tion was adopted requesting the government to return to the old system of fractional paper currency. The publish ers believe that stamps in denominations of 5 cents, 10 cents, 25 and 50 cents are much needed in business transactions, particularly those carried on by mail. Silver coins, they contend, cannot be safely intrusted to the mails, while paper money of the same denominations can readily be placed in envelopes.

On Monday at Enfala, I. T., Joseph Diek, a full-blooded Creek Indian was executed for the murder of another Indian, named Gray. When the time for the execution arrived the sheriff placed a small box against a tree, returned to the jail and beckoned to the prisoner to follow him. Dick straightened himself up, looked around at the gaards surrounding him, and leisurely strolled out He took a seat upon the box as cooly as though he were taking his seat to be photographed. A red handkerchief was tied over his eyes and a piece of white paper pinned ever his heart. Not muscle of his face or hands moved Two of the guards took position 25 feet distant and both fired at the white spot, killing Dick instantly.

A DISPATCH from Carlysle, Pa., or Wednesday says: CharlesSalyards, who was sentenced to be hanged to-morrow (Thursday) for the murder of Policeman Martin, attempted suicide this morning. He was taken violently ill, and when the jail physician was called he found that the condemned man had taken a mixture of match heads and vinegar. There is little hope of saving his life. He cannot arise from his cot, and it requires considerable effort to arouse him sufficiently for him to talk intelligently The indications are that it will be necessary to carry him to the gallows to-morrow. He broke down completely and for the first time was glad to see a minis ter. He says he is ready to forgive all and has told the sheriff that he has no fault to find with him for the part he must take in the execution.
