FRIDAY, MAY 18, 1894.

PLANTS ARE AFFECTED BY VARIOUS SUBSTANCES, JUST AS ANIMALS ARE; ELECTRICITY WILL STIMULATE THEM, NARCOTICS WILL STUPIFY AND KILL THEM.

GOVERNOR PATTON on Monday re-appointed George B. Laper, of Harrisburg, Insurance Commissioner for a term of three years, subject to confirmation by the senate.

The senate committee on territories on Wednesday ordered favorably reported the bill which has already passed the House providing for the admission of Utah into the Union as a state.

COXEY'S army of the Commonwealth received orders from the health authorities at Washington to evacuate their camp in the city, and they have moved to the famous Spa Spring, near Bladensburg, just over the Maryland line, six miles from the capital. Here may they rest in peace until their trials are over.

A DISPATCH from the New York Tribune announces that the peach growers of Morris, Somerset and Hunterdon counties, New Jersey, report the prospects for an immense crop were never better. They estimate their crops at 5,000,000 baskets, which will go a good way towards making up for the deficiencies in the Delaware crop.

PITTSBURG is agitating the question of building a ship canal from the Ohio river to Lake Erie and Philadelphia wants a ship canal to the Atlantic Ocean. From Bordentown on the Delaware river to the Raritan river, at New Brunswick, the total length of the canal proper, excluding the portion on the Delaware rivers, would be about thirty four miles.

GEN. ROBERT P. DECHERT, commander of the first brigade, N. G. P., died at his home in Philadelphia on Saturday at the age of 52 years. He was an ardent Democrat, and as such was elected to the state senate in 1870. One of his legislative achievements was the enactment of a law enabling criminals to testify in their own behalf. He had a gallant war record, and during the rebellion was colonel of a regiment of volunteers. Gen. Dechert had been ill for several months from an affection of the liver.

DUNPHY, of New York, introduced in the House on Tuesday a resolution authorizing the appointment of a joint congressional committee to investigate the condition and character of all armor plate, bolts and others delivered to the government by the Carnegie company during the entire period of the contract between the company and the government. The committee is to consist of three members and two senators, and is to have power to send for persons and papers and to go where they deem necessary.

The "On to Washington!" slogan of the various gangs of tramps throughout the country is a mere pretense. These men, who are unemployed, and are glad of it, are going nowhere in particular; but by giving out the impression that they have pressing business with Congress they get the right, as they inter-pret it, to steal trains and indulge in a free ride. It is the business and the duty of railroad companies to discourage this sort of thing even if they are obliged to provide each train with an armed escort. And the civil authorities everywhere should co-operate with them in doing it. This phase of Populism has gone far enough.

The enormity of the armor plate scandal increases with each day's disclosures. William F. Brown, a Carnegie workman, in an affidavit sent to the Navy Department Wednesday, swears that he personally, upon the order of foreman and superintendents, imposed upon the government inspectors at Homestead vast numbers of imperfect bolts and nuts for fastening armor plates to vessels. He specifies a score of different tricks and devices used for this purpose, and says that once when he filled an important order with bolts from the scrap heap he was personally commended by the Superintendent and given a raise of salary.

Before the ordinance Bureau's board at Homestead Frederick Buck testified that by direction of his superiors he had tampered with the machine used in testing armor plates, so that it would register greater than the actual strength for certain marked plates.

A PLOT to assassinate I. I. Bookheimer, a guard in the Huntingdon reformatory, resulted, on Thursday, in the instant killing of Edward Woods, a Philadelphia prisoner. Woods and a fellow inmate, Henry Waldron, had been reduced to the third grade by Bookheimer for misconduct. Then they resolved to have revenge. Thursday afternoon they eluded the vigilance of the guards in the tailor shop and started after Bookheimer, who was in the cell house. They cautiously approached him from the rear, and, when within a few feet, Woods sprang forward and struck Bookheimer over the head with an iron bar. The guard broke to the ground. A second blow dropped the guard, killing him instantly. Waldron was seized and penned in a cell. The guard was arrested but the coroner's jury exonerated him. It was held that he did the shooting in self defense. This was the second attempt at assassination by these prisoners.

The seizure of coal in transit by the railroad companies transporting it for their own use, says the Pittsburgh Post, is one of the novel developments of the coal miners' strike. The policy of the railroads in this respect it is said has never been opposed in the courts, as it is a supreme necessity, and the coal taken is paid for. It has been sometimes seized under similar circumstances in the past, but not to the extent it is now done. If the railroad companies cannot obtain coal it would be impossible for them to move their trains, and not only the coal traffic but the passenger and general freight business, as well as the transportation of mails, would be suspended. The course pursued, although it may work a hardship to individual shippers, works the greatest good to the greatest number. Large contracts have been made for the importation of coal from Wales to meet the deficiency of coal from the mines. One of the Clearfield companies on Saturday last made a contract for 50,000 tons of coal from Wales and 5,000 tons from Nova Scotia.

Another incident of the coal strike of a remarkable character took place in one of the Maryland mines of the Cumberland district on Saturday. The wives, mothers and daughters of the men at the Elkhardt mines struck with emphasis and effect against a sympathetic strike. When the visiting agents of the national union insisted that the Elkhardt miners should strike to show their sympathy with the general movement the hard working women folks "put their feet down," and insisted that there was to be any "sympathy" in the business it should begin at home. The Maryland women went to the mouth of the mine where the work of persuasion or intimidation was going on and confronted the walking delegates and begged them to let their husbands work. When their appeals were disregarded the women courageously adopted a more decisive line of policy. "If," said they to the strikers, "you compel our husbands to strike we shall ourselves go down into the mines and dig the coal." That settled it, and the attempt to force a "sympathy" strike was abandoned. This row was a great sufferer by the strike of 1882. The coal companies imported Hungarians to break a strike at that time. When a general resumption of work followed some of them remained as a disturbing element, and it took Elkhardt years to regain its tranquillity. A remembrance of this caused the miners' wives to take the aggressive as they did on Saturday. It was a successful vindication of woman's rights.

Duss Review for this week says: The strikes begin to have a serious though it is assumed only a temporary effect. The number of works depending upon supplies of bituminous coal or coke for fuel is large, and quite a considerable proportion of them has already been compelled to stop operations. No doubt the proportion is larger in the iron and steel manufacture than in any other business, but nearly a third in capacity of the iron furnaces at work a month ago appear to have closed. Some railroads at the West are embarrassed, and textile works of some importance must close soon unless the strike ceases. The movement of so-called armies of unemployed in Washington has caused little excitement, and is less important or significant than the outward movement of specie, which shows shrinking foreign demand for products and further withdrawal of foreign capital. But neither strikes nor foreign distrust long retard the progress of this country.

The speculation in grain has again broken records with the lowest price ever made for wheat, although Western receipts are a little smaller than a year ago, while exports are also smaller by more than a quarter. The prevailing belief is that the yield will, as in other recent years, far exceed government indications, which are again pointing to a short crop. Corn has changed in price but little, and pork products have been fairly steady, with oil and coffee unchanged, but cotton is weaker in tone, although receipts from plantations are a little smaller than a year ago. It is a striking evidence of the general want of confidence that there is so little speculation while money is abundant almost beyond precedent.

The Republican papers in their relation over the many local victories throughout the state are busy speculating on the probable extent of their expected victory on this fall. That there could by any possibility be any change in the political atmosphere during the next six months does not seem to have occurred to them. To their dazzled vision nothing is clear. They cannot see that they owe their present advantage to an unusual combination of circumstances, misinterpreted and misunderstood, and not to a change of public sentiment. They forget that with changed circumstances will soon come renewed faith in the doctrines so potent in the last presidential campaign. Congress is bound to pass a tariff bill and that bill will be redemption of the pledge made in that campaign. The business depression has largely passed and only awaits settlement of the tariff question to come wholly at an end. The passage of a new tariff bill, immediately followed by an industrial and business boom, would revolutionize national politics. The American people can and do change quickly and an object lesson so plain as that will not be misunderstood and will not fail to be effective.

The next Congress is perfectly safe, provided the present Congress with reasonable diligence does its duty. This it is going to do, because it dare not ignore the people's demand.

AMBASSADOR BAYARD of the United States has intimated to the British government the desire of the United States to withdraw from the Berlin agreement, provided all the rights of the United States citizens in Samonera safeguarded.

The wheat consumption in the United States is estimated at four and one half bushels per capita.

Washington Letter.

WASHINGTON, D. C., April 12, 1894.—The more the Democrats study the proposed amendment to the Wilson tariff bill, and the causes which led up to their adoption by the subcommittee, the less they object to them as a whole. When the amendments were first made public there were some extremely vigorous protests from Democratic senators and representatives, and for a time it looked as though the concessions made in those amendments might prove to be but another case of "jumping out of the frying pan into the fire," but to-day the feeling is decidedly less decided, and the impression general, regardless of politics, that the proposed amendments will all be adopted and the bill passed by Democratic votes. Even Senator Hill is expected to vote for the bill, although it is understood that he has about made up his mind to first test the sense of the senate regarding the income tax, by moving that the bill be recommitted to the finance committee with instructions to report it without the income tax. His decision positively but politely to make any additional statement concerning his intentions, since the amendments were made public. There are few Democrats, however, who believe that his vote will be against the bill when it is put upon its passage.

President Cleveland, all the members of the cabinet in the city, most of the justices of the supreme court, and a large number of prominent officials, members of congress and citizens of Washington went to Frederickburg, Va., yesterday to see and take part in the ceremonies attendant upon the unveiling of the monument to Mary Washington in that city. Today the cabinet had not before been familiar with it and in their praise of "old Virginia hospitality," known and appreciated throughout the civilized world as unsurpassed and unsurpassable.

Secretary Hicks made no mistake when he determined, about a year ago, that the contract for printing the Patent Office Gazette should be open to competitive bidding every year. Last year the saving was comparatively small—about \$10,000—and the scandal involving the name of Hon. Josiah Quincy with the successful bidder, the National Lithographing Co., followed; but this year's bidding enables the secretary to have the work done by a new contractor at an extreme lower end of a price—nearly \$60,000 below what was paid for it for the fiscal year ending June 30, 1893.

Coxeys is tottering on its last legs in Washington. Coxeys, Brown and Jones counted upon being acquitted when they were tried for violating the laws for the protection of the Capitol building and grounds, and they have not yet recovered from the shock of being convicted. They have applied for a new trial, but there isn't the slightest probability that they will get it. They may be fined or imprisoned, or both, in the discretion of the Judge. The commissary department at the Coxeys camp has been kept for too large by Mr. Palmer, because he did not care to discharge any of the Republicans and was compelled by Democratic senators and representatives to put on a few Democrats. Mr. Benedict says: "The condition of the force is not good. There are 3,500 men on the rolls, and when I stepped out before I left 2,132. We cannot accommodate many; there is no place for them to work. Employees are now working only from one half to one-third time. For long hours they are being paid. This force has got to be reduced down to a working basis, and I shall do it as soon as possible." The Republicans in the office are all looking for their discharge, and I violate no confidence that they are looking for. I will get what they are looking for. I certainly have no right to complain. It is more than fourteen months since the Democratic administration came into power.

Old Tip Died in Agony.
New York, May 11.—"Tip," the big elephant in the Central Park Zoo, died this afternoon after many hours of agony. The first dose of poison given him, cyanide of potassium, was not sufficient to put a quick and painless end to his life. After many consultations between Supt. Smith, the manager, and Supt. Hankinson of the Society for the Prevention of Cruelty to Animals, it was resolved to administer another dose of poison. The second dose finally proved effective.

Bad to Return the Coal.
Erie, Pa., May 15.—The shippers of coal in this section of the state are complaining about the piracy of the railroad companies, which is said to be carried beyond all legal bounds since the scarcity of coal has become so harassing. The Philadelphia and Erie Railroad Company last night received two carloads of coal for M. J. Meyer & Co., local dealers, and ran them off into their own yards. The local shippers here opened the fight again by going into the courts and securing a writ of replevin, under which the coal has since been delivered to the persons to whom it was consigned.

Roasted at the Stake.
WASHINGTON, May 16.—Bertram Curtis, a ten year old lad, died this morning from the effects of burns received while tied to a stake playing "Wild West" with some of his playmates. Some other children who were with him were also affected by a recent visit of a circus.

A Serious Forest Fire.
PORT JERVIS, N. Y., May 16.—For three days a fierce fire has been burning in the mountains just across the Delaware river, in Pennsylvania, and between there and Milford, a summer resort. The fire has been burning for a few hours and has burned over an area of about seven miles, destroying a large amount of timber and two or three houses. The atmosphere is thick with smoke and the people who live in the woods are all on edge to get to their homes, a difficult task owing to the velocity of the wind.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

Both Sides Rigged.
CLEVELAND, O., May 15.—The representatives of more than 200,000 organized mine workers of America were sitting early in the forenoon at the opening of the meeting of today. Though there was a paucity of a quorum in the hall, there was no evidence of weakness in their demands or signs of a compromise. There is no doubt about it, the miners are determined to win. They have come here for that purpose and they never agreed to a conference with any other object in view than having their stick to the positions they have taken. The Ohio operators will be willing to advance the rate to the old scale if Pennsylvania will agree, but Pennsylvania won't. The miners absolutely refuse to consider the question of making terms with any single section of the country.

Coxeys Turn Burglars.
FRANKLIN, May 15.—A number of safes stacked in this city last night and valuable papers, books and considerable money stolen. The work was evidently done by a party of thieves working in different parts of the city at the same time, as S. C. Eagle's large safe at the extreme lower end of the city was opened and the safe blown up by dynamite, while the safe of the Boston machine shops, at the extreme upper end of town, was dynamited and left in such condition that it could not be opened this morning. The work is charged to the gang of Coxeyites recently raided in this city and driven away by the police. They were under the leadership of the famous W. M. Connor, of this city, who has some time ago fled from the state for the purpose of robbery, was sentenced to the penitentiary for six years. It is said that all the gold in the world, not counting that in virgin state, would not make a block of more than 613 cubic yards. A cube of the above dimensions could be piled in a room 24 feet each way.

Miners Induced Not to go to Work.
PITTSBURG, Pa., May 16.—Word was received by the local officers that the Kettle Creek region miners had been offered the advanced mining rate of fifty cents and had decided to return to work on Wednesday. Six miners were immediately sent there from this region to try and persuade the miners to not return to work until ordered to do so by the national officers. To night it was stated that the men had reconsidered and had decided to stand out until till the last. When working full time this region's daily output is about eighty cars. The Kennel coal mines at Woodland started in on Tuesday last to ship slack to Pittsburg. A delegation of miners left the high road on foot at 2 o'clock this morning to endeavor to persuade the men to stop work and succeeded to the effect that the men took the advice of the Philpsburg men and did not start to work this morning.

Caused by the Coal Strike.
PHILADELPHIA, May 16.—The strike of the soft coal mines is having a temporary disastrous effect on the coasting trade of Philadelphia, in which the coal shipments form a most important item. So great is the scarcity of bituminous coal that it has been necessary to send the Pennsylvania railroad to be exclusively devoted to this trade, have had to suspend operations entirely, while little coal there is in transit having been seized by the railroad company for use in its locomotives.

Coal From England.
NEW YORK, May 15.—There have been 30,000 tons of English and Nova Scotia coal sold to arrive in New York, a portion of which has already been shipped from Cardiff, Liverpool and Glasgow, and from Sidney, N. S. The cost is within 45c-50c per ton of the ordinary price of soft steam coal delivered along the New York line. The bulk of this has been taken by the companies supplying steamers to fill their contracts. There are negotiations on foot for the purchase of 100,000 tons more to be delivered here between June 1 and 10, by the same parties for the same purpose. From the fact that several of the coal companies intend fighting the strike to the finish, the present low rates of ocean freight make it possible to bring coal from England in unlimited quantities and at competing prices, even by steam, as very little freight is now coming in this way.

A Treasury Ex-Chief's Suicide.
WASHINGTON, May 13.—Benj. F. Worrell, formerly a chief of division in the office of register of the treasury, committed suicide here last night by shooting himself in the head. He was committed on the west steps of the treasury building in easy hearing of the White House. Half an hour before the deed was committed he was in company with friends apparently in good spirits. The loss of his place during the past winter is supposed to have preyed upon his mind and driven him to the deed.

A BUSINESS SUIDE.
AUGUSTINE, Fla., May 13.—An aged man, M. E. R. Creery, who has been in the city for some time, made a sudden and unexpected death by suicide. He was found lying on the ground in the street, and was taken to the hospital, where he died this morning. He was a native of Ireland, and was in the employ of the city of Jacksonville, Fla. He was a man of good character, and was well respected by his friends. He was married, and had a family. He was a member of the Methodist church, and was a devout worshiper. He was a man of great energy and industry, and had made a good thing of himself. He was a man of great courage and determination, and was a man of great honor and integrity.
