-The supreme court in session at Phila telphia last week handed down a decision in the case of Christy et al. vs. Christy, from the Common Pleas of Blair county. As the case has been in litigation for several years and several Cambria county people interested in it, the opininion of the court will be of interest. The decree of the court below is reversed and the record remitted that an account may be taken as prayed for, and stated on the basis indicated in this opinion. So much of the fund as arises from the lease or sale of the surface is to be divided into six equal parts, from which Agnes and Gallitzin are excluded. So much of it as arises from roy alty upon or purchase money of coal is to be divided into eight equal parts, one of which is to be awarded to each of the testator's children or the legal representatives of such child or children as may now be deceased.

How Postage Stamps are Made Every part of postage stamp making is done by hand. The designs are engraved on steel-200 stamps on a single plate. These plates are inked by two men, and then are printed by a girl and a man on a paste made of potatoes. This paste is dried by placing the sheet in a steam fanning machine, and then the stamps are subjected to a pressure of 2,000 tons in a hydraulic press. Next the sheets are cut so that each one contains 100 stamps, after which the paper between the stamps is perforated, and after being pressed, the sheets are taken away. If a single stamp

Business is looking up on the Pennsylvania railroad in this vicinity and employes are making better time. From an official source it was learned to-day that freight traffic has about resumed its normal condition, comparing favorably with the business done at this time last year. Brakemen are doing better than they have done for some time, about all of them working as steadily as ordinarily. Shop hands will do much better this month than last. The immediate outlook for continued traffic improvement on the "Pennsy" is good, While the boom in traffic just now might be considered spasmodic, because of the recent troubles in the mining districe and at Chicago, there are those among the of-
