SENATOR Z. B. Vance, of North Carolina, died in Washington Saturday night, from apoplexy. He was born in 1830. Is the United States circuit court at Chattanooga, Tenn., last week, Judge Key sentenced Rev. C. W. Lewis, a colored pension swindler, to twenty-eight years in prison. Lewis was convicted in fourteen different cases and was given two years for each case. He was mixed up in over sixty different cases of pension frauds, and nearly 300 persons are i avolved.

DAVID DUDLEY FIELD, a great lawyer of New York, died on Friday, aged 89 years. He was a brother of Justice Field, of U. S. Supreme Court, of Cy rus W. Field, of Atlantic cable fame, and Henry Martin Field, a distinguished Presbyterian preacher and author. Mr. Field had just returned from Europe, and was reported to have been in good health. Pneumonia caused his death.

JAMES NEWTON HILL, convicted of the murder of Mrs. Rosa Rotzler in Allegheny Park last fall, and now in the Pittsburg jail was notified on Wednesday of the signing of his death warrant by Governor Pattison. On the night of the murder Hill was found lying beside the dead woman with his throat cut from ear to ear. Physicians thought he he could not live. With the aid of a silver tube, however, which was placed

permanently in his neck, Hill recovered. The position of the wound in Hill's neck is such that if a rope around his neck is drawn taut it will slip above the wound, and he could continue to breathe shrough the opening below the rope. It would thus be impossible to cause his death by strangulation, no matter how tight the rope might be drawn.

THE general debate in the senate on the tariff bill will by agreement close next Monday. Then the senate will be gin the consideration of the bill by items, a process which promises to be long and tedious. The fear of the defeat of the bill is only in the opposition papers; it does not exist among the Democratic senators who stated at the caucus held previous to the reporting of the bill that by J. D. Cairns, president of the Pittsthey reserved the right to propose amendments on the floor of the senate and will O'Malley, of the Executive Board of the succeed in getting some amendments United Mine Workers, who were greatadopted, with the aid of Republican ty pleased at the result of the meeting votes, but they have no doubts about Mr. O'Malley stated that the movement the final passage of the bill, nor do they was spreading like wildfire, that the believe that a single Democratic vote mners of Alabama were already out and feet the speech will have upon the fate of will be cast against it when the final the other states would be in a line on vote is taken. The bill is going to be Saturday. When the citizens of this pushed to a vote, and it is going to be community heard the result of the meetpassed. These two things can be relied ing they were very much surprised, as

The sheriffs of the two counties affected by the strike swore in deputies enough to defend at least a reasonable proportion of the mines and coke ovens and arrest the leaders of the murderous mob. With the leaders in jail the disorderly crowd simply grew aimless and discouraged and dispersed.

THE Democratic State Committee met at Harrisburg on Monday to elect a chairman to succeed J. Marshall Wright, resigned. Deputy Attorney General James A. Stranahan, of Mercer was named to fill the vacancy and he was unanimously elected. Wednesday, June 27, was determined upon as the time for the meeting of the next Democratic state convention and Harrisburg the place. THE outlook for the agricultural interest of the country, says the Norristown Herald, is one of the most frequent subjects of discussion just now at farmers' institutes and other similar gatherngs. With grain at its present low prices, there is very little encouragement to go on in the old way of raising

wheat and corn and selling the product. The successful farmer will be the man who can adapt his efforts to the requirements of the business and so diversify his products as to reap a substantial reward. It is very evident that the rais ing of wheat or other grain cannot be made profitable on the Atlantic coast. Those who desire to engage in such competition should seek the prairies of employ labor-saving machinery to the best advantage, they may be able to obtain moderate returns for their capital and intelligent oversight of the farm.

The only hope for the Eastern farmer s in his adaptation to circumstances. He must get out of the old ruts, and abandon the idea, as many intelligent tillers of the soil have already done, of farming as 'did his father or his grandfather. The times have changed within a half century, the general construction of railroads bringing the great West to

But there is a field for the intelligent farmer, even at the present day. He should diminish the size of his farm, where it is large, by selling off a portion, and engage in the raising of such products as command a ready sale at remunerative prices.

It is impossible to suggest any rule that will hold good in all localities. Intelligent discrimination will enable each individual to judge what particular product or what diversity of products is suited to his locality. This it should be the aim to determine, and once settled, that aim should be pursued with persistent effort. There is a successful career open to the farmers, even in the East, if they can adapt themselves to the necessities of the situation.

For the first time in the history of the riotous demonstration in this turbulen section the sheriffs appear to have been equal to the responsibility which the law places upon them, They neither shirked their duty nor tried to get some one else to perform it for them. In a manful way they proceeded to exhaust the resources of the civil law for maintaining the peace, with the result that they had the rioters cowed and rendered powerless for evil before getting nearly to the end of their resonrees. They did not prevent the loss of life and destruction of property, but they soon placed those chiefly responsible for murder and pillage within prison walls, where the law will deal with them, and thus won a no table triumph for the eivil power of the

This gratifying and effective display of the power of the civil authorities when intelligently directed and fearlessly employed, leads to the conclusion that the most of the former labor disturbances in Western Pennsylvania could have been as easily suppressed if the same fearless determination had been manifested. There has certainly been in several in stances too great a willingness manifest ed by the civil powers to abdicate in favor of the military, thus involving the commonwealth in unnecessary expense and magnifying the extent of the disorder to be overcome. It is a healthy sign that the civil authorities in Penn sylvania are showing a disposition to de heir full duty in a crisis like the pres ent before calling on the military for aid.

At present the people are taking out of the hide of Democracy vengeance for ill for which Democracy is not responsible. It is an old fashion, when disastrous prophecy comes true, to stone the prophets. Voters do not stop to think that protection is still doing its perfect work in this blessed country, and that we are enjoying McKinleyism unchanged, undiluted and unrepealed.

### Washington Letter.

Washington, D. C., April 16, 1894.-Senator Harris very cleverly outwitted the Republican senators this week and put an end, for the present at least, to Reoublican fillibustering to delay the resoution providing for meeting at 11 o'clock and sitting until 6 each day. This frightened the Republicans and they made the proposition that for a week the senate take up the tariff bill at 1 o'clock and continue its debate without roll calls or other interruptions until 5 o'clock. This was exactly doubling the time that had previously been devoted to the tariff bill and being more than the Democrats expected to get without a struggle was promptly accepted. Senator Harris is perfectly willing that this agreement should continue in force for ten days or two weeks longer. Then he the west, where, with the opportunity to will begin to put on the screws in earnest, to bring the debate to an end, beginning by adding an hour a day to the

Senator Morgan in the only senator who has publicly noticed the extraordinary address lately published as emanating from a Minnesota Democratic association, referring to twelve senators as to the tariff blil. He made a personal xplanation on the floor of the senate in which he characterized that address as being, like the French method of trying a man in his absence and without serving notice upon him. He expressed himself as satisfied with the tariff bill as t now stands and announced his intention to vote for it and his willingness, if necessary, to stay on the floor of the senate several consecutive days and nights, as he had done on other occasions, to listen to Republican fillibustering speeches against it. He said he had been a tariff reformer long before those who had formulated the diatribe against him, and expected to remain one intil we get a fair system of tariff tax-

The most notable feature of the caucus held by Democratic members of the House this week at which resolutions endorsing the repeal of the tax on state bank currency were adopted, was the speech made by Representative Cumnings, of New York, in favor of the resolutions. Few people believe that Mexico will grant such a request. If, as asserted by Mr. Wolcott, the mint capacity of Mexico isn't sufficient to upply the demand for these silver dollars in the east, the question naturally arises why not increase it? The minting of these dollars is very profitable to Mexico and it seems little short of ridicalous to expect that the Mexicans would be willing to surrender any of that proft to a foreign nation. It would not urprise me if President Cleveland should gnore the resolution entirely, as he may very properly do in the exercise of the discretion vested in him by the consti-

Senator Hill's speech against the tarff bill has been the most talked about event of the week, and Republican praise of it has been carried to an extent that must be nauseating to Senator Hill. Democrats, as a rule, decline to public y discuss the speech, but the few who lo, while conceding Senator Hill's personal right to talk and vete against his party's measure, are practically unanimous in expressing the belief that he has made a great mistake, and that it was aggravated by his uncalled for attack on the administration which he nelped to put into power, as well as by is slur upon the Southern Democrats who have so often stood by the Democratic party even when they had to pocket their own personal opinions as well as those of their constituents in order to to it. The man does not live who has the right to doubt or cast aspersion upon the loyalty of southern men to the Democratic party, and least of all Senator Hill, who has had so many good friends the tariff bill remains to be seen.

### Her Walk to Death,

ALLIANCE, O., April 18.-Mrs. Mary . Hernung, the oldest resident of Mariboro, a village seven miles west of this city, met with a fatal accident in a peculiar manner last night. She was a somnambulist for years, and on several occasions had met with painful accidents while walking in her sleep. Last night she arose, got out of the house and start ed for the barn. To reach it she had to cross a foot bridge over a small stream. and while on the bridge she lost her footing and fell off. She fell on her side crushing her skull and breaking her leg. Her son missed her early in the mornng, and after a short search found her ying unconscious on the rocks under the bridge. She died shortly after, She was born in Wurtemburg, Ger-

**ABSOLUTELY PURE** 

It's a Tough Problem.

Washington, April 16 .- Washington authorities, civil and military, are beginning to take an active interest in the arrival of Coxey's army. As the Commonweal approaches, and the stories of the detachments from the various cities sittings and continuing until they are begin to be authenticated, the outlook continuous, compelling the Republicans for a rather troublesome problem for the to keep a speaker on the floor at all district authorities to solve becomes bright. The question is what will be done with the Coxevites after they dis band. The individual members of the army will be without means to get out of the city and General Coxey has disclaimed all intention of leading away masked Democrats" and opponents the men he brings in. It begins to look as though the men might encamp in the district and practically say to the authorities: "Here we are, and what do you propose to do with us?"

The district commissioners had prepared to-day a list of the statutes under which Coxey and his men could be arrested and dealt with. There is no lack of laws; laws against vagrancy, against bringing paupers into the district, against assemblages on the Capitol grounds, or processions without a permit.

Nevertheless this is believed to be the irst exhaustive examination the subject has ever received and the court is of the opinion that the conclusion reached, with the mass of historical and judicial evidence by which it is sustained, will be accepted as incontrovertable.

### The State's Forests,

HARRISBURG, Pa., April 17 .- At a neeting held here to-day action was taken which is expected to find expression in legislation for the protection of Pennsylvania forests and measurable purificaion of streams of water. The State Forestry and Fishery Commissions, State Board of Health, State Board of Agriculture. Geological Survey and department of Public Instruction were represented. Dr. Lee, of the State Board of Health. read a paper on "The Importance of the Woodland of the state for securing a pure water supply." Ex Senator Coxe mentioned the difficulties in the way of preventing sulphurous water from coal mines from flowing into the streams.

Gov. Pattison, who presided, appointed a committee to report at the next meeting the interest each department represented had in forestry, which should form the basis of an act having reference to the case of the remaining timber tracts and, if feasible, the refor estration of tracts.

### A Three-Cornered Fight.

CHICAGO, April 16 .- A local paper declared this morning that it is now settied that within the next week or ten days strikes will be declared on several northwestern roads running out of Chicago. Good. But Dr. Saim Cured Her.

For five years I have suffered terribly with stomach trouble, and all the resulting allments, such as headache, neuralgin, rheamatism, etc. to such a bad degree that I did not care how soon I would die. In that time I was treated by six different doctor, but none of them did me any good. To the contrary, I grew worse and weaker on account of not belong able to retain any kind of food on my stomach. I grew weeker and weaker on account of not belong able to retain any kind of food on my stomach. I be pan treatment with Dr. Saim three months ago, and am now a different woman. I have never vomited once since the first treatment; and to it make a long story short, I can once more with a good deal of pleasure attend to my daily labors.
