LAKE MICHIGAN'S WORST STORM WITHIN the memory of living men killed certainly 15 or 20, and probably 30 or 40, persons, who went down with wrecks off Chicago Friday. Thousands of persons along the beach saw them perish. Military and firemen were summoned as rescue brigades. THE farmers of Pennsylvania, says the Bradford Argus, must again prepare to enter into the camp ign for members of the state legislature, who will again renew the battle for equal taxation.

The farmers of this state have it in their power, if they will but unite for a common purpose, to elect a legislature that will pass an act based upon the principle that the dollar of the corporation, railroad, or mining company shall be taxed for township borough and county purposes, at the same rate as that of the farmer and business man. Let the farmers go into the battle with the principle of equal taxation embiazoned on their banners, and cause to be prepared a short and concise bill that shall set forth and require all corporations, companies, firms and individuals to pay upon the amount of their investments, for township, borough and state pur-

poses the same rate. If this course is pursued by the farmers they will have a great fight, but they will come out victorious. Discrimination in favor of railroad and mining companies and corporations canno stand before the arguments in equal taxation. The farmers have equity, justice and common sense on their side, and have the votes to elect men who will farmers have the power in their hands, manliness to exert it.

Will they do it?
