PENNSYLVANIA has again gone wrong

Nothing unusual about that. Is time of war France is prepared to put 379 out of every 1,000 of her population in the field; Germany, 310: Rus-

FROM the face of the election returns in this county it looks as if Mr. Harrity would find a fine field for missionary work in Cambria.

A BILL appropriating \$300,000 for the and military reservation at Gettysburg has been introduced in congress.

JOHN Y. McKANF, the political boss, of Coney Island, was convicted of election frauds and on Monday at Brooklyn was sentenced to serve a term of six years in the penitentiary.

Russia has few stranded actors. When a manager takes a troupe on the road he must make a deposit with the government to pay the way home for the members in case they become stranded.

CARLO THIEMAN, an animal trainer, was in a cage with three huge lions, at the California fair, when the electric light went out. The wild beasts attacked and used him up badly before he was rescued. He has since died.

A Southern Pacific passenger train was wrecked and robbed at Roscoe, California, on the 16th inst by three masked men. A volley of rifle shots was fired and one man, Fireman Masters, was killed. The robbers placed bombs under the express car, which shattered the doors and enabled them to steal everything in sight. The amount stolen was

On Wednesday of last week the directors of the Bethlehem Iron company voted to increase the capital stock of the company from \$5,000,000 to \$10,000,-680. The calamity howler may weep and mot and tear his hair over the reduction of the tariff but the men who are engaged in manufacturing are still willing to invest more of their money in the hope of pulling outprofits.

On Friday of last week the senate rejected the nomination of Wheeler H. Peckham, of New York, for Associa Justice of the Supreme court by a vote of 41 pays to 32 yeas. The nomination was obnoxious to Senator Hill on ac count of the factional fight among the Democrats in New York and, notwithstanding, the administration was anx ious for the confirmation, Senator . Hil succeeded in having it rejected. Or Monday afternoon President Cleveland sent to the senate the name of Edward D. White, one of the senators from Louismana, for the position and his nom ination was confirmed in less than an hour after being sent in.

Republicans forget, says an exchange, that the bardest and most severe panic the country ever passed through was that of 1873-74. That occurred after the Republican party had enjoyed a long least of power and while it was in the very zenith of its strength and power. The present business depression in some parts of the country is charged to the Democracy by the Republicans, who neither read, think, nor reason, but prominent Republicans, large manufact irers, too, like Mr. Dolan, of Philadels phia, declare in long articles over their own signatures that the pending financial flurry, which is passing away a rapidly as it came, was directly the outgrowth of the Sherman silver law, and that with the repeal of the purchasing clause of the same, business will resume its normal tone and the prosperous conditions of a short time ago will be reestablished.

FROM the Baltimore American: About two hundred students witnessed a novel experiment with an electric light at the City hospital last week. Dr. Julius Friedenwald directed the examination, and the patient was John Thomas. Recently a new electric battery was furnished the institution for the purpose of illuminating a man's stomach. The patient was dieted or almost starved. A long rubber tube was put down his throat. On the end of the tube was a funnel, and about two quarts of water was forced into the stomach. Another tube, on the end of which was a small incandescent lamp, was inserted in the mouth and lowered into the stomach. after the attachment was made the entire stomach was illuminited. The experiment has been tried in other cities, and is to diagnose diseases of the abdominal cavity. The patient experienced no pain, and allowed the light to remain about ten minutes.

A Washington dispatch says: There is talk in supreme court circles already regarding the judicial circuit to which Senator White will be assigned when he assumes his robe of office. It is consid ered likely that instead of taking the northern circuit which was held by the late Justice Blatchford the new justice will be given the southern circuit which embraces the gulf states on account of his knowledge of the Napoleonic code. Many cases before the courts of the cuit are dependent upon this code, and Senator White's knowledge of local practice would prove advantageous. Justice Jackson is at present assigned to tive circuit, so that a shift would be necessary in that event. It is suggested that Justice Brown might be trensferred to the northern circuit, where his experence with litigation involving great commercial interests would be of particular advantage, and that Justice Jackson might be given the circuit now presided over by Justice Brown.

Cape Breton coal, 25 miles from the mines, is \$,250 per ton screened, \$1,80 run of mine and \$160

The average coal freight from Nova Scotia to New England during the past five years was \$1,90 and this, with the 75 cents tariff duty added, makes Nova Scotia coal \$5,10 at Boston and Fall River. The average cost of a ton of coal on railroad cars at the pit mouths in Du Bois, Reynoldsville and Punxsutawney varies from sixty to seventy cents, and 25 miles away it can be sold at a profit of \$1,00, the run of mine coal dropping 80 cents per ton less than the Cape Breton coal.

There it is in a nut shell. The Amercan minor gets 40 cents a ton for coal that brings \$2,15 a ton at Buffalo and on which the subsidy tax paid to the operations amounts to \$27,000,000 a year in this state alone.

ATTORNEY GENERAL HENSEL, in the course of a speech at a mass-meeting in Philadelphia, Saturday evening said: under a Republican tariff. He after a debauch is due to temperance resolutions to be adopted two weeks hence, rather than to the extra bottle of the night before. As surely as depression follows stimulation, have the widespread wreck and ruin of commercial and manufacturing interests ensued from a vicious, inequitable and reckless system of the favored few and to the spoiliation of the suffering many.

Notwithstanding the widening field to an alarming degree. Merchants in the shopping districts of this city keep registers of applicants, any of which would fill a church with intelligent, selfrespecting and well reccommended young women. One firm enrolled two clerking during the last 18 months. Most of these girls were public school graduates, and were willing to work without salary for a month in the hope of making their services valuable.

There are so many actresses and singers able to provide their own wardrobe and willing to understudy for the chances of getting an engagement, that the inexperienced stage struck beauty cannot even get audience with the manager. Choir masters report "a vocal flood of talent unprededented in the musical history of New York.'

At the homes for unemployed women and girls capable talent goes begging for the means of a living. Domestic labor at 50 cents a day is superabundant, while the number of woman who are willing to keep house and look after children for board and lodging in a good family is incredible

At the meeting of the soldiers' orphan school commission, Harrisburg, on Friday night, the purchase of the Stewart farm at Scotland, Franklin was approved, and a resolution provided for the payment of \$12,000 was adopted. Judge Simonton having disolved the infrom making the purchase there was no obstacle in the way of the completion of the contract. The injunction against Capt. Geo. W. Skinner restraining him from acting as a member of the commission was also dissolved, and he took

part in the proceedings. At the suggestion of Governor Pattison the charge made by Thomas G. Sample, of Allegheny city, to the effect that Thomas A. A Model Farmer.

B. K. Fisher dropped in to see us this forning, says the Punxsutawey Spirit, and this is what he said: I am a farmer there in Union township you ever saw. There is not a fence, nor a stump, nor a tree, nor a ditch, nor a stone on it. The people laughed when they heard of me turning farmer, but I have shown them that all it takes to make a success at anything is plenty of snap and energy. I have 62 acres cleared. The first year I raised 1,843 bushels of wheat, 797 bushcounty, as a site for the industrial school made over \$300 out of tomatoes and cabbage. Last year I raised 328 bushels of wheat, 71 tons of hav and straw, 968 bushels of oats, 157 bushels of potatoes, 22 bushels of beans, and made 22 barrels junction restraining the commission of cider. I'd like to see any of them beat that for 62 acres.'

The Entombed Miners.

WILKESBARRE, Pa., Feb. 20.-At 7 clock this evening there is little or no change in the situation at the Gaylord mine. There is now very little hope of reaching the 13 entombed miners who have been shut up since the 13th inst. alive. African Towns Wiped Out.

London, Feb. 20.-A correspondent describing the march of the expedition under Colonel Ellis against the Sofas in Sierra Leone gives horrible details of Sofa's slave raids. In some cases entire towns have been wiped out and their innabitants butchered and scattered. The once thriving town of Tekiviama, which had 3,000 inhabitants, is now a scene of desolation. All the houses are in ashes. and the headless and mutilated trunks of men, women and children are lying heaped amid the ruins. The stench arising from these mounds of decaying flesh was horrible. The route taken by men and women indicated that they were spared only to be sold into slavery

Crisis Among Iron Workers.

PITTSBURG, Pa., Feb. i9 .- A meeting of the Amalgamated Association of Iron and steel workers, of this district, was held to day to discuss the question of finally disbanding. The order was once very strong in this section owing to the large number of iron and steel mills. The non-unionizing of different plants, and internal dissensions have brought the Amalgamated to its present crisis. It was decided that no work be done for less than \$4,75 per ton, the scale rate. None of the national or district officers of the Amalgamated Association were els of corn, 480 bushels of potatoes, and aware of the meeting, leaving the whole settlement with the men.

No Tidings of a Lost Boy.

Wilkesbarre, Pa., Feb. 18.-The fate of little Eddie Brotherton, who, it is supposed, was kidnapped from his Ashley home a month ago, is still a mystery. The lad disappeared one day, and was seen by some of his school friends in the company of Rocco, an organ grinder.

After having tried five different doctors and a can now do as good a day's work a After having tried five different decisors and a wagon load of different patent medicines, grow worse and worse, and was at last cared by Dr. Salm.

For more than eight years I was troubed with dyspepsia and intestinal indigestion, I suffered untold agonies, only ate enough to keep me alive and towards the last I could not keep me alive and towards the last I could not keep me alive and towards the last I could not keep me alive and towards the last I could not keep on the county but the last I could not keep on the same of the last I could not keep on the last I could not been aliased.

For quite a time I have been aliased with second dead, and the right one is deal from catarrh, tarrienlarly in me is deal from catarrh, tarrienlarly in me is deal from catarrh, tarrienlarly in the last of the second dead, and the right one is deal from catarrh. I carried a last of the last I could not keep on the last I could not last I could n

case of estarrh, but Dr. Salm cored him at-ter the ver best physicians in in the county For more than seven years I had a bad case of Chesnre of the tear-duct cured by for Salar catarrh which affected my head throat and chest very much, and in a short space of time lost over twenty pounds in weight, became weaker daily and felt stupid and good for nothing. Was treated by several of our best doctors and took a good deal of patent medicines, but grandally grew worse and worse. Then I heard of fir. Saim's wonderful cures. I gave him a trial and from the very first month I began to steadily improve and the result to day is that I have gained what weight I had lost heretalate and feel like enjoying if eace more.

Cured by Dr Saim after having suffered for years with stomach, bladder and kidney transle I have been suffering with very severe stomach, I have been suffering with very severe stemach, builder at d kidne; trouble, and on account of that self all broke up. Couldn't follow my daily labors on account of great pains, weakness and headache; but now, after a course of treatment with Dr. Salm, can once more attend to my daily labors with pleasure and consider myself hale and hearty again.
