FRIDAY, - - NOVEMBER 2, 1894. DEMOCRATIC STATE TICKET. For Governor, WILLIAM M. SINGERLY,

For Lieutenant Governor, JOHN S. RILLING. For Auditor General DAVID F. MAGEE.

For Secretary of Internal Affairs, WALTER W. GREENLAND, For Congress at Large, THOMAS COLLINS, of Centre, HENRY S. MYERS, of Allegheny.

DI MOCRATIC COUNTY TICKET.

THOMAS J. BURKE, of Altoona. For Sheriff, ROBERT H. NIXON,

For Assembly J. B. DENNY. JOHN RICKETTS. For Poor Director, JAMES FLINN,

For Jury Commissioner, ANSELM WEAKLAND,

Two months have elapsed since the Wilson bill passed and times have already began improving.

THE workingman who votes the Republican ticket votes that he may be taxed for the benefit of others.

Vote early on Tuesday and after voting don't rest until every Democratic vote in the district is polled. A return of prosperity is bringing confidence to the people and Democrats should stand by their guns.

GENERAL HASTINGS in his tour through the state is wrestling with the tariff, a question with which he as governor will have nothing to do. On the question of the equalization of taxes in this state he is as dumb as an oyster.

THE Protectionists who are so confident of sweeping the country three days hence were equally confident of a big sweep on the eve of the great snow storm of two years ago. It is an old confidence game; and very often it fails to work.

Hon. David Wills, Republican candidate for President Judge of the Adams-Fulton Judicial district died suddenly at his residence in Gettysburg on Saturday afternoon. The Republican con ferees of the two counties have been summoned to fill the vacancy.

Sherman, Reed and Depew have abandoned high protection and McKinley alone, among Republican leaders sounds the praises of the McKinley bill. A few little fellows through the country are still followers of McKinley but they are fast getting in out of the rain.

THE earthquake which was felt throughout the Argentine Republic, Sat urday, was most severe in the provinces of San Juan de la Frontera and Rioja. Many churches, theatres and private houses were destroyed. Twenty persons are known to have perished. The inhabitants are in a state of panic, fearing a repetition of the shock.

SINGERLY and Hastings have signed articles for a joint debate at Norristown on Saturday evening. Two meetings are to be held, one at the opera house, under the auspices of the Republicans, and the Democratic gathering is to be held in the court house. Each speaker will be allowed thirty minutes at each meeting. Both candidates are guaranteed fair treatment.

A DISPATCH to the London Pall Mali Gazette on Wednesday afternoon from Livadia says that the the Czar of Russia, is dying. The dispatch adds that his left lung is so seriously inflamed that all hope has been abandoned and that the news of his death may be expected at any moment. The officials of the Russian Embassy received a telegraphic message Wednesday saying that the end of the Czar's life may be expected at any

THE farmers are great beneficiaries of the new tariff, for nearly every article they buy, such as cotton bagging, cotton ties, calico, plows, trace chains, barbed wire, nails, axes, hoes, etc., have been cheapened under the new law. It will be strange indeed if the farmers desert the Democratic party, which has removed so many burdens from their backs, and affiliate with the Republican party, which still declares its purpose to again oppress them if it regains power.

It is stated at the postoffice department that the abuses of the Congressional franking privileges have been reported by the agents of the department in the case of three Repulican representativas in congress who have permitted Republican campaign literature to be sent out with their signitures franked on the document. It is said by postoffices department officials that it is almost impossible to detect infractions of the law in this respect, as there is no authority to open mail, and it is only when the wrappers on matter burst that the fact becomes known.

A FACT that no amount of calamity creased in no instance.

GOVERNOR BOIES of Iowa says since the Republican party was organized the country has passed through three finanevery one of them can be traced to some one of them to any act of the Democrat-

issue that involved the country in our prospects. Even in New York city.

The first, in 1857, was the result of

the national government, silver was demonetized and the panic of that period followed. In 1893 a looted treasury, turned ov

er to the Republicans four years before overflowed with gold, together with vicious legislation, for which that party and none other was responsible, brought on our present panic.

It is enough to make decent men of all parties blush with shame to see men who ought to be above the ways of the ward politician strive to fasten the responsibility for this panie on a party that has not enacted a law in thirty years; that has been absolutely powerless to establish a policy of any kind or ousiness policy of this great nation.

The flimsy and frivolous pretext upon which this claim is based is a want of confidence by the people of the United states in a party upon which they themselves conferred the only power it can possibly exercise, and this, too, before a single act of that party legislative, political or otherwise, has been accom-

The charge is an insult to the intelligence of every American citizen and so flagrantly false that none but the most ignorant could accept it as true. And yet it is with this charge that Republican politicians the country over are striving to whip back into the Republican party the workingmen of this nation that they may thereby again gain control of the government, the affairs of which for more than a quarter of a terests of the rich at the expense of the gressional committee regard the predic

"Another charge against me is that I am opposed to secret societies. I am opposed to nothing that has for its ob. and brotherhoods that mean a common fellowship and equal rights to all; but, the dark strikes at a man for his principles or his religion, and when that society pretends to claim a reverence for the American flag, and tries to drag that emblem of liberty down into the dirt and dust and stops a man for his religion or belief, I am opposed to it, and thank God for it. I permit no society no set of men, to tell me how my children shall be taught their prayers. At their mother's knee they shall worship God according to their consciences, and according to their hearts; and by the grace of God, and while I live, so help me God, I will evermore venerate that God for it."-From Candidate Singerly's speech at Ashland.

THE new treatment by inoculation for diphtheria and croup as practiced in France is the subject of a special report to the department of state by United States Consul C. W. Chancelor at Havre. He says that by this method of treatment only one out of four diphtheritic patients succumbs, whereas the figure is double for other methods of treatment heretofore employed. Consequently the Consul, who is a Baltimore physician of repute, says that it would seem very desirable that the anti-diphtheritic serum should be introduced and come into general use at the earliest period practicable in America, where many thousand children and numerous physicians, students and nurses die annually from diphtheria

TUESDAY next is election day and i behooves every Democrat in Cambria county to go to the polls and vote. Cambria is a close county politically but we have a majority if we get out our vote. After the election, if we should find some of our candidates defeated by a small margin it will be a source of regret to consider that there were a sufficient number of Democrats abstained from voting to have changed the result. We have a good ticket, all men worthy of the support of every Democrat and we owe it to our party, our candidates and ourselves to give them every Democratic vote. Go and vote and then see that your neighbor votes.

DESPITE the clerical error in the marriage license bill by which it is made to read as going into effect October 1, 1895. instead of October 1, 1893, couples intending to marry will have to procure a icense as heretofore. The mistake does not lessen the force of the original act of 1885, for the amendment of 1893 did not annul the act of 1895, it simply supplemented it. Attorney General of the license court at Philadelphia, telling him to advise all inquirers that it was still needful to procure a license in

Washington Letter.

Washington, D. C., Oct. 27, 1894 -President Cleveland is again at the White cial panics, including the present, and House. He is in robust health and, like all other Democrats, in splendid well known act of that party, and no spirits, on account of the clearing aspect of the Democratic skies. This has been a good week at the head quarters of the Democratic congressional campaign committee. From every direction comes the success of the party in most of the news of a decided improvement in bus-Northern states on a purely sectional iness and consequently in Democratic where it looked for a time as though five or six seats in the house were to | e In 1873 the Republican party being presented to the Republicans by running in undisputed control of every branch of | two Democratic candidates in each dis trict, the tangle is being straightened out. and Faulkner and the good advice of Democrats from all the city districts made certain. "If the election could be postponed thirty days." said a member of the congressional committee, "it would add at least thirty to the Demo

cratic majority in the next house. Pestmaster General Bissell has the right idea of the postal service. Speaking of an order sent out by him this week, calling the attention of postal employes to that portion of the civil service law which prohibits forced political contributions from federal employes, he said: 'The post office department is a business, not political institution. It has been my endeavor to conduct it on shape in the least degree the financial or the people the best possible mail damage. It is reported that in various facilities. We do not want the service

votes among business men. Chief Clerk Daniels, of the Interior de partment, who has just returned from North Carolina, is regarded as high au thority on the politics of that state, and his view of the situation there widely differs from that which populists and Republicans are giving out. He says: "The Republicans and populists have affected a fusion, so far as formality goes, but many in both parties repudi ate it. Together they have 12,000 more votes in the state than the Democrats. and the problem is to mass them. If it could succeed they would carry the state. but it is not universal. My own opin ion is that the Democrats will carry seven districts. The legislature, which will elect two U. S. Senators, will surely be Democratic on joint ballot. The Democrotic judicial ticket will, I think. be elected, although that isn't as certain as Democratic control of the legisla century they have managed in the in- | ture' Members of the Democratic con-

tions of Mr. Daniels as very conserva Mr. W. A. Croffut, a well-known journalist, who was lately dropped from the pay rolls of Undle Sam, has turned Democrat after losing his office, thus differing from those who have pretended ect our betterment. I am in favor of to turn Democratic to keep their offices all kinds of associations and societies | He is now on the stump in Chairman Wilson's district. His reasons for be coming a Democrat, as told by himself. are good ones. He says: "I went to when a society which in secrecy and in England. I found that in that country under free trade they had lower wages than here. I then thought the protectionist policy a good thing. I ther went to Germany, where they have our a high protective tariff, even between different divisions of the country, and there I found wages still lower than in Germany. I began to think then. saw that something was wrong. I found that it was in the protective system, and that is one of the many reasons why I have changed my views and am now a

Commissioner of pensions Lochren says of the bureau's letter to a postmas ter, which the Republicans have printed as a campaign document: In adjudica ting a pension case it always has been the practice of the bureau to call on postmasters in the locality where the affiant resides for information as to his credibility. Postmasters sometimes obect to giving this information, particularly when the information is derogatory to the character of the affiant, withou ome assurance that their communica tions will be held confidential. It was in answer to an inquiry from postmaster F. R. Sparling, at Granville, Ohio, as te whether such information would be held as confidential that the letter which being given publicity was written. No similar letter has been sent out unless in answer to a similar inquiry." No comment is needed.

Somebody seems to have mixed those babies up, in regard to the intentions of the administration in appointing Indian agents. Instead of supplanting the ar my officers now acting as Indian agents with civilians, as was published, it is in tended to supplant the civilian Indian agents with army officers as fast as vacancies occur. Quite a difference. M.

Played His Last Prank.

HARRISBURG, October 31.-John R Englebert, a civil engineer, was shot in mistake for a White Cap or a burglar by a boy whom he was trying to frighten at Rife, Dauphin county, last night. En glebert was home on a vacation from Tennessee, where he is general manager of a coal and iron company. He approached the house of Uriah Koppen heffer and asked to be allowed to enter No one was at home save Edward, Mr. Koppenheffer's son, and he told him he could not enter. Englebert insisted. and was told he would be shot if he attempted to get in.

During the controversy the door opened. Englebert wore a cap made of white handkerchief and rushed in head first, crying: "I am a White Cap!" Edward fired as he entered, the shot taking effect near the left shoulder, killing him instantly. Koppenheffer says he supposed Englebert to be a burglar.

Japan Considering Affairs. Washington, October 31 -- Late mail advices at the Japanese legation show that the Japanese are considering what terms they shall make with China after the fall of Pekin. It is suggested that the Japanese army occupy the captured Hensel, when questioned formally on districts; that the Chinese being the the subject last year, wrote to the clerk | worst governed people in the world, will be the easiest to bring under a foreign voke.
