VICE PRESIDENT STEVENSON is delivering from two to six speeches a day in the Illinois campaign.

EVERY voter in Cambria county who wishes to be represented in the next legislature by men free from the influences of corporations and monopolies should vote for Denny and Ricketts.

EVERY farmer and laboring man in the county who wishes to put a check on corporation legislation at Harrisburg has but one way of contributing to the carrying out of his sentiments and that is by voting for Denny and Ricketts.

How will the Republican legislative candidates, if elected, vote on tax equalization? The best answer is found in Mr. Stinemans' vote against the Niles revenue bill. Denny and Ricketts are not in the clutches of corporations, and are pledged to vote in the people's interests.

THESE are tough times for the calamity howler. He was dead certain before the passage of the Wilson bill not only that free wool would knock the bottom out of prices and ruin the wool and sheep industries, but that the reduction of the duties on woollens would close up all of our woolen mills. His position is now most pitiable. Facts refuse to submit to his pessimistic theories; moreover they stand out so plainly that he cannot possibly deceive the voters until November. While prices of foreign woollens have fallen about 40 per cent.,—just as the Democrats promised,—prices of domestic woollens have advanced fully 10 per cent. over McKinley prices of three months ago.

The chairman of the state committee of the A. P. A. in New York announces, says the Pittsburg Post, that the organization will oppose the election of Mr. Hill and support Mr. Morton. It is stated the members will do this because Mr. Hill has denounced the A. P. A. idea of a religious qualification for office, and a religious test in the matter of working for one's bread and butter. Being a Democrat, Mr. Hill could do nothing else than denounce political and labor proscription on account of religious belief. Mr. Morton is supported by the A. P. A. because he does not denounce such proscription, and dodges the issue, like Mr. Hastings in Pennsylvania. The Democrats can meet defeat in both states, should it come to them, standing up for the bed rock principles of the federal and state constitutions, which forbid any religious test as a qualification for office. As to the bread and butter disqualification, that no Catholic must be given work, it is in contempt of the common principles of christianity the world over, as well as the sermon on the Mount and the Golden Rule. And yet general Hastings allowed his lips to be padlocked in an effort to humbug either the opponents of religious proscription or the A. P. A., who advocate it. Come out in the open, general.

In the course of his address at the general assembly of the Democratic societies of Pennsylvania, at Altoona, last week, Hon. Chauncey F. Black, said: "There are many questions upon which the good people of Pennsylvania would like to hear their candidates for state offices—questions which vitally concern us at home. Here are a few of them: Will General Hastings, if elected, be himself in office, or will he take the orders of the rings and bosses, who have controlled all his recent Republican predecessors? If he is not to be the representative of these men, why does he not repudiate them upon the stump? If Hastings and a Republican legislature shall be elected, are we to be plunged back into the moral degradation of the Riot bill period? Are we to have a Kemble pardon board? Will General Hastings recommend the equalization of taxes? Will he recommend a reform in the method of keeping the public moneys, so that they may no longer be used for private and public corporations? Will he look to the enforcement of the unenforced articles of the constitution? Will he recommend to the legislature and advance by his uncommenced eloquence of voice and pen the redemption of the Republican pledges solemnly made in their platform and by their newspapers and speakers to amend the constitution, so that we may have a secret and honest ballot in this state, and so that the laboring man may cast his vote according to his own conscience without fear? These are subjects which he might better discuss, as they fall within the scope of the great office for which he stands, instead of the tariff, with which he cannot possibly have anything whatever to do."

The annual meeting of the county commissioners of Pennsylvania recently held at Pottsville, adopted among others of lesser consequence, the following resolutions and recommendations:

Urging an act legalizing the addition of 25 per cent. to all taxes upon seated lands that are returned to county commissioners for non payment of taxes, the taxes to be a first lien upon the property.

Urging an act requiring constables to make returns to court only when they have violations of the law to report.

Recommending an amendment to section 23 of the ballot law, Pennsylvania laws of 1893, page 430, making it the duty of county commissioners to furnish one "watchers' certificate" to each political party, or group of citizens filing nomination papers, for each election precinct, and "watchers' certificate" to be made to some person named by the political party or group of citizens or bearer.

Recommending an amendment to sections 7 and 8, Pennsylvania laws 1889, pages 423 and 424, that the Recorder of deeds and the prothonotary or clerks of the common pleas court shall hereafter not certify any mortgages, judgments, etc., to the county commissioners of those owned or held by any corporation which pays a direct tax to the state, or any corporation or person who is not a resident of this commonwealth; also, the repeal of the act of May 23, 1893, regulating the fees charged by justices, clerks, magistrates and constables.

Urging the repeal of the enrollment act.

Recommending an amendment to the registration law of 1891, that that portion requiring the December registry be repealed, and that county commissioners shall furnish the voting and ballot lists for the February elections copied from the preceding May registry.

Recommending that insolvent prisoners be not entitled to the benefit of the insolvent law until they have served thirty days, at the discretion of the commissioners.

That in all criminal charges not tried before the Oyer and Terminer, the jury shall have disposal of the costs.

That in all cases in which prosecutors of criminal cases fail to make out a case, the justice shall have jurisdiction over the disposal of costs.

Recommending an act providing for the establishment of work houses in counties, and to have separate apartments so that tramps or vagrants shall not be allowed together unless while at labor; such prisoners to be employed by any labor the commissioners may direct whether remunerative or not.

Recommending that the Secretary of the Interior be authorized to purchase land for the purpose of establishing a national park in the Allegheny mountains, and that the land so purchased be held in trust for the benefit of the people of this state.

Washington Letter.

Washington, D. C., Oct. 20, 1894.—There is a perceptible decrease in the bustle at the headquarters of the Democratic congressional campaign committee. The campaign has passed the quarter post, and it is now the home stretch. The work of the committee reached high water mark about two weeks ago, and for a time more than a million documents a day were handled. Since then the work has been gradually decreasing, all the documents desired having been sent out, except in near-by districts, where documents continue to be sent in small quantities. On the whole members of the committee are fairly well satisfied with the work of the campaign, although the lack of money prevented their carrying out the entire programme as it was originally arranged. Chairman Faulkner has just completed a revised estimate, based upon the latest information from the congressional districts. He doesn't care to make this estimate public, further than to say that it gives the Democrats the majority. Although he takes pleasure in showing it to Democrats who call on him and explain to them the foundation for each estimate. To make it public might result in the loss of several districts by putting over confident opponents on their guard.

A little paragraph in the book of appropriations made by the congressional party. It is that which shows that the Democratic congress abolished 923 offices, the annual cost of which had been \$1,255,000. That is a bit of practical economy that every voter ought to be able to appreciate.

Whatever else may be said for or against Senator Gorman, no aspersion can with truth be cast upon his loyalty to the Democratic party, or his conduct under all circumstances. Therefore no surprise was felt in Washington when the announcement was made that Senator Gorman would go to New York to help elect a Democratic candidate in that State. It is not surprising that he has been so successful in his personal feeling against the head of the ticket in New York, and in his working for the success of the party in that State. Highest of all in Leavening Power.—Latest U. S. Gov't Report

Yeast Baking Powder
ABSOLUTELY PURE

Platform.
1. The Democratic party of Cambria county, by its representatives in convention assembled, reaffirms its adherence to the principles announced in the Democratic national platform of 1892, and the platform of the Pennsylvania Democracy adopted at Harrisburg, June 27, 1894. We heartily approve the honest and wise administration of Grover Cleveland, and the course of the true Democrats in congress. The close of the Democratic administration in 1889, leaving \$100,000,000 of surplus in the national treasury with the income exceeding the expenditures; Four years of Republicanism converted this into a deficit of \$30,000,000, with the expenditures exceeding the income by \$20,000,000. Financial disaster inevitably followed, the tide of which a Democratic President and a Democratic congress were able only partly to stem by the repeal of the obnoxious compulsory silver purchase law.

2. We believe in the fundamental principles of "equal rights to all, and exclusive privileges to none," and consequently we are opposed to all forms of special privilege, by using national or state legislation for the purpose of promoting the interest of any class or classes of people. Every advantage given by government to any one class is purchased at the expense of the other people of the country or state. Thus are monopolies created, some branches of business over stimulated, others crippled, and labor and capital paid against each other, to the loss of both, when in a natural state of things they would find that whatever is of advantage to one would inure to the good of the others. In this struggle between the monopolists and the people, the monopolists are the victors, and the people are the losers. The policy of the Republican party for the past generation has been one of continued interference with business, and the result has been the creation of monopolies on the one side and of tramps and dependents on the other. Strikes, lockouts, riots and panics are the natural outcome of their vicious and unnatural policy of legislation.

3. We believe in honest money, each dollar of which is equal to any other in any and every part of the country. The use of both gold and silver is approved and insisted upon in the largest quantities consistent with keeping them at a parity of value in their use as currency.

4. We cordially commend the faithful and efficient administration of Governor Pattison, which has enforced the laws of the State, and upheld the rights of all the people.

5. We denounce the dereliction of the Republican majority in our state legislature, which has refused to pass the legislation necessary to protect the public from unjust discrimination by railroad companies and other corporations. By such means the smaller capitalists in sympathy with labor, are subjected to the oppression of monopolies, and in consequence labor suffers. We pledge the legislative candidates nominated this day to support all approved measures looking to the removal of this evil, and also to the support of all other measures looking to the protection of the public from unjust discrimination by railroad companies and other corporations.
