THE damage suits against the South Fork Fishing Club, arising out of the ever memorable Johnstown flood, will be weakened by the severe financial extried in Lycoming county in October before Judge Metzgar, at Williamsport. The attorneys in the cases agreed that the change of venue should be to Lycoming county.

THE trial of Miss Lizzie Borden at New Bedford, Mass., for the murder of her father and step mother last fall at Fall River, is still going on. All indications point to the acquittal of Miss Borden, the state having failed to make out a case clear enough to convince the jury of her guilt beyond a reasonable doubt.

A DISPATCH from Harrisburg says: Adjutant General Greenland has about abandoned all hope of taking the National Guard to Chicago. He was in favor of this trip, but many were not. The World's Fair people have not yet extended an invitation, and General Greenland has been waiting for something to turn up that would make the way clear for the presence of the troops at the fair, but the chances are exceedingly slim for such a demonstration. The argument of those opposed to the trip is that the benefit of the summer encampment would be lost, and that discipline would be difficult of enforcement at Chicago.

Indians are in a state of frenzy over the affair, and have made threats of vengeance on the whites and the agent. Secretary Lamont has directed two companies of infantry at Ft. Snelling to go to the scene of the trouble to protect the agent and the people at Pembina. The tribe of Indians, part of the old Minnesota tribe, have not been on the warpath since 1865, when they were nearly wiped out of existence by our army.

Several weeks ago a Democrat from one of the neighboring towns took a trip through this county doing missionary work. His object was to see the county committeemen in each district and get them to sign a petition requesting the aid and influence of Democratic state officials at Harrisburg in baying a certain Democrat appointed postmaster at Ebens

Just what interest a committeman living six, or twenty miles from where the office he petitions for, has, is something we failed to learn. Some committeemen refused to sign the petition while others signed it, not because they knew anything about it, but because they were asked and without thinking signed it as they would have done for any other man that called on them.

In many places a man most pay a poll tax if he votes, but in Kansas City, he must pay a poll tax if he does not vote. Four years ago a clause was inserted in the charter of that city to the effect that whenever a citizen failed to vote at any general or municipal election he should pay a poll tax of \$2.50.

This would have been calculated to make solid citizens take an interest in municipal government if the law had been enforced. It was not, however, but the auditor kept a record of the deto time if necessary.

The delinquent taxes now amount to nearly \$20,000. The city at length sued each piece counted, it was discovered one delinquent as a test case of the constitutionality of the law and gained the grams were immediately sent to Rome suit. Part of the judge's decision was in the broad ground that it is in the power cate, that the loss will not fall upon the the elective franchise, and if a state can do so a city is invested with the same power.

The president's straightforward de liverance on the financial situation brought speedy and beneficent results. It gave to Europe just the assurance that was needed as to the soundness of our financial policy. All fears of the country degenerating down to swindling silver policy, under which American securities might be paid in coin worth sixty cents on the dollar, perished when the president declared that he would stand resolutely for an honest financial system. The revival of faith in Europe halted the shipment of gold, and the reduction of the rate of interest by the Thursday proclaimed that the money presure was over in the financial metropolis of the world. World the Chilled Plow. THE GENUINE OLIVER GHILLED PLOWS

# Oliver Chilled Plow Works

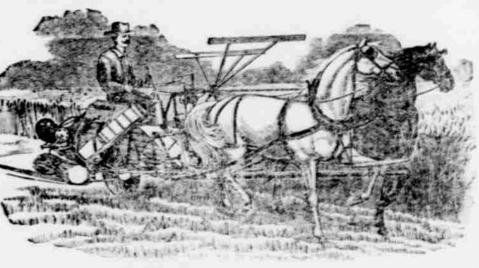

South Bend, Indiana,

ARE THE BEST GENERAL PURPOSE PLOWS IN THE WORLD.

A strong statement but a true one, for these plows are better

known, have reached a larger sale, have had a longer run, have proved more popular and given better satisfaction than any other plows on the face of the globe We mean the GENUINE OLIVER, and not the imitations claim. ing to be the Oliver, or equally as good. Such imitations are on the

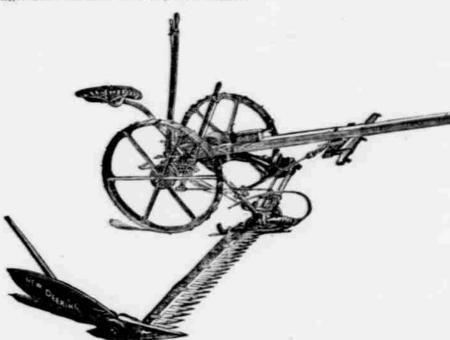

market, placed there by unscrupulous manufacturers who seek to trade on the good name of the OLIVER. Look out for imitations, buy only the genuine Oliver plows and repairs, and be sure you are right before you take the plow home. Once more—Beware of "bogus" Oliver plows and repairs, and take none but the genuine, made by the OLIVER CHILLED PLOW WORKS.
