wedding dress when told of the accident. -Notwithstanding the fact that the editor of the Republican Gosling flunked last week on our offer to take ten thousand blank ballots at the price he alleged they could be printed for and concluded to 'wash his hands of the matter" he has been struck by another idea and is threshing the old straw over again this week. He changes with every change in the moon, from \$1,98 per thousand, \$3,000 for the job, 82,000 what he could do the job for \$4.68 a reasonable price, and this week concludes that we have had a net profit of \$1,000. At the time of the printing of th ballots he alleged he had prepared a bid and that he could have sayed the county noney at a price anything over \$2000. In view of the fact that the Gosling's figures are liable to shrinkage we await with in terest to know in three months from now what the Gosling could have printed the ballots for the city election in Johnstown for. The problem can be worked out by the old "Rule of Three."
