

DEMOCRATS of the Kentucky Legislature renominated William Lindsay for United States Senator.

REPRESENTATIVE HOLMAN, has prepared a resolution which he will submit to the House declaring it to be the policy of the United States to conclude a treaty with Hawaii by which this country will exercise a protectorate over the islands.

THE COMMISSIONER of pensions has decided since the passage of the act of Dec. 21, 1893, that he no longer has the right to withhold the pension of Judge Long, of Michigan, and has accordingly ordered that the suspension of his pension be removed.

ON Wednesday at Harrisburg, Henry F. Morrow, of Delaware county, was nominated for congressman at large by the state prohibition convention. The convention was attended by about sixty delegates, including five or six women. The next state convention will be held at Williamsport in June.

THE last day for filing certificates of nomination with the county commissioners is January 23. January 30 is the last day for filing nomination papers. The election will be held February 20, and eighteen days prior to that is the last day for the objections to the nomination papers or certificates.

NEW JERSEY is a small state but it is big enough to have two senates, each claiming to be the properly organized body. The Democrats claim that they have the regularly organized senate, while the Republicans make the same claim. The Supreme court will likely be called upon to settle the dispute.

THE extra session of the Colorado legislature, called by Governor Waite to consider his Mexican silver coinage scheme and inaugurate public improvements to furnish work for the unemployed, met at Denver on Wednesday. From present indications the session will be a very short one, and the governor's suggestions will receive little or no consideration.

THREE years' experience of the McKinley Republican high tariff bill has resulted in general business depression and in wreck and ruin to manufacturing and commercial interests. This result is fully justified the Democratic opposition to that measure and the demand for its repeal which found expression in the overwhelming Democratic victory of 1892.—*Democratic Platform.*

SPEAKER CRISP Saturday caused warrants to be issued for the arrest of every member of Congress who has not yet been present at roll call since the opening of congress last Wednesday morning. A dozen able bodied deputies were dispatched in every direction Saturday evening, armed with warrants and the power to imprison every member who refused to return with them to the capital. There were 49 absentees when the speaker decided upon this action. That he did the proper thing will go without dispute.

REPRESENTATIVE LOCKWOOD, of New York, has introduced in the House a bill for the restriction of immigration and to amend the contract labor laws. It provides against the daily coming in to the United States of the citizens of Canada and Mexico to perform labor in this country. It compels American vessels plying on the great lakes to employ only American citizens. Aliens performing work contrary to the provisions of the bill are to be deported, and in case they return to this country they are to be deemed guilty of a misdemeanor and heavily fined.

EVERY consideration of political honor, fidelity and expediency demands that the pledges upon which victory was won should be faithfully and fully kept, and that the Democratic congress shall revise the tariff by promptly passing the Wilson bill reported by the ways and means committee, to the end that the raw materials necessary to American industries shall be admitted free of duty; that tariff taxes shall be reduced on the necessities of life, and that import duties shall be distributed with a view of lightening the burdens of many instead of protecting the interests of a favored few.—*Democratic Platform.*

A SPECIAL FROM Lock Haven says: Judge Mayer has rendered an opinion concerning liquor license fees which is of interest all over the state. The city treasurer of Lock Haven said that all the liquor license fees were paid to the county treasurer, who gave a large commission for handling the money, and he asked the court to stop the practice. The judge decided that only the liquor license money that belongs to the county shall be paid to the county treasurer, and what belongs to the city shall be paid directly to the city treasurer. This opinion deprives the county treasurer of a snug source of revenue, and transfers it to the city treasurer.

THERE were 33,136 locomotives engaged in hauling passengers and freight over the railways of this country last year, 8,848 in hauling passenger trains alone. To transport the passenger traffic of the country 28,875 cars were in operation, while for the conveyance of freight nearly a million cars were required. A striking comparison of these facts is had in considering that the locomotives, placed end to end, would make a train 857 miles long, while the freight cars, marshaled on a single track, would make a train 7,028 miles long; that is, they would make a single train of cars reaching across the continent and back, and back again as far west as Chicago.

**THE Pittsburg Leader**, a Republican paper that looks at things as they appear instead of trying to color them for the benefit of the calamity howlers, has this to say about the origin of the present depressed condition of business:

"The Leader, while not in sympathy with the Democratic tariff policy, has never joined in the declaration almost unanimously made by high tariff organs that the panic of the present year was caused by the victory of the Democrats in the national election. We have endeavored on the other hand to make it clear to our readers that the financial troubles originated in events occurring before either of the political parties had nominated candidates; that they were not confined to the United States, but extended over all civilized countries, and that they could not be stamped out by mere legislation, except in so far as the repeal of the unwise silver purchase law might aid in restoring confidence.

"A timely corroboration of our view of the matter is furnished by the Fall Mail Gazette in a review of the year's trade in Great Britain compiled from official returns. This report shows that the tribulations of the United States have been fully equalled on the other side of the Atlantic, and that our chief competitor in the markets of the world, instead of profiting in proportion to the losses here, has had enormous losses of its own. British imports for 1893 declined nearly \$100,000,000 as compared with 1892, and the exports declined over \$82,000,000.

"An enormous fallings-off occurred in the coal and textile trades and kindred industries suffered correspondingly. The coal strike added much to Great Britain's embarrassment, but only in an incidental way. The actual cause was the same that led to the difficulties throughout the rest of the world—the periodic stagnation of trade which seems an epidemic of smallpox or cholera.

"It is proper that the Democratic party should be held liable for its sins, but the precipitation of the panic of '93 is certainly not one of them."

THE defenders of the McKinley law, says the New York World, add to their tariff scare bugaboo an "estimate" that the Wilson bill would cut down the revenues \$72,000,000.

This is an obvious and ignorant exaggeration. No man can tell what the customs collections would be under stimulated importations and increased purchasing capacity among our people. When the Walker tariff was passed in 1856 Daniel Webster proclaimed that a serious falling off in the government's revenue would result. Daniel was not a prophet. The collections for the first full year of the Walker tariff exceeded those of the last full year of the protective tariff of 1842 by over \$6,000,000. And at the end of ten years the revenues had increased from \$26,712,000 to \$64,000,000, and a surplus was created which led to the passage of a bill in 1857 by a Republican House—will Tom Reed please take notes—to reduce the tariff, though the average duty was but little more than half what it now is.

It is undoubtedly true that the extension of the free list in the interest of our manufacturers, wage earners, and consumers will result in a loss of revenue, but the Democratic party can afford to contrast its policy of reducing revenues by abating taxes with the Republican policy of reducing them by increasing taxes. It is better to sacrifice revenue by relieving the people of burdensome taxes than to turn a surplus into a deficiency by reckless extravagance as the Republicans did.

UNITED STATES SENATOR WM. F. VILAS in a letter to the *Catholic Citizen*, made public on Wednesday declares the A. P. A. a menace to the republic. Mr. Vilas's letter says:

"To enter a secret political society, to sacrifice one's political freedom to the behest of its authorities, unknown to the laws, means the citizen's surrender of the glory of manhood by self-environment. Even if done with good purpose, the method is degrading and degrading. In political affairs it seeks to strike an unseen blow which shall do injury to one's fellow men. It is the method of iniquity and tyranny in governments, and in the experience of republics has always been characteristic of plots against the rights of a particular class defined by race, by religion or some other line that justice and humanity could not condemn."

Mr. Vilas in conclusion says that the movement is a blow at religious liberty, and that every citizen should be opposed to its principles.

THE South Fork Courier, the leading Republican paper in this county, outside of Johnstown, in its issue of Friday last, after publishing an article taken from the FREEMAN of last week relative to the recent appointments made in the commissioners' office, proceeds to read Commissioner Lloyd out of the party. The Courier, among things wise and otherwise, says:

"Mr. Lloyd has turned a traitor to his friends who gave him such a handsome vote in the convention that nominated him and it is quite probable that he too will have to look for a position outside of the court house when his present term expires."

WASHINGTON, D. C., Jan. 9, 1894.—Chairman Wilson is not receiving the support he deserves from the Democratic members of the House. He had worked himself into a state bordering on physical exhaustion in order that the tariff bill might be called up as soon as the House met on Wednesday, and his dis-appointment can only be imagined when he saw that the tariff bill could not be taken up on that day because of the absence of a quorum of Democrats, it being the policy of the Republicans not to allow the bill to be considered without a quorum, which they will refuse to assist in making. Inasmuch as every Democratic member knew the importance of a quorum of their own members present this absenteeism is inexcusable. The whole country is demanding prompt action on the tariff, which they will refuse to assist in making. Inasmuch as every Democratic member knew the importance of a quorum of their own members present this absenteeism is inexcusable. The whole country is demanding prompt action on the tariff, which they will refuse to assist in making.

THE tariff programme as mapped out by chairman Wilson was five days for general debate, eight days with evening sessions for discussion under the five-minute rule, during which the internal revenue amendments decided upon this week—the 2 per cent tax upon all incomes of \$4,000 and over; the increase in the tax on cigarettes to \$1.50 per 1000; the increase in the tax on wine to \$1.00 per gallon, and the tax of 2 cents per quart on playing cards—were to be adopted, and the final vote to be taken on the 17 of January; but it will not be possible to carry out this or any other programme, if a Democratic quorum cannot be kept here all the time, already the day of the final vote has been changed to January 22. This absenteeism is more the result of the big Democratic majority than indifference. Each member who stays away probably thinks there will be a Democratic quorum without him, but so many stay away that there isn't.

THE investigation of the relations of this government with Hawaii, is being pushed by the subcommittee of the senate committee on foreign relations. All of the witnesses heard up to this time have been gentlemen who took an active part in the annexation movement and the formation of the provisional government of Hawaii; consequently the testimony has been all of one kind. Although the proceedings are supposed to be secret, the nature of the testimony taken becomes known almost as soon as the date of the hearings is given. Considerable comment not favorable to ex-Minister Stevens has been indulged in this week. Senator Frye had reported the health of Mr. Stevens to be so precarious that it might prevent his coming to Washington to testify before the committee, yet the newspapers all contained accounts of his having traveled from his home in Maine to Rhode Island in order to deliver a speech on Hawaii at a club banquet. Now the question is being asked, why his health permits him to attend club banquets and sit up two-thirds of a night to make a set speech, should prevent his coming to the mild climate of Washington and giving the committee a few hours of his time during the day? Perhaps the only thing which the committee administrators to its witness may have something to do with the reluctance of Mr. Stevens. A man doesn't have to swear to statements made in a hearing in order to be believed. The Democratic House caucus which meets to night will settle for good and all whether the Democrats of the Ways and means committee have made a tariff bill worthy of the support of the party, or whether the work of the committee should be refused before the bill is passed. Every Democrat who has, or thinks he has, a grievance will be given an opportunity to state it and to ascertain whether the majority sides with him or against him. When the caucus decides that action is to be taken, every Democrat who attends the caucus. It is thought probable that it may be necessary to continue the caucus for several nights in order to hear all that those opposed to several of the tariff schedules and to the income tax bill, who may desire to say, and who are expected that it will ratify the work of the committee as a whole, although there may be some minor amendments made in portions of the bill. The opposition to the individual income tax bill probably develops the most strength, owing to the vote in the committee having been so close—six to five—and to President Cleveland and Secretary Carlisle being in a hard-fought campaign.

REPRESENTATIVE BRIGGS has introduced a bill in the House, providing for the immediate issue of \$55,000,000 of all-ver certificates to supply the treasury with money to meet the growing deficit. The bill is to be passed in a hurry, and is in a critical condition. Snyder is 55 years old, and formerly heard with her. Snyder was jealous of Andrew Sigler, who bounded with Mrs. Bigler. He had several times asked her to marry him, and it was a long time before she would consent. Her checks are cashed through her forehead and one alighted cut to the bone and her skull is fractured. After she fell, when she lay on her back, Snyder struck her on the head three times with a hammer. Snyder escaped.

CHATTANOOGA, Jan. 9.—A negro who gave his name Dan H. Gilyard was arrested at St. Elmo Sunday morning, charged with larceny, robbing and robbery. In searching him four shirts were removed, and then a hollock or cork set of sheet iron one eighth inch thick eight points, and made a close fitting bullet proof vest of mail, covering the body from armpits to hips. The front shirt was fastened in front by leather thongs. In the back was a dent made by a large sized pistol ball.

THE negro is a desperate character, and if it is believed correct, many stories of highway robbery committed in and about this city is true.

NEW YORK, Jan. 10.—With flames all around them and with clouds of smoke pouring from a dozen windows, nearly 100 Chinamen clung over each other in an effort to escape destruction in Doyers street this afternoon. Down the fire ladders and over house tops they rushed, their chief alarm being announced by other Chinese who came from the street below or windows of adjoining houses.

SO far as can be learned all escaped unhurt save one, who was found in the second story, half suffocated. The fire broke out on the ground floor of the six-story building used as a restaurant by the Ching Kee Company.

MRS. MADLIE Bigler, of Haldott avenue, Broadloc, was tragically cut and beaten by Joseph Snyder yesterday at his home in the city. Snyder is 55 years old, and formerly heard with her. Snyder was jealous of Andrew Sigler, who bounded with Mrs. Bigler. He had several times asked her to marry him, and it was a long time before she would consent. Her checks are cashed through her forehead and one alighted cut to the bone and her skull is fractured. After she fell, when she lay on her back, Snyder struck her on the head three times with a hammer. Snyder escaped.

SEMA, ALA., Jan. 5.—The body of the three-year old child of Henry Smith, a colored, was found yesterday, on a rocky cliff by a searching party, who have been looking for it for a week. The child had been left alone and when an older child returned he saw an eagle with what appeared to be a child in its talons. The body was recognized by bits of clothing, the flesh being eaten from the bones. Numerous skeletons of animals were found at the same place.

ST. LOUIS, Jan. 5.—Late this afternoon Miss Nettie Eberhart, of this city, met a peculiarly horrible death. While riding on horseback, her horse became frightened by an electric car and, falling itself and throwing the young lady under it, she was crushed to death by the hoofs of the heavy car, which at that point was doing a heavy grade. Both horse and rider were horribly ground under the heavy wheels of the car, the young lady dying almost before taken from under the car. The horse was also killed.

COLUMBIA, Pa., Jan. 9.—The arrest here of John Alexander upon the charge of violating a law of the state in practicing medicine without being a registered physician has brought out a tale of such horror and superstition as has not often found a home among negroes above Mason and Dixon's line. Some time ago James Waters, a negro, was taken ill. He consulted Alexander, who is a "voodoo" doctor, and was told that he was bewitched and had been possessed. Alexander told Waters to look in three glass balls, and the credulous negro declared that he saw faces of-ff-cted in two of them. Alexander then gave him two nails and told him to drive one in the ceiling of his house and put the other in the house corner, and when Alexander had done this the man was cured. Whether Waters followed out the instructions of the "doctor" is not known, but he died shortly afterwards and his mother, believing that he had died from neglect and not consulting a regular physician, had Alexander arrested.

NEW YORK, Jan. 6.—Several very different forms of suicide were to-day reported in this city. Charles Rig, a newly married man, of 24, residing from his room at No. 102 Avenue A, after a severe attack of grip, fled upstairs to the roof and plunged to the pavement to instant death. Daniel Sullivan, a young printer, who boarded at No. 1100 Avenue C, went to bed last night because he was out of work, drank excessively, went upstairs and cut his throat with a razor.

AGNES Nawret, a Polish stevedore passenger aged 30, jumped from the ship ship Bremen, which arrived from Glasgow here today, and drowned herself at sea on December 27. She leaves three children aged respectively 1, 2 and 3 years. She was bound for Buffalo, N. Y., to rejoin her husband.

FRANKLIN M. McVeigh, a brother of Ambassador Wayne MacVeigh, is a candidate for the United States Senate from Illinois to succeed Senator Culberson.

There are now several hundred Mexican revolutionists about the Texas border, and a serious outbreak is expected. The revolutionists are rapidly gaining recruits.

MR. T. M. Logan, aged 47 years, residing near Huntingdon, Pa., wrapped dead from heart failure while participating in a religious revival.

THE Sultan of Turkey has issued a royal authorizing women doctors to practice in his dominions upon presenting their diplomas. An English lady has been the first to avail herself of the privilege and has begun to practice at Constantinople.

THE body of a man was found hanging in a barn on New Ashton farm, 12 miles from Allegheny City, at 2 o'clock on Tuesday afternoon. The body was taken to a morgue. The coroner believes the case to be clearly one of suicide. The deceased was a laborer on the farm, and was found in a state of semi-consciousness. No motive for the self-slaughter is known.

LAWRENCE Doyle, of Wilkesbarre, was arrested on Wednesday, charged with attempting to elope with the wife of Joseph Skiple, Dooley, when arrested, used a gun to resist the officer, but was overpowered and locked up. At the hearing, his friends refused to go, his bail and his name were both sent to prison. The affair has created a sensation.

MARGARET Morgan, 30 years old, committed suicide on Tuesday evening by hanging from a rafter in the little cottage in which she and her husband, John Morgan, resided at Donnell Station, near McKeesport. Three weeks ago her son, Edward, committed suicide at Wheeling, W. Va. by shooting himself in the head. Mrs. Morgan worried over her boy's death and it is presumed that in a spell of melancholia she ended her life.

THE undersigned desires to inform the public that they have opened a shaving parlor on Main street, near the post office where barbering of all styles and in the most artistic manner. Everything neat and clean. Your patronage solicited.
