The Horse and Buggy Found. Thursday afternoon Liveryman W. W. Trout hired a horse and buggy to Thomas agreed for the time being to go without | Harker, who resides at 1207 Fourth street, | to go out in the country for a girl to help at his home during the illness of his wife. The girl could not come and Mr. Harker decided to go to Cambria county for one. His prolonged absence excited Mr. Trout's suspicion and he thought the rig was stolen. Efforts were made to capture the man and an officer was sent to Cambria county. The matter was given into the hands of Mr. W. Patton who found Mr. Harker and the missing rig returning to Altoona by way of Dysart. On reaching Altoona Mr. Harker explained to Mr. Trout the condition of affairs and the matter was satisfactorily adjusted.-Altoona

A Relie of the Past.

The train known as the "John Bull' train started from Philadelphia for Chicago on Monday and passed through Cres-

comotive known as "John Bull." Latrobe.

On Monday morning about 2 o'clock three men forced their way into the residence of Rev. Szmegle, a Polish priest near Everson. Fayette county. The priest appeared at the head of the stairway and for the Camden & Amboy Raifrond Compensation.

The vJohn Bull' was the first locomotive stails become, it is abreast of the times and altaly a street of the cars are two of the old fashioned passenger coaches of 57 years ago. The engine was constructed in England in 1830 by Robert Stephenson. It was built by Robert Stephenson. It was built and see for jourself. You never saw such a large and elegant stock in Ebensburg.

It is on record that during the past year

While doing some work in Mr. James' name as Julius Shane and his residence, must get awful thirsty, but 3,000 kegs house Edwards went through the trunk.

Killed the Wildest

A wildcat story of considerable interes comes from Jackson township, and as it was related to a Herald reporter by a gentleman of veracity the story is vouched for as being correct. During the latter part of the winter the farmers living along the south branch of Blacklick creek were considerably annoyed by some animal which carried off sheep, nogs, and other domestic animals

Although numerous hunts had bee made for the critter, none of the farmers could get their eyes on it until a hunter of considerable reputation started out in the ompany of David Bracken, of that region. The first day they were fortunate enough be a large wildcat, but just as the Dunlo more can be heard by starting anyone on man got in position to take a good shot at it he began to shake to badly that he -Thomas Glenn, of the Twelfth ward, could not hold his gun, and before his companion could get a shot the animal made a bound and was gone. The next day the hunters were hot upon the trail, and were dent for a number of years. It proved to be one of the largest wildcats ever seen in the region. The deer which it had killed had evidently been taken unawares by the wildcat springing upon it while it was sleeping in its lair. The condition of the ground and bushes showed that there had been a desperate struggle, but the wildcat's fangs fastened in the deer's neck evidently did the business and its life-blood soon ebbed away .-Johnstown Herald.

... A Sunday Mishap. On April 16th one of the large timber Pittsburg division, met a terrible fate splash dam at Flinton. The water was too strong for it to stand, and some timber got loose, turned under and tore apart at the couplings. When the raft struck the bottom, and then the fun began by the crew trying to get off the timber which was twisted and turned in all directions A young man named Glass dropped through the raft between two large sticks and managed to get out "by the skin of his teeth." Al. McKee, of Flinton, got his long whiskers wet while smimming to shore. It is old and single. He was a member of the singular that no one was killed or even the worst that has occurred on the creek for years. The men all lost their coats, and any person finding them will know the owners by papers in the pockets. The crew of this wrecked craft was as follows:

Not all the clap-trap talk on earth can make any kind of black dress goods Australian wool and pure silkthere is no creasing, fading or wear out to them. Always new and silky looking, there is no to come upon the animal, which proved to fabric equal to them and we have the sole agency in all their goods for this city. There are Priestly summer goods as well as Henriettas, soft beautiful weaves that bear the crucial test of the magnifying glass. We have many other black goods all of excellent quality and at prices down to 58c. a yard for all wool and in cotton mixed down to a few cents. Our black goods stock is unriv-

alled and will remain so. In the colored dress department we are offering some strong bargains in serges all shades, all wool and 46 inches wide at 62% cents a yard. These have always sold at 75c. to \$1.00, but we bought out the manufacturers' entire stock and no more can be had at any price. This a rare bargain chance.

We have a few pieces of Crepons and Bedford Cords in tans and greys that we wish to close out, so take your choice at 55c. a yard. All along were 75c., but the rest are cut to 55c. Two pieces of grey are left from the \$1.25 sort. This week you may have them at 80c. a yard. Only a few of our light pattern goods left. Trimmings o match. Capes are all the rage and we have sold an incredible number. The demand is still on and we can supply it. In browns and tans with embroidered butterfly collar or plain, \$3.75 to \$5.00 will secure a pretty one. Handsome tans with velvet collars are \$10.00, and more elegant ones with satin ribbons and velvet collar are \$10.00.

Oliver Invented and Gave to the World the Chilled Plow. THE GENUINE OLIVER GHILLED PLOWS

Oliver Chilled Plow Works.

South Bend, Indiana,

ARE THE BEST GENERAL PURPOSE PLOWS IN THE WORLD.

A strong statement but a true one, for these plows are better known, have reached a larger sale, have had a longer run, have proved more popular and given better satisfaction than any other plows on the face of the globe. We mean the GENUINE OLIVER, and not the imitations claiming to be the Oliver, or equally as good. Such imitations are on the

market, placed there by unscrupulous manufacturers who seek to trade on the good name of the OLIVER. Look out for imitations, buy only the genuine Oliver plows and repairs, and be sure you are right before you take the plow home. Once more—Beware of "bogus" Oliver plows and repairs, and take none but the genuine, made by the OLIVER CHILLED PLOW WORKS,

SOUTH BEND, INDIANA. HENCH & DROMGOLD'S ALL STEEL FRAME

In making this new Lever Harrow they use the same Zizgag steel frame used in their other style In making this new Lever Harrow they use the same Zizzag st-el frame used in their other style Figat Harrow so that the frame could be used for either harrow if desired. The Teeth are boited between mal cable lastenings which hinge upon the boit extending through the frame piece and are connected with an adjusting har and is so arranged that while the harrow is in operation and teeth in the ground, it will not pull the levers forward if dismagged in the rack casting or in other words it is just as easy to adjust the teeth deep or shallow while the harrow is in operation as when standing still. They have two different notches in which the teeth are lastened and when four or five inches are worn off, they can be set in another lastening, and by this adjustment in connection with the operation of the adjusting lever, can be worn almost entirely out the same as in their fixtchet Tooth Harrow.

Each too h has a curved shoe under the frame making a sliding support. I guarantee this Lever Harrow to be one of the most complete and best Lever Harrows over offered to the trade.
