Tuesday of last week, the county commissioners of Wichita, Lane, Scott, Greeley and other counties met at Leoti and issued a call for a convention at some central point, at which an appeal is to be made to Governor Lewelling to immediately call the legislature together to appropriate funds for provisions, feed and seed wheat. Thousands of people will be forced to leave that section unless aid is given to them at once. Many have already abandoned their claims and gone to Oklahoma.

HON. CHAUNCEY F. BLACK, president and John D. GOVERNOR PATTISON'S veto of the appropriation of \$26,571,60 for expenses of the House Elections Committee, says the Philadelphia Record, meets with general commendation. It was a bold attempt to rob the State Treasury under the forms of law. If Mr. D. Smith Talbot, of Chester county, should have been the Manitoba and British Columbia, as colof chairman of the Elections Committee, into the vaults of the treasury to get lows: money that did not belong to him, the act would not have been quite so culpable as it was to undertake the robbery while acting as the trusted agent of the people to whom the money belongs. The programme for the extra session

will be arranged by Congress after it meets and not by any single individual, and any attempt to outline it before the nembers of Congress have had an opportunity to consult upon it is nothing more or less than guesswork. Representative Holman, whose ideas

on economy in administering the government are widely known, says noth ng would be more conducive to economy than the imposition of an income tax by Congress. Speaking on the subject this week he said: "The possibiliies for wealth in the United States are beyond all calculation. They are enormous. If we tried to to live up to them in our public expense we would inaugurate an era of extravagance in the midst of which free institutions could not live. Behind Congress is the wealthier class of citizens. It is to their interest that the expenditures of the government should lavish. Nearly 300 Ovens Banked.

GREENSBURG, PA., July 8.—The cokeworkers and miners along the Sewickley branch are disturbed and discouraged by the closing of mines and blowing out of ovens. The general impression is that the coke business in this part of the state is in a very bad way and will be worse still. Over 200 ovens at Mammoth, about 50 at Trauger and 40 more at Heela were banked this afternoon. throwing 500 or 600 men out of work Many miners will suffer by this move. The closing down of furnaces in various parts of the country drove the operators to adopt this plan, they say, to reduce expenses. Other works in this locality will be closed next week. The active competition lately developed under improved methods in the West Virginia fields is charged with a large share of responsibility for existing coke conditions in Pennsylvania.

As soon the true state of affairs was learned, relief trains over the Illinois Central were sent out, with a corps of physicians, tents and provisions. The town was in total darkness and the streets were filled with the wrecks of omes and business houses. The scenes were appalling, as men with lanterns went about in the debris. In some instances entire families were wiped out, the mangled remains being found in the ruins of their homes. The cries of the injured were heartrending, and the general confusion was increased by the wailing of the survivors who were separated from friends, or had relatives in the wreck. The work of rescue was slow and the train load of helpers made little headway.
