The Next Congress Will Be Republican!

An Epidemic Among the Roosters and a Happy Time for Coons!

This is a bad year for Democrats the slump in the ranks of her voters being a general one throughout the country. We give below a number of dispatches which announces the result from different localities. It is useless at this time to attempt to account for the defeat or to suggest any cure for the future. It is but the swing of the political pendulem, away past its centre, and it will get back again by natural gravity.

COLUMBIA, S. C .- Half the vote of the state shows Evans, Alliance, and Pope, independent Democrat, running even for governor, out the back districts will give Evans from 5,000 to 10,000 majority. The legislature is overwhelmingly for Tillman and will elect him to the United States senate.

Indianapolis. Ind,—Returns received at Republican state committee headquarters indicate that the Republicans will capture all the thirteen congressional districts by clean majorities. Returns from the state show that Indiana has gone Republican by about 40,000, per haps 50,000, the legislature being surely Republican.

Boston, Mass., Governor Greenhalge is reelected by a majority of more The missing towns in 1893 gave Greenhalge, 471, plurality.

NEW HAVEN CONN.-Piggott, Dem. for congress in the Second is defeated beyond doubt. All towns show good Republican gains. Returns from thirty towns out of 168 show a Republican gain of 1,764 over the vote of 1692. Returns from seven towns out of forty-one in Second congressional district show a Republican gain of 757 over the vote for congressman in 1892.

TRENTON, N. J., Nov. 6 .- Allan L. Mc-Dermitt, chairman of the Democratic state committee, says that Stevens, that Estee, for governor, and nearly all Dem., will be elected to congress from the Republican candidates for state offi- viction on the charge of attempting to the seventh district, and that the Democrats will elect the 11 assemblymen from Hudson by about 2,000 plurality. having been pleasant throughout the He says the rest of the state will not be state. suring the election of both senators.

Wheeling, W. Va.—Fragmentary returns from the First, Second and Fourth West Virgina districts indicate that the Republicans have carried all three of them, and Wilson is probably beaten. but complete returns may be required to settle the result. Howard, Dem., is beaten by 800 in the First district. The probabilities are that West Virgina will be represented by a solid Republican delegation in the next house.

DES MOINES IOWA .- A small vote was polled in Iowa and enough returns are at hand to indicate the election of the entire Republican state ticket by 50,000, with the exception of Judge Granger and B. I. Sallinger for the supreme court, whose opponents were endorsed by the Populists. The Republicans elect ten congressmen and the result in the Second district is in doubt, with the chances in favor of the Democrats by a small pluralty.

RALEIGH, N. C .- Returns of the election come in slowly. It is now the bebe known until the official canvass toother districts to be doubtful.

Probably Father Bush.

The Diocesan Council of the Pittsburg Diocese held another conference yesterday afternoon with Rt. Rev. Richard Phelan to finally dispose of the positions of Vicar General and pastor of St. Peter's Pro Cathedral, Allegheny. The appointments were made. Although it s not known positively, it is believed that Rev. Father Bush, of Altoona, was elected Father Wall's successor. The Bishop and his advisers refuse to give out the information claiming that some of the appointments may not be satisfactory to the priests who were named. From this it can be interpreted that a general change will be made among the priests. It is probable that a Pittsburg priest will be assigned to Father Bush's parish in Altoona, and this would necessarily cause the change.

The Original Inventor.

"Fifty-three years ago I invented the winnowing mill now in common use," said Moses Gillman, of South Sangerville, Me., the other day. "If I had had it patented I might have realized a fortune from it, as all the machines that have been built since have been upon the same principle. Even the threshing machine separators, which have superceded the old-time flail, use the winnowing-mill substantially as I first made it for clearing the chaff from the grain. I have invented many other things that were valuable, but I never asked for a
