The Beech Creek.

The various railroad rumors that are in the air about the extension of the Beech threek receive additional credence from the following special from Chicago on Friday last. That there is some cause, unknown outside of railroad circles, for the sudden commencement of work on the Blacklick in the middle of winter, is evident to all One man at least is known to have been our readers. Whether it is the expectanorth branch of the Blacklick in its efforts to connect Connellsville and Mahaffey, as outlined in the special, and that the Pennsylvania by the hurried movements will have the advantage of being first on the ground, is a question that we can only guess at. The prospect for a railroad crimmage along the peaceful banks of the Blacklick, will not bring sorrow to any of the citizens of Cambria, and both con-

"This plan will be carried out in its entirety as early as possible next spring, and from the opening of a new through route it will give the Vanderbilts commanding osition in the coal trade. The date for the completion of the work has not yet been settled, but it will be early. The new line will be exactly what the Vanderbilts must have to meet the competition of the Pennsylvania. For six months the New York Central has tried in vain to equalize the freight differentials on scaboard busis.
