This is the impregnable truth as to the motive and effect of the measure; and all the Peck statistics in the world will not prevail against it.

"REPUBLICAN protection is a fraud' because it protects only the manufacturer by enabling him to get higher prices for goods, which prices the people who labor for wages have to pay without getting any increase of their wages. The employment of more men at the same or at lower wages to make more high-priced goods does not benefit those who were employed before.

NEXT Tuesday the voters throughout the United States will be called upon to decide by their votes whether or not they are willing to continue in power a party that upholds the present unjust tariff system which is building up a rich aristocracy and pauperizing the laboring classes. The workingmen who want to pay protection taxes for such purposes should vote the Republican ticket. But he will get no protection himself.

How the Force bill would operate is shown by the fact that United States deputy marshals were used at Niagara Falls last Friday under the present more moderate election law to protect small squads of floaters, mainly negroes and loafers brought over the line from Canada, in registering. The Democrats were powerless, as the federal deputies were instructed to arrest anyone who " interfered " with the registration. The interference was "spelling" or challeng-

THE Johnstown Democrat of Saturday

The Johnstown weekly Tribune's article on the printing of the infamous its country readers, for unadulterated mendacity has no equal. It is the most barefaced and stupid lie ever printed in Cambria county paper. The Tribune certainly has a most contemptible opinion of the intelligence of its country

The Democrat drove from his hole and hiding place the culput, W. S. Davis, the mailing clerk of the Jonnstown postoffice, who was connected with the writing and circulation of the infamous and disgraceful tirade. When the Tribune learned that Davis, a Republican official, had been discovered as one of the parties, Davis was forced to sign a card saying that he alone was responsible for the circular, so that other republicans should be shielded from any of the odium and disgrace.

This miserable creature Davis had to assume this responsibility or lose his position in the postoffice. The poor devil to save his place absolutely was had protested by everything that was holy and secred that he knew nothing about it.

methods that the Republican party is people on next Tuesday show their condemnation of this infamous and disreputable kind of politics, and stop it now, or will they give these fomenters of strife full swing, and drive every respectable and decent man in the county from politses? Will the people give the present Republican ring the power to damn every foreign born citizen in the country, and ostracise every man for his religious opinions?

Keep the Republican rascals out!

The secret character of the new ballot system, says the Philadelphia Herald. prevents in a large measure the bribing of voters. Where there is no means of knowing whether a voter who has received money for his ballot will carry out his contract, there is no inducement for corrupt politicians to put money in such an uncertain investment. Another plan, however, is being resorted to, by which money can be made useful JUDGE GRESHAM says of the McKinley but it takes more cash, as it effects but the Democrats can only be fulled into a

No doubt something was effected in this way, and it may be ex pected that further efforts will be made to purchase the absence of voters who, if they should go to the polls, would vote against Harrison. The immense cormethod of killing votes takes more money to produce the desired result than the old way of polling the vote for the candidate in whose interest it was bought. It is a negative result that only goes half way. The numerically large of Minnesota, ex-commander-in-chief of registration in New York shows that the registry was not materially affected by money, and reliance may be placed on the vigilance of the Democrats in counteracting the efforts of the boodlers to

This week's Gallitzin Vindicator says the following in commenting on the attacks made by the Johnstown Tribune on F, J. O'Connor the Democratic candidate for district attorney:

hire voters to stay away from the polls.

The uncalled attacks made through the Johnstown Tribune upon F. J. O'-Connor, Esq., Democratic candidate for district attorney will react upon the Republican party next Tuesday and will not effect the vote for district attorney alone, but the whole Republican ticket. In attacking Mr. O'Connor they have increased his vote with the miners of the county, and he will get the solid vote of the Democratic and the independent members of that craft and likely many Republican votes if we may judge by the miners expressions and we feel we are safe in doing so. Mr. O'-Connor has made an exaellent district attorney and people of Cambria county regardless of politics feel it their duty to re-elect him. We have known Mr. O'Connor for years, and as advocate of at least saying, we always found him WE believe Mr. Blaine is likely to bonest and capable in the discharge of people are concerned, we feel they will show his assailents that they know their man and will support him.

Washington Letter,

Washington, D. C., Oct. 29. - Politics was by ununimous consent a talaned subject in Washington from the time Republican circular, intended to deceive the death of Mrs. Harrison was announced until the funeral train bearing her remains started upon its sorrowful journey to Indianapolis. The hearts of our people were overflowing with sympathy for the President of the United States, who was, for the time, forgotten as the candidate of a political party, and remembered only as the loving and bereaved husband of the good woman lying dead in the White House. There was no boundary line to this sympathy it came from every section of our own country, as well as from all parts of the world. Mr. Cleveland, our candidate, was among the first to wire condolences, and the local Democrats, as a mark of their sympathy, removed their Cleveland and Stevenson banner until after the funeral cortege had passed down Pennsylvania avenue on its way to the train. Mrs. Harrison belonged to the type of mother and wife of which every American is proud; she carried herself with the same quiet dignity when presiding over her little three room cottage as when mistress of the White House and ranking as the "first lady in the land," This country owes more to this type of woman than history will ever tell, and it was only right that it should pause in the compelled by the Republican leaders to midst of a Presidential campaign to shed assume the whole responsibility after he a tear over the grave of Caroline Scott Harrison.
