PHILADELPHIA, Nov. 21.—Arch-Conspirator H. H. Holmes, accompanied by Mrs. Pitzel and a pretty woman who calls herself Mrs. Holmes, have arrived in this city in the custody of Detective Crawford and Special Agent Perry, of the Fidelity Mutual Life association. Mrs. Pitzel's 16-year-old daughter, Meda, and her 1-year-old boy were also

with the party. Holmes sat beside the detective with handcuffs on and the train had scarcely emerged from the Boston depot before the prisoner tried to bribe his captor. He offered the detective \$100 is to that he could escape. He said he had frequently hypnotized persons, having acquired the art from a college professor in the west. He said he could get the money at once from his wife and Mrs. Pitzel. When he saw that his words had no effect Holmes entered into general conversation and told the story of his life.

He said he was raised in Burlington. Vt., and was so well educated in school there that at 15 he was a teacher. For some time afterwards he went to college there and later in Detroit. Here he formed the acquaintance of a medical student, who, he said, furnished the body in New York in the present case. He refused to divulge his name. During vacations they worked on farms to raise their college expenses, but one summer they found themselves without means and it was then that the medical man suggested the idea of getting a body and beating an insurance company. This was 12 years ago. The doctor got his life insured for \$12,500, they obtained a body in Chicago, took it east, arranged the details of identification and successfully got the money with which they continued their studies. He refused to name the company thus swindled.

They worked the scheme afterwards with success, Holmes continued, obtaining sums ranging from \$10,000 to \$20,-000. Once Holmes got his own life in-sured for \$20,000. He went to a hotel in Rhode Island. At that time he wore a beard. He secured a corpse in Chicago, cut off the head and took the body to a lonely spot not far from the hotel. Then he shaved off his beard, returned to the hotel, asked for Holmes, and engaged a room to wait for him. He had brought the head with him and burned it beyond recognition in the fireplace of the hotel. This scheme, however, fell through, the mother of his wife, when she discovered it, threatening to tell the police and Holmes fled to the west.

Resuming his story, Holmes said that while living in Chicago about 18 months ago, he fell in with a typewriter girl and furnished a house on the outskirts, where they lived together. A younger sister came to visit them, and the woman grew so jealous of her that in a quarrel one day she struck her over the head with a stool and killed her. To save the woman with whom he was living, Holmes said he put the body in a trunk, loaded it with stones, and sunk it in the lake. This girl had property in Texas and he and Pitzel took it off her hands and sent her abroad. It was worth, he said, \$40,000, and after getting it in their hands, they went through Texas, buying carloads of horses on notes on this property, but as they never had legal title to the property, the notes were worthless, and it is for this affair that they are wanted in Fort Worth. To save this property, Holmes said he and Pitzel formed the scheme of swindling the Fidelity company. He told the detective that for the crimes he had committed he deserves to be hanged a dozen times.

Holmes is not lacking for money. as he himself admitted that at the present time he is supporting nearly two dozen persons, including the girl murderess, her mother and an imbecile brother; two orphans in Chicago who live in one of his properties, three separate alleged wives, and their children and his own mother and father in Kankakee. He would not give the names of the women. He firmly maintained that Pitzel is alive in San Salvador and that he will hear from him through the personal column of a certain New York news-

A telegram has been received by President Fouse of the Fidelity company to the effect that Howe, the St. Louis lawyer, is en route to this city, with McDonald in the capacity of his "adviser." It has been decided to arrest a number of other persons whose names have not yet been given out.

Special Agent Perry still maintains that Pitzel has been murdered. When in the west he saw the parents of Mrs. Pitzel and they told him that their daughter had complained of the exorbitant fee charged by the St. Louis lawyer—\$2,500. In corroboration of his murder theory, Mr. Perry said that he had from Mrs. Pitzel an exact description of her husband, agreeing in every respect with that of the corpse found in the Callowhill street house. Mrs. Pit-zel, he continued, was perfectly innocent of any complicity in the whole affair. She had been forced, through ignorance and pressure of various kinds, to sign vertain papers, but she told Perry that she had had received only \$500 in cash She said Holmes had taken \$5,000 of the money and put it in a land speculation in Fort Worth in which tritzel was also interested. Holmes told Perry that this

In Texas, Perry said Holmes operated under the name of H. M. Pratt. He added that B. F. Perry, B. F. Pitzel and B. T. Lyman are one and the same man. Mr. Perry further said that Holmes is said to have one wife in New Hampshire, from whom he claims to have been divorced and by whom he has a child 15 years old; another in Illinois, whom Mr. Perry himself saw, and by whom there is a 6-year-old child, and the wife who is at present in this city. Mr. Perry intimated that he feared that Pitzel's children had also been mur-

SOVEREIGN IS RE-ELECTED. He and Bayes Secure Their Old Jobs at

the K. of L. Convention. NEW OBLEANS, Nov. 21.-Grand Master Sovereign has been re-elected without any opposition by the Knights of Labor general assembly. Messrs, Bishop Massachusetts and Merritt of Colorado were nominated for foreman, the place now held by Bishop, and the latter was elected.

Secretary-Treasurer Haves was reelected, although there was some opposition. The expenses of delegates to the convention, amounting to about \$2,500, were ordered paid. The present members of the executive board were placed before the meeting and were elected with but a few dis-

Marlborough, Mass., and James M. Washington, D. C., was chosen as the place for holding the next annual convention. The officers were then installed by Henry T. Allen of Michigan. The committee on distribution then submitted 49 documents touching on legislation

and recommended several amendments to the constitution, The election of officers had been slated for the end of the convention, but it was determined to hold the same immediately so as to preserve harmony, as it was supposed that the Powderly faction might develop a stronger following. There is plenty of work for the assembly and adjournment will probably not take place before the last of the week. Powderly and his delegation have left the city without springing their sensational charges and applying for writs of injunction against the officers of the general assembly.

Barcelona, Nov. 21.—Jose Salvadore Franch, probably the most desperate anarchist now living, the man who on Nov. 7, 1893, threw a dynamite bomb into the Liceo theater here, killing 20 people and wounding 50 others, was executed between 7:30 and 8 a. m. today. Franch spent the last 24 hours of his life in the prison chapel, which was heavily draped with black, and lighted yellow candles displayed on the altar produced

Franch refused to sign his death warrant, as the law requires, exclaiming: *Long live Anarchy. Upon entering the chapel, Franch refused to receive the priests, and to a Jesuit father who sought to administer religious consolation, the anarchist exclaimed fiercely: "Get out! I was only acting! Only pretending to be religious in order to live well and hoping to get a pardon. The crime I committed was an expiration due from the Bourgoisie." Franch's daughter is to be rebaptized

PHILADELPHIA, Nov. 21.—In consequence of a brutal beating received three weeks ago at the hands of J. W. Priestly, a well-known carpet manuturer in several of facturer, and a man named Michael Harkins, Gustav Goethert, a music of manufacturing for the domesteacher, and proprietor of a piano store | tic trade the finest brands of in this city, is lying at the point of death at his home, 1332 Girard avenue. Goethert had been employed by Priestly to teach the latter's 12-year-old daughter music. About the first of the present month, when the child had finished her lesson, Goethert complimented her upon her learning and printed a kiss on her cheek. The girl informed her parents and Priestly became angry and declared that the music teacher should be punished. On the evening of Nov. 19, Priestly is said to have gone to Goethert's store and after upbraiding him, beat him severely. Not satisfied with this rebuke, he is said to have returned again with Harkins and Goethert was again beaten. Priestly and Harkins have been ar rested and committed to prison to await the result of Goethert's injuries. To Settle a Bad Rule.

ERIE, Pa., Nov. 21.-John Bryson, until recently an inmate of the State Soldiers' and Sailors' home, located in this city, has brought suit against the commission governing the home which will result in a precedent and will probably settle the legality of a much complained of rule of the institution. Bryson's suit is for \$111, which the home authorities have retained from his pension money. By a rule of the institution, 50 per cent of all the pension money collected by inmates is appropriated by the home. In cases where the inmates have dependent relatives the money is forwarded to them, but where no relatives exists the home keeps the surplus. Bryson secured a judgment in an alderman's court, but the case has been appealed and will be carried to the supreme court.

A Mine Found on Fire. MAUCH CHUNK, Pa., Nov. 21,-No. 11 colliery, located between No. 10 and Coalport, on the Nesquehoning branch of the Central railroad, and owned and operated by the Lehigh Coal and Navigation company, has been found to be on fire. The discovery was made by a miner who went down in the shaft. He had great difficulty in getting back, and when taken out was pretty badly used up. There are 38 mules in the burning mine, but it is generally supposed that the animals can be saved by aking them through the manways. How the mine caught fire is a mystery. Some persons think it started at the lamphouse down the shaft. The mine is a valuable one and gave employment to between 300 and 400 men.
