion that the measures advocated by the Democratic party are for the best interests of the country.

It was reported a few days ago that the government had withdrawn the contract for making armor plate from the Homestead works and that the work in the future would be done at the Bethlehem Iron works. The secretary of the navy and the managers of the Homestead works had a conference at Washington one day last week and when they parted everything was ameably arranged. The threat of transferring the contract is believed to have been a polite way of notifying Mr. Carnagie that a libera! contribution to the Republican campaign fund would not be considered out of the way.

THE United States Supreme court deof meeting of the electors.

The act is not obnoxious to the provisions of the Constitution conferring upon the state legislature the power to fix the manner of choosing electors, nor of the fourteenth amendment, and the judgment of the Michigan Supreme court, upholding the law is affirmed. The views of the court will be written at length later. The opinion was by Chief Justice Fuller. The effect of this will be to give Cleve-Wolverine state.
