The Ballots.

Quite a number of township auditors are inder the impression that there is no use getting specimen ballots for the ensuing election and that a less number of ba'lots than prescribed by law will be sufficient. The law says plainly that 75 ballots shall be printed for every 50 names, and that an equal number of specimen ballots shall be furnished. The auditors have no discretion in the matter and when they undertake to furnish ballots in any other manner than the law directs they are liable to be brought up facing section 34 of the Baker

ballots law which is as follows: "Any public officer upon whom a duty imposed by this act who shall negligently or wilfully fail to perform such duty or who shall negligently or wilfully perform it in such a way as to hinder the object of this act, or who shall wilfully or negligently violate any of the provisions thereof shall be guilty of a misdemeanor, and upor conviction, shall be sentenced to pay 1 ine not exceeding one thousand dollars of o undergo an imprisonment for not more han one year, or both, at the discretion of

The Local Paper.

of years, by dispensation from the Holy

Governor Francis, of Missouri, who appreciates the valve of a local paper, gives the following reasons why it should be patronized: "Each year the local paper gives from \$100 to \$1,000 in free lines to the community in which it is located. No other agency can or will do this. The editor, in proportion to his means, does more for Lis county than any other ten men; he ought to be supported, not because you like him and his writings, or not supported because you don't like him and disagree with his writings, but all should support a local paper because it is the best investment a community can make; it may not be brilliantly edited or crowded with thought, but financially it is more benefit to the people than the teacher or preacher. Understand me, I do not say morally or intellectually, but financially; and yet on the moral question you will find most of the local papers on the right side. To-day the editors of the home papers do more for the least money of any men on earth."

The Use and Abuse of Whiskey This subject could be dwelt upon to a considerable length and yet much remain untold, but all agree that the use, the proper use of pure rve whakev is an absolute necessity, especially so now, when nature insists upon being stimulated. All and justly claim that Klein's Silver Age and Duquesne Whiskies are most reliable. They do this not only because they have tried them, but because the leading hospitals use them—find them the best stimu-lants in the world. Silver age sells for \$1.50 and Duquesne for \$1.25 per full quart. For sale by J. Ludwig & Son, Johns

"Seeing is Believing." And a good lamp must be simple; when it is not simple it is not good. Simple, Beautiful, Good—these words mean much, but to see "The Rochester" will impress the truth more forcibly. All metal, tough and seamless, and made in three pieces only, it is absolutely safe and unbreakable. Like Aladdin's of old, it is indeed a "wonderful lamp," for its marvelous light is purer and brighter than gas light, softer than electric light and more cheerful than either. Look for this stamp—THE ROCHESTEE. If the lamp dealer has n't the genuine Rochester, and the style you want, send to us for our new illustrated catalogue, and we will send you a lamp safely by express—your choice of over 2,000 varieties from the Largest Lamp Store in the World.
