gress adjourns. The sugar trust should pay for his outing.

EVERY Democratic voter in the county should go to the polls on Saturday and see that each district is represented at the convention on Monday by the best men in the county. Send men of good judgment-men who will do their work for the party's good, and not for some selfish purpose.

Ox Monday next the Democratic county convention will nominate one person for office of sheriff, two members of the assembly, poor house director. and jury commissioner. Let only men of character and ability be selected for the several places, and then let every Democrat go to work for the ticket. Such a course would soon force the g. o.

A Shohola (Pa.) letter in the New York Sun runs: William Hammond, of Eldred, Sullivan county, across the Delaware from here, keeps 400 dogs. To properly support this great canine army he has a bakery and a meat-chop ping machine, which in combination use up ten barrels of flour and a half a ton of meat a week to make dog biscuits. These dogs do not all belong to Mr. Hammond. They are the property of sportsmen in New York, Brooklyn and Philadelphia. Hammond is a professional trainer of hunting dogs and he is handling and breaking these dogs in the woods and covers of Sullivan county for service in the field and chase. Twen ty hired men who know something about dogs themselves assist Hammond

There could be no forest fires without an accumulation of dead brush. The annual fall of leaves or dead twigs might have a yearly fire run through them, and the trees not suffer at all. Instead of employing hordes of "inspectors" at enormous salaries to dress up in uniform, to "arrest gunners or campers, who build fires or may accidentally start a blaze," the same number of "men," at half the wages, to go to work and burn dangerous material, would make forests absolutely safe.

THE Gosling this week proceeds to annihilate Editor Kaylor of the Hastings Tribune with this interrogatory: "Well. wasn't it the McKinley bill that created this fullness of the treasury during Cleveland's first term and was there anything wrong in the administration of Mr. Harrison reducing this enormous capital to \$106,000,000 by spending it on the navy and other government improvements And again:

"The McKinley law which placed so much money in the till during Cleveland's first term."

THE ad valorem tax on raw and refined sugar, says the Philadelphia Record, will be collected at the custom houses, and go into the treasury.

The differential tax of one eight of a ent a pound on refined sugar will prevent the importation of refined susu. It will be added to the price charged for refined sugar by the sugar trust, and go in o as poskets.

Nobody objects to paying the ad valorem tax on imported sugar. It is negovernment, to pay salaries, pensions, army and navy bills, interest on the publie debt, and other legitimate expendi-

Paving the sugar tax collected at the custom houses is like paying for one's tariff bills. dinner. The money goes for necessary

Paving a tax to the sugar trust is like. after the dinner is over, paying a compulsory tip to a waiter who has rendered no service. It is a mere imposition.

Now the difference between the Dems ocrats and the Republicans, and between a tariff for revenue and a tariff for protection, is clearly illustrated in the compound sugar tax. The 40 per cent. ad valorem is for the treasury; the eighth of a cent specific on refined sugar is for the trust. One tax is legitimate and fair; the other is a patent and intended fraud. One party insists on taxation other party would tax sugar only for the benefit of the trust. The tax for the use of the trust was forced into the Gorman bill by the aid of three or four recreant senators, who carried their point by a threat to defeat all legislation unless the render on the part of the house, is besugar schedule should be arranged to suit them. The greater tax for the use of the trust in the McKinley act was put there by the common consent of Republican representatives. It is the thing they call protection.

That the Augean stables of McKinleyism were emptied and cleansed in a single year by the party elected for this very and sole purpose, says the New York Herald, cannot be a matter of just comdisposed to sweep out of power the party which has proved impotent to fulfill its pledge of "a tariff for revenue only." But on sober second thought the people tuted. will see that if the dominant party has failed thus far to accomplish its hercule SENATOR GORMAN proposes to go to an task there is no hope of relief from knew it." And hence the storm of popular wrath will be concentrated not upon the party, but upon the individual Democrats who have proven themselves false to the flag under which

they professed to fight. Meantime the friends of tariff reform have cause for good cheer. McKinley ism at least is dead and its vile offspring is already doomed. Only let the people. whose cause has been so ably and nobly led by the men who stood true to the Wilson bill, now take up the battle, and "protectionism" will meet its Gettysburg in November.

This Congress, notwithstanding all impressions to the contrary, has really disposed of the tariff more quickly than any previous congress that had the same task to perform

The Morrill tariff was reported to the house March 12, 1860, and passed that body in the following May, but did not pass the senate until February 20, 1861, and was finally approved March 2, 1861, just before the expiration of the congress that enacted it.

The tariff of 1883 was reported in the house in March, 1882, and passed in June, but remained in the senate till February 20, 1883, and was approved March 3, the day before the expiration

The McKinley tariff was not so long | port. before congress, but it was longer before the committee of ways and means, not being reported in the house till April 10 1890. It passed the senate in September and was approved October 1, 1890, a month before the election of a new con-

### Washington Letter.

Washington, D. C. August 17, 1894 .-President Cleveland does not like the senate tariff bill any better than he did when he wrote that letter to Chairman Wilson -few good Democrats do-but, like the sensible man that he is, he prefers it to the McKinley law, and has, according to the best obtainable information, made up his mind that it shall become a law, but has not yet fully decided whether he will sign it or allow it to become a law without his signature; nor whether he will send another special cessary to raise money to support the message to congress on the subject, urging the passage at this session of the separate nouse bills providing for free senators have gone away from Washing-

The wisdom of the house in accept ing the senate amendments to the tariff bill, although it involved a seeming surcoming more apparent every day. It is now clear as day that only the prompt action of the house Democratic caucus prevented its being carried out. Had Senator Hill's resolution directing the senate conferees to report a disagreethe house acted, it would have been followed by a motion to pospone the whole matter until next December, and the notion would have been carried. Senaor Vest, in a speech defending the senate from the numerous charges made against it in connection with tariff leg islation, said: "Men said the question plaint. That is the proper way to look at it. The senate bill is a great improvement on the McKinley

## A Maniac With a Knife.

Newark, N. J., August 19.—Thomas Hewitt, who lives in Kearney a suburb of this city, has been ill for several weeks with typhoid fever. Last night he became irrational, and at 2 o'clock this morning he plunged a knife into his wife's shoulder. As he did so he told her that his hour had come and asked her to pray for him. Then he cut Frederick Purcell, his wife's brother, and attempted to murder his four children. He cut one little girl severely and killed himself by jumping from the window. Mrs. Hewitt and Purcell are very likely to die from their injuries.
