End of the Clearfield Strike.

Philipsburg, Pa., August 5.-At the convention of miners, held in this place yesterday, representing nearly all the mines in Pennsylvania which were idle on account of the strike, a motion was adopted by a narrow majority to return to work, provided all the former employes are reinstated, and that the minor concessions agreed to by the Beech Creek operators, in a conference with their miners Saturday morning, be agreed to by all operators in this section. Another session was held last night, at which a committee was appointed to wait on the operators. The opposition to calling off the strike was largely in the mining regions in which the miners had received the compromise price. these miners realizing that a surrender in Clearfield county was almost certain to bring about a reduction in other regions where an advance had been granted.

becision Under the Sheep Law.

Miles Queery, of Cass township, this ounty, notified the township justice in April of the present year that he had some sheep killed by dogs in June 1893. The auditors assessed the damages at \$21 which the county commissioners refused to pay, alleging that Mr. Queery, should have promptly notified the justice of his loss, instead of waiting ten months.

The court was then asked for a mandamus to compel payment of the damages but Judge Bell, of Blair county, before whom the case was tried, refused the mandamus on the ground that where a statute does not limit the time for a thing to be done it must be done within a reasonable time, and that the spirit of the sheep law of 1893 required prompt notice of injury to sheep by dogs to enable the owner to recover damages.-Huntingdon Local News.

A Distinguished Party.

On Friday afternoon a special train in charge of Conductor James Snyder, formerly conductor on the branch, pulled up to the station and after a short stop went on down the Blacklick. The party on board consisted of Henry D. Welsh, president of the Ebensburg and Biacklick Railsuperintendent of the Pennsylvania Railcoad Company; D. H. Loyell, general superintendent of the Cambria and Clearfield railroad; Judge Dean, Judge Arnold and a number of others.

After taking a look at the Blacklick country, the party returned to Ebensburg and spent a short time in a drive about the town, and then took their departure, all expressing themselves as surpirsed at the vastness of the mineral wealth that is being developed by the new railroad.

Hugh Bugan Killed. On Friday afternoon last about two

o'clock a distressing accident occurred at the farm of Mr. Hugh Dogan, of Portage township, this county, by which that gentleman lost his life. It appears teat Mr. Sylvester Crum, of the same township, and Mr. Wiblam Coy Coal & Coke Company, Gallitzin,

Sparks, of Portage, had finished threshing \$54,000. wheat in the barn of Mr. Dugan, with their steam threshing machine, and were n the act of moving the machine to Mr. Crum's farm nearby. Mr. Dugan had hitched his team to the engine which weighs about two tons, and was hauling it up a grade in his lane on one side of which is an Osage orange hedge fence and on the other a barb-wire fence. The horses had balked and Mr. Dugan, who was driving on the left side of the team, told his son, Charley, to go around and switch up the in question? And are not discussions good road Company; F. L. Mr. Dugan, who was in feeble health, !osing control of the lines. was thrown under the hind-wheel of the engine which passed over his lower jaw and the base of the skull, crushing the bones to splinters, so that his brains oozed from the ghastly wound and the blood gushed in a torrent from his mouth, and in a few minutes all signs of life fled. His family, all of which happened to be present, with the assistance of several neighbors who were witnesses of the accident,

> carried him to his house where his remains were prepared for burial. The funeral which was well attended took place at Wilmore on Sunday, interment being made in the Catholic cemetery

in that place after mass and an eloquent funeral oration by Rev. Father McHugh. The deceased who was a native of Ireand and aged about 60 years, removed to Portage township from Pittsburg about twelve years ago. His wife, four sons and two daughters survive him, one son. Edward, having met death while employed as a brakeman on the Pennsylvania rail-

road several years ago. Mr. Dugan was highly respected in the community in which he lived and the sad manner of his death has touched the hearts of the people who heartily sympathize with the afflicted family.

A Most Attractive Summer Outing by the Pennsylvania Rattroad - A Tour Among the Lakes and Islands of the North.

The party composing the Pennsylvania railroad's first cour to the North has just returned home, delighted not only with the general attractiveness of the trip, but the admirable manner in which it was conducted. The second party is now forming, and will go out under like conditions on August 21st, reaching home on return trip September 3d. The party will leave Philadelphia in special Pullman parlor cars over the picturesque route of the Pennsylvania to Watkins Glen, thence to Niagara Falls, the Thousand Islands, the Rapids of the St. Lawrence, Motreal, Au Sable Chasm, Lakes Champlain and George, and, lastly a delightful trip down

the romantic Hudson. Ample time is allowed at each point for ight-seeing, and all the traveling is done by daylight. It would be a difficult matter to plan a trip of greater diversity of interest and attraction, and for those whose summer vacation is limited there is no outing comparable to it. The round-trip rate, including all necessary expenses, from New York, Philadelphia, Newark, Trenton, Baltimore and Washington, is \$50,00. Tickets will also be sold from other stations at proportionate rates Tourist agent and chaperon will conduct

How to fiet Rid of Pests. Professor Riley, in a lecture before the Lowell institute, discusses most practical ly the subject of how to get rid of household pests. For certain of the commoner pests, such as bedbugs, carpet beetles and clothes moths, benzine applied in a fine spray by means of an atomizer was said to be the best remedy as it destroys the insect

in all stages, including the egg. In the

use of benzine great care should be exer-

cised that no fire or artificial lights is in

the room at the same time, as the vapor of benzine is highly explosive. For cockroaches, bristle-bugs, fishmoths and fleas, pyrethrums powders are recommended. For the destruction of the mosquito, the professor recommended pyrethrum powder moistened, made into little cones, then allowed to burn in a closed room. The effect is to stupify or kill the mosquito. It was a mistaken idea that the mosquito bites inoculated the body with malarial poison. The idea came from the fact that mosquitoes and malaria flourished usually under the same

Communication.

Carrolltown, Pa., Aug. 7th, 1894. EDITOR FREEMAN:-1 notice by Luke Behe's communication in your last issue that he seems very much worked up over my humble explanation of the single tax principle referred to by him in a doubting way in your previous issue.

Is it not a man's right to defend or explain a principle when it is publicly called best for the country? But is any good | F. and to be attained by such ridiculously contemptible statements as appear in his letter concerning. Henry George and the single tax?

I think not. For if the single tax is a bad thing it can surely be shown up without misrepresentation, but if it is a good thing why should the friends of justice an-If Mr. Behe had taken the trouble to inform himself of what Henry George

teaches he would have known that he

does not and never did advocate that the land should be be divided up, nor that property should be destroyed in order to bring capital to terms' Mr. Behe has probably read or heard the falsified reports from the enemies of Mr. George and his theory, those enemies are

the friends of the very monopolies which Mr. Behe condemns. He says "strikes are aimed at oppression caused by centralized capital. If this is true then it follows that the single tax would not be a remedy.

But strikes are not aimed at centralized capital. They are simply a resistance against the "iron law of wages" inherent in our system of land tenure and taxation. that wages always tend to the minimum of a bare living.

This the single tax would remedy because it would give labor access to the natural resources and leave the producer in the ful! possession of his product, instead of as now encouraging capital in the monopolization of natural opportunities while taxation taking from labor a large share of its wages.
