The New Governor Reviews the Inaug urai Parade-Lieutenant Governor Lyon Is Also Inducted Into His New Office The Ceremonies Very Imposing.

HARRISBURG, Jan 16 - Daniel H. Hastings is now governor of the great state of Pennsylvania. The inaugural ceremonies were very imposing

'Lieutenant Governor Lyon was sworn into office on the floor of the senate clamber before Governor Hastings took the oath of office out on the portico. Before the oath was administered to Lieutenant Governor Lyon the retiring

heatenant governor, Hon. Louis A Watres, made a short address thanking the senate for its uniform kindness to him while he presided over its deliberations. Judge Simonton of the Dauphin county court then administered the eath to Lieutenant Governor Lyon The senate then retired to the portico of the capitol to attend the inauguration of Governor Hastings.

Governor Hastings and party were greeted with much enthusiasm when they took their places on the portico of the capitol. Governor Pattison stood by the side of his successor, flanked on the left by Chief Justice Sterrett. After a selection by the Third Brigade band, of Pottsville, Chief Clerk Smiley of the senate read the certificate of election. The oath of office was then administered to Governor Hastings by Chief Justice Sterrett, after which prayer was offered by Rev. W. H. Houck of Hazelton, for-merly pastor of the Methodist church at Bellefonte, of which the new executive is a member.

Governor Hastings then began the de livery of his inaugural address, which was listened to with much attention by the large assembly. Its delivery did not occupy more than 15 minutes, and at its close a salute was fired by Battery C and then the benediction was pronoun by Rev. Mr. Houck. This concluded the ceremonies and the governor and party took carriages and rode at the head o the procession to the reviewing stand. where they reviewed the parade.

The parade moved from Third and Market streets at the close of the ceremontes at the capitol. The clubs and organizations began assembling at 10 o'clock in the streets assigned for their respective formations. A warning gui was fired on Capitol Hill at 1 o'clock and a starting gun 15 minutes later, when

"The farming industry of Pennsylvania is by far the largest single interest and in every adjustment of legislation should receive the first consideration," he continued. "The limits of this address prevent the discussion of some features of legislation deemed essential to our agricultural advancement." He hoped that in any further adjustment of the revenue laws of the state care would be taken that no section, no class of property, no condition of the citizen natural or artificial, no lawful business or calling, would be required to bear

THE SENATE SESSION, The Income Tax Serves as a Text For

Wide Discussion. WASHINGTON, Jan. 16.-The senate gave the session to further speeches in which the income tax served as a text for a wide range of discussion on the tariff, the currency and the Populist platform. Mr. Hill's proposition made last week to amend the deficiency bill so that the income tax would be tested in the courts has apparently started an inexhaustible flow of speeches on public affairs in general. Mr. Cockrell, in charge of the deficiency bill, has sought vainly to secure a vote on the Hill amendment so that the deficiency bill might move along to final passage. He hoped to secure action during the session, but the speeches of Mr. Call (Fla.)

and Allen (Neb.) made this impossible. Mr. Allen took occasion to defend the Populist party against many charges made in and out of congress that it was a party of vagaries. It led to a very full discussion of all Populist doctrine and a comparison of them with the doctrines of other parties.

the parade moved in columns of eight. Several thousand men were in line, including members of the national guard. Political clubs from all parts of the state and volunteer fire companies.

In opening his address General Hastings declared that the recent election disclosed, on the part of the electors, a gratifying and unusual desire for the in telligent discussion and determination of principles and issues, and a purpose to exclude from the campaign that ele ment of personal abuse and vituperation which excites prejudice, inflames passion and misguides the judgment.

The people of the state, he said, and of the country are now happily emerging from a period of financial and industrial embarrassment, which has wrought great injury and distress among all branches of industry and employment. The government ventures the hope and opinion that with returning confidence as to the future, we are gradually entering upon a period of encouraging and

healthy business restoration, and with this end in view the trend of legislation. he said, should be in sympathy with every effort looking to the advancement of all the industrial, material and commercial interests within the borders of the state:

The wag-searning population, he said, has beyond doubt, suffered most. The state that permits large aggregations of capital to be employed should surround the artificial person thus created with the same restrictions, privileges and protection which it gives the individual citizen. The laws affecting each should be just and equitable. The burden of taxation should rest justly and equitably upon both Neither should be a target for the demagogue or the tool of the avaricious Wise laws, rigidly enforced, are indispensable to both, as well as to the state.

Every man has the right to sell his labor at his own price, and is entitled to protection in its performance. Labor has the right to organize for mutual protection and advantage the same as capital, but neither labor nor capital has the right to combine to keep men from working at any price they please. no more than capital has the right to control or pervert the natural channels of industry, so as to depress the price of labor or raise the cost of living.

Referring to and eulog.zing the pub lic school system, the governor-elect said its trend has been such as to give very little prominence to industrial training, to the education that prepares the rising generation to earn a living by the joint ase of head and hand. Said he:

"I hope the time is not distant when our great state, from the abundance of her wealth, will provide, through her school system, the opportunity to every boy and girl within her borders to ob-tain a thorough preparation for any calling or profession as free from cost in the higher branches as are the rudiments now in our township schools."

Referring to the subject of public roads, he said that after a painstaking consideration of the subject he was inclined to suggest that, recognizing the right of local government, where the
