In refusing to carry out the sentence of death on the convicted Hawaiian revolutionists, President Dole has done something more than merely respond to the humane sentiment of this country He has strengthened the position of the Hawaiian Republic and justified its claim to recognition and to protection from all the civilized powers.

THE latest news from Hawaii is that ex Queen Liliuokalani has been sentenced to serve five years in prison and to pay a fine of \$5,000. Her confinement will be at present in the executive building, which was her former palace. She will occupy one of the large rooms formerly used by her overlooking the fine park surrounding the building.

ARTIFICIAL milk is being manufactured in Ohio, and the state food commissioner has adopted measures to put a stop to it. He has obtained the formula of a preparation, consisting of salaratus. giveerine, saltpeter, salt, sodium, phosphate and sugar, which added to a galof water and a gallon of milk makes two gallons of artificial stuff.

THE joint congressional committee unanimously decided to reject the statue of Gen. Grant which was present ed to the government by the Grand Army of the Republic, because it is not a correct representation of Grant, and that its facial resemblance is so imperfeet that it would not be recognized unless labeled with the general's name.

A GRANTIC political fraud is reported from Luzerne county. It has been discovered that hundreds of bogus natural ization papers were used in the late election. In one township alone 100 such forged papers were employed to swell the vote. The signature of the county clerk was forged. The arrest of a number of Republican leaders there will be effected. This glaring bit of political crime has stirred up a vast deal of conjecture concerning the future of the perpetrators.

A TERRIBLE explosion of gas occurred in the White Ash mine of the Santa Fe railroad company, three miles from Cerrillos, New Mexico, Thursday morning of last week, causing the death of at least 39 miners. The first intimation of the disaster was a muitled roar and clouds of smoke and dust rolling from the mouth of the mine. Nearly 300 men are employed in the mine, but only 50 were at work when the explosion occurred. Only 11 of them escaped alive, and some of them may die

The Osborn bill, which has just passed the state senate, provides for the compulsory introduction into every public school in the state of an outfit of not less than two hundred and fifty photographic illustrations, ostensibly for the purpose of pictorial instruction, but really to provide a fat job, at an estimated cost of \$300,000. The house, which was captivated by the pretty "Bird Book," may not fail to be duly impressed with this larger and more voracious bird of prey. But the governor, with a glitter in his eye, has taken down his shotgun. and such a rara avis as this measure will scarcely miss his marksmanship.
