The United States steamer Kearsarge foundered on the night of February 2 off Roncador Reef. The Kearsarge was ordered on January 27 to proceed from San Domingo to Bluefield, Nicaragua, to protect the American interests that were alleged to be endangered by the troubles between Honduras and Nicaragua. Roncador Reef, on which the Kearsarge is supposed to have struck, is some 200 miles northeast from Bluefields. The Kearsarge was one of the historical vessels of the American navy. She was the vessel which on Sunday, June 19, 1864, fought and sunk the rebel privateer Alabama off Cherbourg, France.

"Whom the gods would destroy they first make mad." When the tariff barons found they had the power to impose higher taxes by the passage of the Mc-Kinley bill they were in their glory. They thought they had the senate for at least ten years to come and by that time they would have their pockets filled. But they were mistaken and the people overthrew them. They are now struggling against the passage of the Wilson bill, a measure that allows them far more protection than they should have. If the people fail to get tariff reform now, the next gale will be a cyclone that will wipe the theory that one class should be taxed for the benefit of another out of existence. Protection is on its last legs and if its beneficiaries are wise they will be thankful for whatever they can

The Wilson bill is severely denounced by protectionists, who call it a free trade measure and tell the people that its effeet will be to bring disaster to the American manufacturer. Yet, as the New York World truthfully says: "This tariff is higher tariff than Henry Clay thought necessary for the protection of infant industries 50 years ago. It is higher than the Morrill tariff of 1862. It is nearly as high as the tariff of 1883. It is a less average reduction of a 50 per cent tariff than the Republican tariff commission of 1882 recommended in 40 per cent tariff." These facts should not be forgotten by all. There was no talk of rum under any of the above named tariffs. That of 1883 was gen erally satisfactory to the protectionist until he saw a chance of getting it raised a peg higher. It is well known that they made money under it, but now tney fear the result of the small reduction that has been made.

FARMERS have been required by the laws of the land, says the St. Lous Republic, to squeeze along with free trade prices for their products. The demand for their surplus has been diminished by restrictions on exchanges and by th habit the tariff trusts have acquired of running on short time and throwing labor out of employment.

Before another harvest the law will be improved and the masses will get some of the benefits of tariff reform. Manufacturers will begin to provide

### Business Improving.

Chicago, Feb. 12 -Business is rapid y improving, viewed from the stand point of the clothing manufacturers of this city, who employ 50,000 wage made an average cut of 10 per cent in earners. The manufacturers shut down almost without exception, when the country began to feel panicky last sum-Some were closed only a few weeks, others did not manufacture for months. All now have more men at work than at any time since the financial stringency was felt. Stocks of cloth are very low. The mills cannot possibly supply the demand for many lines of cloth. It is said to be a fact that clothing manufacturers cannot get all

the cloth they want simply because the mill owners did not make it. The generally good feeling in the trade is well voiced by Hirt, Schaeffner & Marx, who say: "Business is improv thing to have the tariff settled soon, of course, but I think any effect the bill may have is already discounted. The bill won't affect us before Dec. 1, and trade cannot remain where it has been. We could sell more than we are selling

Caught in a Crash,

WILKESBARRE, Pa., Feb. 13.-An extensive cave in occurred at the Gaylord mine of the Kingston Coal company at Plymouth this morning. A large number of miners and laborers were at work under a section of the

roof which has for some time past 'been considered very weak. After a shot had been fired, and without any warning whatever, the roof, consisting of rock and coal, fell with a heavy crash. It is not known as yet whether any of the men were killed outright by the falling debris, but it is

one of the gangways. The air supply is now shut off, and the chance of living for any length of time is very small.

An army of rescuers is hard at work rying to reach the entombed miners. There is great excitement at the mouth of the slope. The relatives of the men shut in the mine are gathered about the place, and their lamentations are pitiful.

### Booms in Business,

Business is picking up with great rapidity in the cotton and woolen mills in Worcester county. Last September 462 Fanning, a widow, was dismissed from the sets of woolen machinery were idle in the county. These when running gave employment to 10,000 operatives, whose monthly wages aggregated \$400,000. Now every cotton mill in the county is running, and only 154 sets of woolen machinery are idle. Only about 3,000 hands are now out of work.

Scott & Wheelock's five set mill in Bridge will start up to-morrow. Every woolen mill in the city of Worcester except that of the Harrison Woolen Company, which is in insolvency, is run | Jersey City with the 17-year-old daughter

All the mills in Cherry Valley, between Worcester and Leicester, are running full time except Mann Bros.' factory, which is putting in forty hours a week. The big Slater mills at Webster, which employ about 1,000 hands, are now running. The three mills at Athol are all running.

### ALLEYE OPERATIONS SUCCESSFULLY PERFORMED BY F

After having tried five different doctors and a , can now do as good a day's work wagon load of different patent medicines, certainly recommend grew worse and worse, and was at last cured ing trem chronic disea by Dr. Salm.
For more than eight years I was troubed with for more than eight years to discretion. I suffered dyspepsia and intestinal indiscretion. I suffered untold agonies, only are enough to keep me alive, and towards the last I could not keep on my feet snymore. During all thir time I must have taken a wagon load of different patent med ichees and tried hee of our different doctors in the county but grew worse and worse. None of them made the diagonis until I went to Dr. Saim at Tyrone. He told me at once what alled me, a d he was correct for to-day I leef like a new woman. MRS. CARRIE PECHT.
