

ERENSBURG, CAMBRIA CO., PA.,

FRIDAY. - - NOVEMBER 23, 1894.

It took trade some little while to get on its feet, but now it is commencing more and more to employ its hands in getting along.

Ox Monday State Senator George Ross. (Dem), died at his home at Doylestown Pa., from Brights disease. He was one or the ablest members of that body.

SENATOR SHERMAN thinks for all that ness out of its depression, and the prothe country has had enough of a mo- gress made, if less than the sanguine exnepoly tariff. This is another dig at pected, is at least encouraging. McKinley, who is under the impression he had been entirely dug up.

MCNEARY, Tenn., a station on the Mobile and Ohio railroad, was completely wiped off the map by fire on Tuesday. The total loss is about \$75,000. The fire is thought to be the work of incendiaries.

As industrial plant at Baltimore has notified its employees of a ten percent increase on wages to take effect December 1. That is what the Wilson law i doing for workingmen. That is how i affects wages

bond subscriptions. There have already SUGAR has gone up an eighth of a cent been some withdrawals of gold from the a pound since the election. Does the treasury by redemption of notes to make sugar trust feel more secure in its posi payments for bonds, and goods rather than tion, and that the house bill, pending in the senate, cutting off its precious bit of protection, will fail of passage? shares of stock during the week.

OKLAHOMA, and more especially the Cherokee strip, has been visited by : flerce sand storm for a week, and the sand is blinding. The city authorities have ordered fires in the business seccommercial borrowing. tion to be extinguished. Part of the time one could not see fifty feet.

IF it had not been for Republican gerrymandering in Pennsylvania every congress district in the state might have been swept by the Republicans at the late election. In cooping too many Democrats into a few districts the Republican bosses overdid the matter, and suffer by their own cunning.

GOVERNOR FOWER has summoned John R. Fellows, district attorney of New York to show cause why he should not be removed from office. This action of the

A LITTLE more than thirty miles from the coast of Japan the Pacific ocean was found to be over 28,000 feet deep. of the orphans' court in the state. Some officers surveying for a telegraph cable had their wire break at this depth without reaching the bottom. This is said to be the deepest sounding ever state of facts calling for such an opinior made, and is so deep that the two highest mountains in Japan placed one over the auditor general. Headds, however the other in this abyss would leave the summit of the upper one, two-thirds of a mile below the surface of the water.

THE government November crop re port shows an improvement in the pros pects of the cotton crop, which is attributed to favorable October weather. The crop has been more rapidly harvested and marketed than in any former year. The report also shows that the corn yield averages about one and a half bushels per acre more than was indicated in Oc tober. The present estimated average is 19.7 bushels per acre throughout the country. But this is the lowest rate of yield since 1881. The apple crop at large is put down at 41.9 per cent. of an average product, while the yield of hay is 1.15 tons per acre, against 1.32 tons and operation. in 1893.

INDICATIONS multiply to show that the German government is pursuing a re pressive policy toward importatations from the United States that in the end may call for retaliation. The latest evidence is contained in a report to the state department from (United States Consul Roberston, at Hamburg. He

says that a movement is being set on foot by the imperial government looking to the complete exclusion of dried and evaporated apples from the United States, which are found to contain more than a specified amount of zinc, supposed to have been taken up from the zinc frames on which the fruit is dried. As a result the trade would severely suf

fer.

THE government of the United States says the Philadelphia Record, has too large a floating debt to do business with safely. It could manage to get along pretty smoothly as long as it had a large surplus of ready cash on hand with which to tide over such emergent occasions as occurred in 1873 and 1884 But there is danger in redundant revenue and large surpluses. They breed extravagance as surfeits breed indigestion. There would be no billion dollar not been an opportunity and an excitement in the condition of the federal treasury. The demand liabilities of the treasury are, therefore, not only a mis-

ed to give Auditor Gener Gregg an opinion as to whether or no there is any license law in force in Penn sylvania, in view of the question raised at Pittsburg recently that the act of 1893 on this subject repeals the marriage
