FRIDAY, - - - - MAY 4, 1894. THERE are 15 ex-governors now mem-

bers of the U.S. Senate and 3 members of the House.

THE St. Charles, a famous New Or leans hotel, has been destroyed by fire. Four persons perished in the flames.

THE mandamus case of Eugene E. Guddis against Secretary Carlisle, to compel the latter to show cause why the former should not be restored to his position as a clerk in the treasury depart ment, came up in the District of Columbia Circuit Court on Saturday before Judge Bradley, who dismissed the petition, saying that the courts had no pow er to interfere in the matter of removals in the executive departments.

SENATOR LURPIE, of Indiana has in troduced a service pension bill in the senate. It provides that any officer or private who served in the civil war shall be granted a pension at the rate of one per cent, per day per month for the time served. Every pensioner receiving un der this act less than \$8 per month is to have his pension increased to that amount up, on reaching the age of 60 years and to \$12 per month if incapacitated for manual labor.

NEVER before in its history has the senate lost its members in such rapid succession. Five weeks ago the obsequies of Senator Colquitt, of Georgia, were held in the senate chamber; three weeks later the lamented Senator Vance. of North Carolina, was buried on the mountain side of his beloved state, and, now (Tuesday) for the third time in five weeks another senator lies dead, and the desk of Senator Stockbridge, o Michigan is draped in sombre black.

A DISPATCH from Buenos Ayres, by way of London, announces the escape of Admiral Da Gama and all of the Brazil ian refugees who had been detained on board the Portuguese warships. These fugitives have been the cause of protracted trouble, and their flight from the Portuguese men of war might prove a happy solution of that singular tripar tite competition for their possession which has been going on for some time between the governments of Brazil, Argentina and Portugal.

THE stockholders of the recent World's Fair at Chicago are to be paid a 10 per cent. dividend; and as there will remain on hand a gross balance of \$400. 0 00, against which there are probably no claims of magnitude, a further divi dend may be looked for. In any event the stockholders will have no cause to be dissatisfied with the financial outcome of their enterprise, which has yielded more satisfactory results than many previous ventures of a similar character would have warranted them in expect

AFTER a long succession of Republican victories the Grand Old Party was brought up with a short turn by the election on Tuesday of Mr. Paul J. Sorg. Democrat, in the Third Ohio congress district, to fill the vacancy occasioned by the death of Congressman Houk The Republican candidate was Mr. E G. Rathbone, Harrison's Fourth Assistant Postmaster General. The battle was fought on the tariff issue, the Republi cans having what assistance could by given them by the American Protective Association.

A STATEMENT prepared at the pension bureau shows that during the year ended April 1 \$27,513 illegally paid to pension ers were recovered, against \$16,883 for the previous year. It is also stated that \$1,000,000 have been saved to the government in intended payments on admitted and pending claims prevented by the discovery of the fraud and punishment of the offenders. During the year the law division of the bureau caused 199 arrests, 341 indictments, 161 convictions and 93 sentences, while 55 of those arrested were acquitted.

In court at Philadelphia George Burtnett, a young man, recovered a verdict of \$12,000 against the Pennsylvania railroad company as damages for personal injuries received in a collision at Harrisburg on June 25th, 1892. Burtnett was a passenger on a west-bound express train which was run into by a lo lal train. Besides serious internal injuries, his legs were so injured that since the accident the one has been shorter than the other. The company's defense was that Burtnett could not recover because he had been riding on a free pass. upon which was a printed stipulation that the holder could not hold the company responsible in case of accident. The fact of the free pass was admitted by the other side, but it has shown that the pass had been issued in New Jersey, and it became necessary to try the case according to laws or that state.

In responding to a communication from the President Chauncy F. Black of the National Association of Democratic Clnb, setting fourth the needs and purposes of the organization, President Cleveland refers to the pledges under which the party was invested with power and reminds those charged with the redemption of those pledges "that, as we won our way to victory under the banner of tariff reform, so our insistence upon that principle is the condition of our retention of the people's trust. The words are timely and significant. They embody, in the President's' usual straightforward style, the duty of the hour. There is no appeal for income taxation, nor for any other "rider." The President sticks to the issue as it was settled by the country, and the country will acquit him of all responsibility for the unwarrented delay in car-

rying out its mandate.

THE Coxey movement, which has so far been carried along on the crest of a densive popular tolerance, says the Philadelphia Record, came to a head on esemblage of curious and appreciative sight seers Mr. Coxey was hustled off the steps of the Capitol, where he proposed to break the law-by making a speech, locked up for disorderly conduct. It will now be a matter for the local magistermine how to deal with the misguided cranks and vagrants who have been brought within their jurisdiction. They are a threat to the public peace, the pubic health, and the public purse. Now that they have had their parade they can no longer contribute to the public amusement. The leaders, in case they cannot give surety for the support of their deluded followers, should be and precedents. promptly dealt with under the statutes for the repression of vagrancy. Confronted with the choice between such work as may possibly be obtained and arrest, the army will soon resolve itself nto its original condition of wandering worthlesness and disperse. The crank is not naturally of a gregarious turn of mind. The transitory motive for aggregation having been withdrawn, each

crank will repel every other. The one thing that Mr. Coxev has succeeded in demonstrating is the necessity for a recasting of the laws relating to vagrancy, so that organized vagabondage may be as readily dealt with as

India apolis speech, says the Pittsburg Post, is that the present business depression and the panic that preceded it were caused by "the attempt to wipe out protection legislation and establish a revenue tariff" ordained by the people by the panic world wide in its sweep, affecting protection as well as free trade those periodic panies that at intervals are more or less to fall upon us"? The it is nevertheless the truth, else why fund have they had hard times in England and Germany? There is no Wilson bill try. Does Mr. Harrison remember the panic of 1873, which came in the full tide of protection policies, with no Wilmost regular intervals, and they come no matter what party is in power or what tariff is in force or proposed. The tramp was the product of the panic of 1873, and the industrial army seems to be the panic of 1893, with an unprecedented amount of Republican lying

THE following revised estimate of the number of miners now out in the strike, given out by President McBride, shows that the miners are gaining strength: Alabama, 8,000; Tennessee and Kentucky, 6,000; Indiana. 5,000; Ohio, 26,000; West Virginia, 7,500; Illinois, 28,000; Iowa 1,300; Indian Territory, 2,000; Missouri, 4,500; Pennsylvania ators Peffer and Alien introducing reso-65,000; Colorado, 1,500; Michigan, 300;

J. A. Crawford telegraphs from Illinois that not a wheel is moving from St. Louis to Cairo, and from this President out solidly. On the whole, President McBride thought the situation very encouraging to the miners. He says there are only 30,000 miners working in the production of bituminous coal. The coal produced by these men is so small in comparison with the whole product that it will not affect the strike, and there will be a general coal tamine in less than three weeks.

The local authorities have made all of their arrangements to receive Coxev's so-called army, which will arrive in Washington early next week. No trouble is anticipated, but if any comes they are fully prepared for it. If the men who come here with Coxev behave themselves and violate no law they will be allowed to remain as long as they please, or rather as long as they can get enough to eat, and you may be sure that will not be long.
