

Congressman Kilgore, of Texas, is credited with saying that President Cleveland told him—in reply to an inquiry made with a view of deciding some domestic arrangements—that he might expect an extra session of Congress between the 1st and 15th of September.

The floods of last week throughout Northern Idaho and the western part of Minnesota reached the highest point known to the oldest residents and the damage done amounts to hundreds of thousands of dollars. Several of the largest bridges on the Union Pacific and Northern Pacific roads were washed away.

Princess Eulalie of Spain arrived in Washington Friday evening and was met at the depot by Secretary Gresham, as the representative of the president, and escorted to the Arlington Hotel. Four companies of cavalry from Fort Myer preceded the president's carriage, which was sent for the use of the Infanta.

Secretary Carlisle has announced his intention of proceeding in the deputation of the Chinese until the appropriation is exhausted. But \$16,000 is now available, though \$50,000 more will be ready by July 1. He intends beginning with those who are here in violation of the law of 1884, those having violated the Geary law coming next.

The government of Nicaragua has notified the Pacific Mail Steamship Company that their vessels must not stop at San Juan while that port is in the hands of the revolutionists, but may land passengers, mail and freight at Corinto. No movements of importance are being attempted by the revolutionists, as they are waiting for more arms and ammunition.

Secretary Carlisle has informed congressmen that he intends to discharge every Republican in the treasury department who is not protected by the civil service law. He says that he has given the officials of the department to understand that this will be his policy and that they will not be dismissed on any charges, but solely for the reason that they are Republicans and that the places are wanted for Democrats.

The process of liquidation, or squeezing the water or inflated stocks, is a costly one, but the country at large does not suffer very much from it. Legitimate business, after the flurry, rather profits. Since January the New York World figures up that the decline in the price of stocks of the line leading "industries," including cotton oil, sugar, whiskey, electric, cordage, etc., has been \$105,830,000. But this collapse forced the sale of other stocks between January and May is put at \$287,000,000. This is a tremendous showing, and yet the country still lives.

The bill for the first week's board of the duke of Veragua at the Auditorium hotel, Chicago, with carriage hire included, has just come to hand at the state department, and it amounts to the pretty figure of \$2,500. Under those circumstances the state department has hoped and expected that the cities which the duke was to visit, like New York and Chicago, would do something handsome in the way of helping to bear the expense. Secretary Gresham said he would pay all bills presented on account of the entertainment of the Infanta and the duke according to the instruction of Congress.

At 3:50 P. M. last Saturday, in darkness like midnight, a hailstorm broke loose over Pittsburgh, exceeding in its fury and damages any before known in western Pennsylvania. Several run-aways occurred, many persons were injured and the loss of property caused by the storm will exceed a million dollars. The hailstones were about the size of English walnuts. The storm lasted scarcely ten minutes. Two funeral processions were wrecked—the horses running away, with shocking results. A heavy rainstorm succeeded the hail, and increased the damages. The storm extended to the Allegheny river as far as Tarentum.

The friendly mediation of the United States, exercised through Secretary Gresham, has averted a serious rupture between the governments of Japan and Corea. These governments were on the verge of war, because of Corea refusing to compensate Japanese merchants for losses sustained through Corea suddenly prohibiting certain exports in view of apprehended famine in which Japanese traders were largely interested. The Corea government has finally agreed to pay the Japanese government an indemnity of \$110,000 in settlement of the claims of the Japanese merchants, the sum being a compromise between the sum originally demanded by Japan and that offered by Corea.

The total immigration for ten months of the fiscal year ending April 30 was 334,825—a decline of 120,000 from the ten corresponding months of the previous year. The arrivals from Russia and Poland show the greatest falling off, the reduction being from 94,000 to 34,000. The Italian immigration shows no abatement. This is the work of the padrones. There was a very slight decline in the arrivals from Great Britain and Ireland. The new commissioner of immigration, Mr. Stump, of Maryland, proposes that the laws shall be rigidly enforced, and that if done the country will be amply protected against the undesirable, afflicted and criminal class; that is about as well as it can be protected short of absolute exclusion.

The last issue of Bradstreet's contains the results of a systematic inquiry in the condition of rural roads all over the country and the effect of the interruption of trade by bad roads on the farmer and the merchant. The information on both points is valuable, but on the latter is perhaps the most conclusive showing yet made.

The inquiry shows a fair amount of improved roadways in Southern New England, Eastern Massachusetts being the section making the best showing, but even in all probability to New Jersey or the part of it lying between Philadelphia and New York, where the best and most rapidly extending system of improved country roads is found. The southeastern parts of New York and Pennsylvania are in the favorable list, and some of the Maryland roads are classified as good highways. Outside of these sections the general prevalence of dirt roads remains unbroken.

As to the effect of bad country roads on business the returns amount very nearly to absolute demonstration. "From Maine to Texas and from Georgia to Minnesota prices of farm products have been advanced unduly because of delays to interior wagon traffic by heavy roads," and of course the farmers can get no benefit from these high prices, the bad roads being the barrier between producer and consumer. The unfavorable effect from the same cause on mercantile collections, loans to farmers and interest is abundantly testified to, while a multitude of replies show an advance in farm values where roads have been improved varying from 10 to 100 percent, and averaging 15 percent. The conclusion of the journal making these inquiries is the pregnant one that the loss to the country by bad country roads is more than double the annual expenditure for road repairing, and would in two years come near the cost of grinding the districts east of the Missouri river with the best class of roads.

Such facts as these render indisputable proof of what has heretofore been asserted. In collecting them Bradstreet's has rendered a distinct public service.

The greatest banking and financial authority in the world, perhaps, is the Right Hon. William Lindersdale, who was governor of the bank of England last year and now is a director in that wonderful institution. He last week talked freely with a New York World correspondent on the financial situation, and made two especially notable observations. 1. That America has not enough currency for its people's needs, i. e., for the business of the country, and 2, that in all probability "the United States will pull gold from us (England) in the autumn," i. e., the current of gold will be changed from flowing to Europe to coming from Europe. The correctness of the first statement is realized daily by the great body of tradesmen all over the country, and this fact has had much to do with bringing about the existing powerful sentiment in favor of the free coinage of silver. The second statement, being purely prophetic, we can only hope it may prove to be equally correct.

Two convicts in the western penitentiary engaged in a desperate fight with knives on Wednesday afternoon. Both were seriously but not dangerously hurt. A third convict, who attempted to separate the combatants, was seriously cut in the breast. Two of the fighters were removed to the hospital department of the prison. The fight occurred in the broom making department of the institution.

The desperate battle was the result of an old feud between the two prisoners. Several times recently they have had a very hot fight and both were being closely watched by their keepers. When they came together both fought viciously. It required the keeper and several convicts to separate them. In the struggle both prisoners fell to the floor and both slashed and cut at the other.

The penitentiary authorities refused to give out any information about the case. The fight will be reported to the prison board when it meets.

On Friday the Governor sent a message to the Legislature announcing his approval of the following bills: Requiring school directors to furnish books and other school supplies free of cost, known as the Farr free text book bill; to establish a medical council and three State boards of medical examiners; extending the power of the courts to appoint election officers in certain cases; providing for the immediate printing and distribution of unbound copies of the state laws as they are enacted; to establish boards of arbitration to settle matters of variance between capital and labor; to empower courts to fix the place of holding the general election; providing that voters shall cast their ballots at polling places inside the election district in which they are domiciled; directing county commissioners to bind and preserve weekly newspapers published in their counties.

The Mint officials have received word that counterfeiters of the World's Fair souvenir half-dollars are in the market already and as they are made of coin silver, they are not easy to detect. It is said that they are a trifle lighter in weight and a shade smaller in circumference than the genuine, which, however, only appears when they are stacked up together. In the words "Columbian Half Dollar" the D is not quite perfect, and the medallion head of Columbus leans a little to the right. As it takes about 30 cents' worth of silver to make one, and their market value is a dollar, their manufacture leaves a good margin of profit. As the coin bears no mint mark, it is comparatively easy to counterfeit.

Washington Letter.

WASHINGTON, D. C., May 20, 1893. Men and brethren, hear ye! This administration is going to be Democratic, in fact as well as in name. The overwhelming verdict of the people is to be obeyed, and no Republican is to be left in a place of responsibility. The pace towards this goal has not been precipitate, but it has been and will be steady and sure until it is reached. Secretary Gresham took the lead in this respect, more than one or two Republicans left in important positions in the State Department. Secretary Carlisle is a good second, and it will not be long before all the members of the Department and the Treasury Department will be Democrats. Secretary Smith has begun to call for the resignations of the Republican chiefs of divisions in the Interior Department and all out. Secretary Morton has not been behind in proportion to the size of his department. Postmaster General Bissell has had to devote so much time to the selection of postmasters that he hasn't made very many changes in his department, but he will, as will Attorney General Olney and Secretaries Lamont and Herbert.

Place Lechen believes he will kill one of the principal roots of the pension evil by making the Medical Boards which examine applicants for pensions entirely Democratic, instead of allowing one Republican on each board. This has already been done. Speaking of this change he is quoted as saying: "One of the things the Democrats have committed themselves to do is to sift as far as possible the rubbish which has been piled up in this pension cesspool. The party has committed itself to reform in this matter, and there is no better way to make a start than by having only Democrats on the medical boards." It is a fact that President Cleveland has approved this action of Judge Lechen, but it is hardly probable that such a radical change would have been announced if the matter had not been previously approved by the President.

Much more or less silly talk has been indulged in this week about the probability of a war with China because of the Supreme Court's having decided in the Geary law constitutionality. Needless to say neither the President nor Secretary Gresham have the remotest idea that there will be any serious trouble with China. The Chinese minister told Secretary Gresham that his government would not take any retaliatory steps, and that it would, as far as possible, protect Americans in China from any attack which the ignorant natives might be disposed to make upon them. The Geary law will be enforced by the administration to great an extent as possible with the means at its command, but the lack of a sufficient appropriation to pay for their transportation makes it probable that no Chinese will be returned to China until Congress shall have decided whether it will appropriate the large amount that will be needed—\$6,000,000 in the estimate for within five months the entire rear and upper portions of the immense plant was in flames and the employees were compelled to flee for their lives, leaving their clothing and tools. Many escaped from upper windows and two are injured, Peter Linden and Matica Caldwell, seriously burned. The United States Glass company paid \$275,000 for the plant in January 1892. The loss is fully covered by insurance.

Serious Trouble Ahead. LOUISVILLE, Ky., May 24.—Marshal Blackburn, with 155 deputies, has gone to Mulenburg county to collect the railroad tax which the county has been retaining so many years. He camped at Central City to-night. The tax was originally \$400,000, and was voted 25 years ago in aid of what is now the New York and Mississippi Valley road. The interest was paid regularly for a long while, and the politicians agitated repudiation. Attempts to compromise have failed, and with interest the tax amounts to nearly \$1,000,000, while the county is only worth \$250,000. Marshal Burchett tried to collect it four years ago, and was defeated by a boycott. Serious trouble is expected.

Tired of Their Hard Lot. NORRIS TOWN, Pa., May 22.—Oppressed by poverty and weariness of the struggle for existence a mother and daughter ended their lives with poison last night at their home near here. Mrs. Agnes Burton and her daughter lived at North Wales and were employed as domestics at \$5 working in a factory and at the same time supporting the two women. Worn out by their effort to make a living they determined to die. From the meagre evidence before the coroner it seems the mother first gave strychnine to her daughter and then took the poison herself and both were dead in a short time. The jury returned a verdict in accordance with the above facts.

Blondin the Strong Man Killed. SARASOTA LAKE, N. Y., May 19.—One of the feats of strength performed by Blondin, the strong man traveling with Cole's circus, which has been giving exhibitions at the hotel here, resulted in the death of the strong man. He was endeavoring to lead in opposite directions. In this act at Lake Placid the horses used had been lately purchased, and were before the circus had started. They became frightened and reared and plunged, and Blondin, in his efforts to hold them, ruptured blood vessels of the head and chest. He fainted from loss of blood, and soon after he was carried from the ring he died.

An Independent Organization. NEW YORK, May 24.—Farnham post No. 458, G. A. R. which has been disbanded by the council of administration, has resolved itself into a separate and independent organization. The reorganization took place at the regular meeting of the post this evening, and the name of the new association is to be Noah E. Farnham Independent veteran No. 1. All the officers were re-elected and the post will now be under the leadership of the G. A. R. The post has been disbanded because on March 3 it adopted resolutions condemning the present pension system.

A Boy Shoots His Brother. SEBASTIAN, Pa., May 24.—Gus Fitzpatrick, aged 16 years, and his brother James, aged 20, quarreled last night at their home in Dumore as to which owned a revolver that the former held. James attempted to take the weapon from Gus, and the latter resisted, and told James to stand back or take the consequences. James, however, grappled with Gus, who fired the revolver at his brother, inflicting a mortal wound. The injured boy says the shooting was accidental, but the younger brother admits that he shot purposely.

A New Law.

The following bill has passed the Senate and is now a law. Sec. 1. That every owner or agent who may have the custody or control of any stallion, who shall charge a fee for the services of such stallion, shall, before advertising or offering such services to the public for any fee, reward, or compensation, file with the Clerk of the Quarter Sessions of the county in which such owner or agent, agent or agents reside, or in which such stallion shall be kept for service, a written statement giving the name, age, pedigree and record of such stallion, to be known then that the same is unknown, the description, terms and condition upon which such stallion will serve. Upon filing such statement the Clerk of the Quarter Sessions of the county shall issue a certificate or license to the owner or owners, agent or agents having the custody and control of such stallion, that such a statement has been filed in his office. The Clerk of the Court of Quarter Sessions to receive one dollar for each and every certificate so issued and the County Commissioners are hereby authorized and required to furnish record books and blanks for the same. The owners, agent or agents of the owners of such stallion shall then post a written or printed copy of the statement so filed with such Clerk of the Court of Quarter Sessions in each place in which such stallion shall be kept for service.

act, shall forfeit all fees for the services of such stallion, and the person or persons who shall be shown to have such a false or fraudulent pedigree or record or statement, may sue and recover in
