THE bill to increase the pensions of the survivors and widows of the Mexican wars from \$8 to \$12 a month has been agreed upon by the house committee on pensions. Commissioner Lochren estimates that the additional appropriation necessary to meet this increase will not exceed \$1,300,000 per annum.

There is a sugar planter in Louisiana who received this year under the Mc Kinley sugar bounty law \$376,000 bounty. Does that indicate that we had free sugar under the McKinley regime? This money goes to an individual. Under the Wilson bill the money will go to the government for the benefit of all.

With the long contention over the sort could help the country. The perbusiness boom, nor the "flush times" general stagnation of industries.

According to the best estimates obtainable, the coal operators of Pennsylvania alone have thus far lost one mil lion five hundred thousand dollars by the strike in the soft coal districts. The miners have lost half a million in wages and the railroads a million and a half in freights. In addition there is the loss to shippers, coal handlers and to general business which cannot now be estimated but which must be very large. The masses sympathize with the miners, but when a man is suffering himself he has little sympathy to waste on other unfortunates.

THE fourth draft of the pending tariff bill, which was laid before he senate for consideration the 2nd of last April, names the 30th day of June as the time when the law shall go into effect. That day ends the fiscal year, and throughout the prolonged debate, which has since occupied the senate, Mr. Jones and Mr. Harris have contended they would begin collecting duties under the new law with the beginning of the new year. The present condition of things hardly supports their belief. There are several very important schedules yet to be considered, to say nothing of matters that have been left open pending final action when the bill comes out of the committee stage and goes into the sen-

THE Philadelphia Times gives the following description of the way Judge Brubaker is running things in Lancaster county: Judge Brubaker continues to scale down the fees that in the past built up snug fortunes for the Lancaster county officials, and as he promised to do just that very thing during the noted triangular contest of a few years ago he is keeping his contract by deeds of performance, and giving the farmers who go to court no end of satisfaction. The district attorney appears to be catching it about three sizes ahead of the other office-holders. At first the township squire who sent up trivial causes and piled on the costs in the interest of the constable, found himself under the new rule with the costs to pay out of his own pocket. The reform made him careful, and the grand jury has less than half the bills that formerly came before it. The prothonotary and the recorder followed in the lopping-off process, and the district attorney, who has had some experience with Judge Brubaker's methods, now learns that sixteen indictments stitutional. #### Washington Letter.

Washington, D. C., June 8, 1894 .-President Cleveland told a Democratic member of the house who asked him the stalwart Republican journals of the his opinion of the senate amendments to the tariff bill that his opinion on the question of tariff reform should be well enough known without any additional expression at this time, and intimated affords another illustration of the case that he considered prompt action on the subject by both house and senate of far more importance to the country than the more details of this or that schedule in the till, provided, of course, than the bill as a whole is kept in line with Democratic promises of tariff reform. That strikes me as the proper position for every patriotic Democrat to take at this

The Republican senators are acting on the old legal maxim-" when you have no case abuse the opposition." Finding that they were defeated on the sugar schedule of the tariff bill, which they had been for weeks claiming to be confident of defeating with the aid of Democratic votes, they have resorted to the cry of "sugar trust," thinking to blind the country to the fact that the sugar schedule this week adopted by the overwhelming approval of our fellow gar refiners about halt of what they are getting under the McKinley law, Senator Jones is confident that all of the amendments will be adopted and the tional being can imagine a policy of this admit as much

#### The Strike Over.

The miners stated that there was some opposition to the scale, and it would take a week to induce the men to accept it. At 8 o'clock a joint conference was

held and the scale agreement ratified.

A. A. Adams, president of the Ohio miners, was a member of the scale comtariff bill passed by the close of next mittee, refused to sign the agreement week, and Republican senators privately ; The settlement, however, is final. The scale agreed upon is as follows: Pittsburg, thin vein, 69 cents. thick vein, 56 cents; Hocking Valley, 60 cents; Indiof the bill for the repeal of the tax on ana, bituminous, 60 cents; Indiana, block, 70 cents: Streator, Ill., 621 cents dently expected 140 votes in favor of the for summer, and 70 cents for winter; bill, but it only received 102, while the Bloomington, Ill , 771 for summer, and 85 forwinter; La Salle and Spring Valthat men who had allowed themselves to ley, Ill., 721 for summer, and 80 for winter; other sections in northern Illinois fields at prices in proportion to Secretary Carlisle waited until the fake the above. The scale of prices will be in effect, and bind both parties thereto, begin ning June 18, 1894, and continuing unnamed scale of prices for the Pittsburg district shall be generally recognized and observed. The operators and miners will co-operate in their efforts to secure a general observance of said prices, and if during the period covered by this agreement, a general recognition of the prices herein named cannot be secured, either party to this agreement may call a meeting of the joint board of arbitration and determine whether the agree ment has been sufficiently complied with to warrant its continuance.

#### A Big Fire in Panama.

PANAMA, June 13 .- A. fire which broke out this afternoon has already destroyed one hundred houses and is enbuildings in the city.

More than a hundred houses were destroyed in the early evening. At 7 o'clock it was reported at the police station that about two hundred and twenty-five buildings were in ruins and the public market was threatened. Thick showers of sparks and brands fell throughout the district where the fire started, and thousands of persons were at work on roofs clearing off combustible materials and pouring water down the heated walls. The wind blows a gale. The streets leading from the burning district are choked with crowds of workers and spectators and with families trying to drag their household goods to places of safety.

No full estimate of the loss is possible A vast quantity of merchandise in shops and in storage has been burned. The Elias Kinclsinger was stabbed three times great. Not less than a million dollars' worth of property has been totally ruined and much more has been badly dama- trouble with him. Wise has been arrested ged. The present estimates of the loss and a warrant has been issued for Irwin. vary between \$1,250,000 and \$1,500,000.

### Still Unsettled.

PITTSBURG, June 12.—The scale agreement at Columbus has only shifted the ground of the coal miners' strike, instead of settling it. The miners assert that they will not accept the terms They agreed to let him go on a promise to agreed upon and are in revolt against their officers. The latter say that they did what was the only thing to be done under the circumstances and threaten to resign if the miners refuse to go to work, or question their integrity in the premises. From the outlook to-night, the miners will not go to work Monday. In case they do not the officers of the United Mine Workers say they will resign and the officers of the Pittsburg district will follow their action. In the Pittsburg district there is nothing but condemnation for the leaders and the more outspoken of the dissenters say that the miners have been betrayed by their officers. The eight thousand miners of the Panhandle field are particularly bitter and to night held a mass meeting at Carnegie, at which a resolution was adopted refusing to endorse the Columbus conference. Mass meetings have been called for many places to morrow windows. When the train started again to take action on the wage scale.
