SECRETARY MORTON has added a new division to the organization of the weather bureau, namely, a division to be devoted to the subject of meteorology in ts relation to agricultural soil. The object of the division shall be to study the climate conditions of heat and moisture under the surface of the ground and the relation of these conditions to the crop production. The Secretary has appoint ed to be chief of the new department Professor Milton Whitney, of Maryland late of the John Hopkins university.

Senator Hill's resolution proposing radical changes in the Wilson tariff bill says the Raltimore Sun, will strike the country as scarcely consistent with his famous declaration, "I am a Democrat." The Wilson bill has been formulated by Democratic leaders as the redemption of the pledge contained in the nationa platform, and is endorsed by the large majority of the party in congress, as well as by the Democratic voters of the country. Yet Senator Hill, who is so proud of proclaiming himself a Democrat, does not hesitate to array himself against both the platform and the party. Unfortun ately, some other Democratic senators seem to have wandered off into alien territory and into strange company It is a curious sort of Democracy that carries a man into the camp of the high protectionist.

A RECENT Washington dispatch says "Hon. J. C. Sibley, who, notwithstand ing his antagonism to the Wilson bill, i a warm friend and admirer of its author originated a movement which will be at once put into effect, to make the convalescence of the chairman of the committee on ways and means as comfortable as possible. A special car is to be started immediately on its way to Mexico and two trained nurses. With attendance and the cheering knowledge of the solicitude of his friends, it is thought the recovery of the chairman will be hastened. "As soon as he is able to travel a special car will be at the disposal of the chairman for the journey home, under the care of the physician and nurses. Although Mr. Sibley has interested a number of members of the House, it is known that he is the contributor of the bulk of the funds for this graceful tribute to Chairman Wilson.

CONGRESSMAN TOM JOHNSON, who is engaged in the manufacture of steel rails at Johnstown, in a recent interview

"The question of the hour is the Wilson bill. I look to see it made a law this session. The senate is certainly taking its time with it, and they won't improve the bill: that I feel pretty sure of. The people want no more of this false protection that doesn't protect. The country will be more prosperous and the workingman will be earning higher wages with competition in trade thrown wide open to all than under the present restricted system."

Mr. Johnson said it was quite true that his company was about to erect a new plant for the manufacture of standard rails. He said he was not afraid of foreign competition in rails.

"There is not a pound of metal made in this country that needs a cent of protection, or that cannot hold its own with metal made elsewhere," he said

"The whole system of taxing foreign products under the guise of maintaining sooner the workingman understands that

EVIDENTLY, says the Philadelphia Record, the game of obstruction is to be played for all it is worth in hindering the progress of the tariff bill through the senate. The bill has been hung up in committee as long as possible, and now that it is likely to be reported, through the connivance of Republican senators the way is to be barricaded with the mischievous Bland bill. Republican organs have not tired of boasting that the re-HARRY JOHNSON, convicted of the peal of the Sherman law could not have

> THE Republican papers take occasion, says the Pittsburg Post, of the 4th March to indulge in doleful reviews of the condition of the country consequent, as they allege, on one year of Democratic rule. The panic was the creation of the Democracy, according to their ogic, but they fail to explain why it has been world wide in its sweep. Democracy is a pretty big institution, but it hardly determines conditions in Great Britain, France, Germany, Italy and creation generally. The Democratic party took power on the 4th of March, 1893 pledged to these things, namely: 1 The repeal of the Sherman silver purchase law. 2. The repeal of the federal election law. 3. The reform of the Mc-Kinley tariff. Within the year they have repealed the Sherman law, they have passed through the House, and have pending in the senate, a comprehensive plan of tariff reform and revision. The chances are that it will be in operation on the date stipulated in the pending bill-that is, on the 1st of June That is doing pretty well. The Democ racy is willing and proud to stand on its record. If the Republican papers are in a reminiscent mood they will find plenty out any aid from the populist senators, of material for reflection in a compari and President Cleveland being absent son of the condition of the treasury and finance generally when Cleveland gave way to Harrison on the 4th of March, 1889, and the condition on the 4th of March, 1893, when Harrison gave way

THE reasons, says the New York World, for the revival of business all over with the family physician of Mr. Wilson | the country are apparent. In the first place, consumption has been going on while production has stopped. Stocks have been permitted to run down antil now there is a demand that must be supplied. The revival was bound to come in the course of nature.

> The quickness of the recovery is due to American elasticity and vigor. It is due also to returning confidence and to a reasonable certainty concerning the future. It could not have come so soon were it not for the repeal of the Sherman act. It has been helped too, by the passage of the Wilson bill through the House by a large majority. Manufacturers and merchants are thus assured of a moderate tariff measure, and are able to place their orders with some certainty as to the cost of goods.

Only one thing can prevent a brisk and profitable spring trade, and that is undue delay in the senate.

SENATOR CAMERON introduced a bill on Tuesday, in the senate directing that Sister Celestine, mother of St. Joseph's pant is in the chair he will never make convent, Titusville, be put on pension roll at \$25 per month to begin from May 15, 1868. of so many caucuses, it is far preferable, either from a party or general point of view, that concessions be made in a party caucus than that they be forcibly ob tained with the aid of Republican votes on the floor of the senate. Whether the bill as finally reported by the finance committee, to which the caucus returned it, will be a better or worse measure than was the Wilson bill as passed by the House, may be a debatable question, but that the votes of at least 42 out of the 44 Democratic senators will be neces sary to pass any tariff bill is a fact, that admits of no debate, since two of the populist senators have said that they would not vote for it unless the sugar schedule is pleasing to them. At this writing every indication points to an agreement that will result in a bill that can be passed by Democratic votes with-Washington cannot be charged with influencing the senators, or even trying to do so.

Some Republicans in the House-notably Bingham, of Pennsylvania-are wrothy because Postmaster General Bissell gave the contract for printing postage stamps to the Bureau of Engraving and Printing, notwithstanding the efforts of a well-paid lobby to prevent his saving money for the government by doing o, and some of them are talking about having a congressional investigation. It is little short of nonsensical for Congress to investigate the right of the government to do its own work, but if an nvestigation would expose the names and methods of the lobby which was employed in this particular case it should by all means be held. I know that neither Postmaster General Bissell, who gave the contract, nor Secretary Carlise, who authorized the Bureau of Engraving to accept the work, would raise any objection. On the contrary, they both could and would, aid a congressional committee in showing up the stamp lobof the cabinet.

Common sense again assumed its sway in the House this week and the Democrats disposed of the Bland bill and ceased to furnish the Republicans with campaign material by again cutting down to business after a tie-up of more than two weeks. Speaker Crisp made a decided hit just before a quorum voted, when asked to enforce the rule compelling members to remain in their seats and to vote when their names were called, by saying in reply: "The chair is the organ of the House, not its master, and as long as the present occu-

Driven Mad By Spiritualism.

Lockport, N. Y., March 4.-Insanity's blight has fallen simultaneously on three handsome sisters, daughters of Joseph Schenck, a wealthy farmer of Sanborn, and the little village is intensely excited

over the tripple misfortune. Farmer Schenck lived happily with his trio of daughters, Mary, Maria and Ellen, who, being highly accomplished, had many admirers.
