The Contract Given.

On Friday last, the contract for grading the Ebensburg & Blacklick railroad was given to Mr. Charles McFadden, of Philadelphia. The part of the road contracted for is from the terminus of the branch at this place to the forks of the Blacklick, about twelve miles. The building of the road will give Ebensburg a boom during the comming summer and the opening of the new line of railroad will give that portion of the country west of here an outlet for the immense deposits of coal charging him with triffing with her affect that are to be found in the region of the Blacklick.

The Blacklick railroad has been a long time coming but it will be built at last for a certainty.

New License' Laws.

There is a bil! now before the Pennsylvania legislature, which, if it would be ome a law, would work very important changes in the granting licenses. The licensing power is vested in fourteen boards of six commissioners to be appointed by the governor in equal numbers from the two parties polling the highest votes in the counties composing the several districts. The state is divided into fourteen districts, the western ones being made up as follows:

Ninth-Center, Clearfield, Jefferson Cameron, Elk, and McKean. Tenth-Huntingdon, Blair, Cambria Bedford, and Somerset, Eleventh-Indiana, Westmoreland

Washington, Fayette, and Green. Twelfth-Allegheny. Thirteenth-Armstrong, Clarion, Butler Beaver, Lawrence, and Mercer, Fourteenth-Venango, Forest, Warren

Good Artesian Well. Near Sonman, this county, there is an artesian well with some peculiar features. The well is 426 feet deep and was drilled | ter of the kind in the market. about four years ago by Michael Knouff while making tests for coal in that section Ever since a steady volume of water has seen flowing from the opening, the stream being about six inches in diameter, and rises about four feet above the opening by the natural pressure. The citizens of that vicinity are now talking of utilizing the well for the purpose of furnishing a water supply to Sonman and adjacent villages.

The volume is such that it would supply from 5,000 to 8,000 people. The water comes though four seams of oal, as well as a vein of fire clay. It is slightly inpregnated with sulphur but not to such an extent as to render it unpleasant. With the exception of a somewhat similar spring on the old Dodson road between Gallitzin and Loretto, this is the only artesian well flowing strongly i n this county - Johnstown Herald

ALTOONA, PENNA. "Seeing is Believing."

And a good lamp must be simple; when it is not simple it is not good. Simple, Beautiful, Good—these words mean much, but to see "The Rochester" will impress the truth more forcibly. All metal, tough and seamless, and made in three pieces only it is absolutely safe and unbreakable. Like Aladdin's of old, it is indeed a "wonderful lamp," for its marvelous light is purer and brighter than gas light, softer than electric light and more cheerful than either. Look for this stamp—THE ROCHESTER. If the lamp dealer has n't the genuine Rochester, and the style you want, send to us for our new illustrated catalogue, and we will send you a lamp safely by express—your choice of over 2,000 varieties from the Largest Lamp Store in the World.
